INDEPENDENT AUDITOR'S REPORT

October 21, 2014

To the Boards of Trustees of
Young Women's College Prep Charter School of Rochester:

Report on the Financial Statements

We have audited the accompanying financial statements of Young Women's College Prep Charter School of Rochester (the School) (New York not-for-profit corporation), which comprise the statement of financial position as of June 30, 2014, and the related statements of activities and change in net assets, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. Young Women's College Prep Charter School of Rochester (the School) is an independent public school established under the provisions of the New York State Charter School Act of 1998, codified as Article 56 of the Education Law. The School is affiliated with the Young Women's Leadership Network (YWLN), which supports four highly successful single-gender secondary schools in New York City and others across the United States. The School benefits from the structured and targeted support that YWLN provides for its network schools and affiliates that can be measured in college acceptance and graduation.

It is the School's mission to provide students in Rochester, New York with a safe, supportive, and intellectually engaging educational environment. The central philosophy of the School is that strong student-teacher relationships are essential to student motivation and achievement. The School is designed to strengthen these bonds and assist students in overcoming the demographic destiny of poverty and exceed state achievement standards.

The School's initial charter was executed by and between the Board of Regents of the State of New York and the School in September 2011. The School's initial charter will expire in June 2017.

The School began operations in September 2011. The School provides educational instructions to students in seventh grade through eighth grade. In each of the following school years, the School will add the next grade level until the School has grades seventh through twelfth grade.

Young Women's College Prep, Inc. (the Foundation) is an unrelated not-for-profit corporation formed to provide a bridge between the Rochester community and the School. In addition to providing the School with financial support for identified and targeted initiatives, the Foundation provides selective student programming and mentoring to enhance the students' experiences at the School.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States.

Financial Reporting

At June 30, 2014, all of the School's net assets were unrestricted.

Revenue Recognition

The School records public school district revenue on a per student basis at rates established by New York State (the State) for the school district in which the student resides. Final determination of the revenue earned by the School is subject to review by the Rochester City School District. Provision is made in the financial statements for anticipated adjustments that may result from such reviews. Differences between amounts provided and final settlements are included in the statements of activities and change in net assets in the year of settlement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Cash

The School's cash is maintained in bank demand deposit accounts. The balances in these accounts may, at times, exceed federally insured limits. The School has not experienced any losses in these accounts and believes it is not exposed to any significant credit risk with respect to cash.

Program Services

Regular education expenses include costs incurred in connection with the educational activities of the School. Other program expenses include costs incurred in connection with other than instructional activities provided to students, i.e., community services, health services, food services, athletic services, music, and other student activities.

Grant Receivable and Revenue

Grant revenue is recognized as the related costs are incurred. Amounts received in advance of incurring the related costs are reported as deferred revenue.

The School records an allowance for uncollectible accounts based on historical collection experience and a review of specific amounts outstanding. Accounts are written off against the allowance when uncollectibility becomes known. At June 30, 2014, it was determined that an allowance for uncollectible accounts was not necessary.

Designated Cash

In accordance with NYSED regulations, the School is required to maintain funds to pay for expenses associated with the potential termination of the School or non-renewal of the School's charter. At June 30, 2014, the School had designated funds totaling \$50,000 to satisfy this requirement.

Property and Equipment

Property and equipment is stated at cost or fair value at the date of donation. It is the School's policy to capitalize all additions greater than \$1,000 with a useful life in excess of two years. Depreciation is provided using the straight-line method over the estimated useful lives of the related assets, which range from three to seven years.

Donated Services

Volunteers have donated significant amounts of time in support of the School's activities. However, the value of these services is not reflected in the accompanying financial statements, as they do not meet the criteria for recognition as set forth under generally accepted accounting principles.

Income Taxes

The School is exempt from income taxes as corporations qualified under Section 501(c)(3) of the Internal Revenue Code. The School has also been classified by the Internal Revenue Service as an entity that is not a private foundation.

For tax-exempt entities, their tax-exempt status itself is deemed to be an uncertainty, since events could potentially occur to jeopardize their tax-exempt status. As of June 30, 2014, the School did not have a liability for unrecognized tax benefits. The School files informational returns in the U.S. federal jurisdiction.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. CONCENTRATIONS

The School's primary source of funding is obtained from the New York State Department of Education and is reported as public school district revenue in the accompanying statements of activities and change in net assets. This funding is received on a per pupil basis and was approximately 85% of the School's total revenue for the year ended June 30, 2014.

4. PROPERTY AND EQUIPMENT

Property and equipment consisted of the following at June 30, 2014:

Equipment	\$	81,739
Property		<u>37,888</u>
		119,627
Less: Accumulated depreciation		<u>(31,830)</u>
	\$	<u>87,797</u>

Depreciation expense was \$29,568 for the year ended June 30, 2014.

5. LINE OF CREDIT

The School has a line of credit agreement with a bank allowing the School to borrow up to \$75,000 for operating purposes. Amounts borrowed bear interest at the prime interest rate plus 1.50% (4.75% at June 30, 2014), are unsecured, and are guaranteed by one of the Organization's Trustees. There were no amounts outstanding under the terms of this agreement at June 30, 2014.

Interest

Interest expense and the amount of interest paid with respect to the line of credit was approximately \$100 during the year ended June 30, 2014.

6. COMMITMENTS

The School had a noncancelable lease agreement for its school that required monthly payments of \$14,417 through June 2014 and \$18,750 per month through June 2015. Rent expense recognized under the terms of this agreement was \$216,915 for the year ended June 30, 2014.

In August 2014, the School extended this lease agreement through June 2017. The extended agreement requires monthly payments of \$24,744 through June 2015, \$25,577 from July 2015 through June 2016, and \$24,205 from July 2016 through June 2017.

Future minimum annual payments under the terms of the new lease agreement are as follows for the years ending June 30:

2015	\$	296,922
2016		306,918
2017		<u>290,466</u>
	\$	<u>894,306</u>

7. RETIREMENT PLAN

The School sponsors a tax-sheltered annuity 403(b) retirement plan (the Plan) for all salaried employees. These employees are eligible to participate in the Plan upon hiring and are vested in the School's contributions upon continuation of service after the completion of one year. The School makes contributions to the Plan equal to 3.0% of the employee's annual salary. The School's contributions to the Plan for the year ended June 30, 2014 was \$8,730.

8. SUBSEQUENT EVENTS

Subsequent events have been evaluated through October 21, 2014, which is the date the financial statements were available to be issued.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

October 21, 2014

To the Board of Trustees of
Young Women's College Prep Charter School of Rochester:

We have audited, in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of Young Women's College Prep Charter School of Rochester of Rochester (the School), which comprise the statements of financial position as of June 30, 2014 and the related statements of activities and change in net assets, functional expenses, and cash flows for the year then ended, and have issued our report thereon dated October 21, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control. Accordingly, we do not express an opinion on the effectiveness of the School's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Result:

Procedure performed without exception.

We were not engaged to, and did not, conduct an audit, the objective of which would be the expression of an opinion on Young Women's College Prep Charter School of Rochester's compliance with the requirements of the Charter School Program (CSP) grant and federal and NYSED guidelines in managing the CSP grant as of and for the year ended June 30, 2014. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

October 2014

To the Board of Trustees of
Young Women's College Prep Charter School of Rochester:

In planning and performing our audit of the financial statements of Young Women's College Prep Charter School of Rochester (the School) as of and for the year ended June 30, 2014, in accordance with auditing standards generally accepted in the United States, we considered the School's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control. Accordingly, we do not express an opinion on the effectiveness of the School's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the organization's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

An Appendix E: Disclosure of Financial Interest Form must be completed for each active Trustee who served on the charter school's Board of Trustees during the 2013-14 school year. Trustees are at times difficult to track down in the summer months. Trustees may complete and submit at their leisure (but before the deadline) their individual form at:

<http://fluidsurveys.com/surveys/vickie-smith/appendix-e-trustee-disclosure-form/>. Trustees may download and/or email their forms to you upon completion.

Trustees who are technologically advanced may complete the survey using their smartphones or other mobile devices by downloading the this bar code link to the survey <https://fluidsurveys.com/account/surveys/540612/publish/qrcode/>. (Make sure you have the bar code application reader on your phone).

If a Trustee is unable to complete the form by the deadline (i.e, out of the country), the school is responsible for submitting the information required on the form for that individual trustee.

Just send the links via email today to your Trustees requesting that they each complete their form as soon as possible.
Thank you.

YWCP Board of Trustees Meeting Minutes

Date: September 6, 2013

Time: 8:00am

Location: YWCP, 311 Flower City Park

Present: Laura Rebell Gross, Flor Colon, Duffy Palmer, Erika Duthiers, Jenny Vossler, Cynthia Woolbright, Mary Beth Robinson, Sean Miller, Jennifer Gkourlias, Christine Boev, Natasha Williams

Agenda Item: Approve Last Month's Minutes

Motion to Approve: Mary Beth Robinson, Second by Flor Colon, Approved by all

Agenda Item: Executive Report

- Got a call on the second day of school from State Ed that they were considering closing the school because we didn't have the proper Certificate of Occupancy from the state education department. We got the C of O from the city. In 2010, the state education department made a new ruling that charter schools have to have a special C of O. They cited 3 things: lower the latches on the fire safety windows, put fire proof doors on boiler room and electrical room, and need to be handicapped accessible – both the stairs and a bathroom. We are currently working on all three items and can stay open while the work happens. We're getting cost estimates for the work right now. We can look into grants to help pay for this. The charter office wants a weekly update on progress. We'll keep everyone informed on this. Jenny Vossler motioned to allow the executive committee to move forward and approve the project. Cynthia Woolbright seconded, all approved.
- The executive committee met with Michael Robinson again and he talked about the re-authorization process. He's on the board for UPrep and they have a dashboard where they can make sure they are following their charter to the letter. Duffy has asked Brooke Stafford Brizard to oversee this with our school. When the state comes to reauthorize, they will interview each board member, so this will be a helpful process. Brooke has agreed to take the lead on this and will be in touch with Jen Gkourlias to move forward.
- Michael Robinson also suggested having a board clerk, and Duffy's friend, Barbara, is interested in volunteering for the position. She's offered to take care of the committee website, board minutes, etc. Barbara will work with Lauri Bonnell to move forward.

Agenda Item: Governance Committee Report

- The Governance Committee will no longer be involved in the board member nomination process. That will fall on the Executive Committee

now. The Governance Committee will focus on policies, such as a parent engagement policy, and personnel evaluation, etc.

- Cynthia Woolbright will no longer be on the YWCP board because she will now chair the Foundation board instead. She will remain as a non-voting member and liaison to the YWCP BoF.
- Ann Tisch and Susan Solomon's one-year terms have expired. They will both be moving onto the Advisory Committee.
- Erika Duthiers and Flor Colon will be added to the Executive Committee going forward. This does not need a vote.

Agenda Item: Finance Committee Report

- The committee got three quotes from accounting firms to provide ongoing bookkeeping and accounting services.
- Bonadio will complete the school's audit. The audited financial statement must be provided to State Ed by November 1st.
- Barb Hasler is looking at the financial projections for the current year. We are in a solid cash position.
- The upcoming questions are: the C of O issues, security, and utilities.
- At the last meeting, we moved to approve the school's 403b contribution, and adding Duffy and Barb Hasler as signatories to the bank account. We need to ratify these. Flor moved to ratify those two actions, Sean Miller seconded, all approved.

Agenda Item: Director of Operations Report

- HR – all of our positions are filled. Hasan has signed on as custodian.
- We have a zoning meeting with the City of Rochester on September 16th.
- Our application for Title funding has been submitted.

Agenda Item: Real Estate Committee Report

- The committee spent most of May and June negotiating the lease for our current building. It's a 3-year lease with options, so we have this building if we choose up to 5 years. The landlord has been very cooperative.
- The next action item is to start looking at the next building for the school.

Agenda Item: Audit Committee Report

- This committee is waiting for the formal engagement letter from Bonadio and then will be working on the financial statements to get the filing done on time.

Agenda Item: Health and Wellness Committee Report

- The committee will be meeting next week.

- In the meantime, they did an audit of breakfast and will delve into the lunch program to make sure it's nutritionally sound. They will also meet with the new school nurse to see if she needs any support.

Agenda Item: Foundation Report

- Laura shared the new mission statement and the 5 buckets of fundraising. The budget is \$300k.
- Cynthia is stepping into the role of Foundation Board Chair. Development committee members will be given the option of becoming Board members or staying as committee members.
- Upcoming events: YWLN NYC breakfast on 10/10, YWCP Leadership Breakfast on 12/3, Cool Women/Hot Jobs on 1/16, Health and Wellness Night 5/9
- Lauri Bonnell will email sponsorship information to all board members for the Leadership Breakfast
- Grants: Lauri will submit a revision grant to the RACF for the \$7,500 grant they gave to Summer Bridge. We didn't need it because the United Way grant covered the program's expenses. We'll be resubmitting to put that money toward the Respect Institute.
- The Foundation has posted a job ad for the position of Foundation President, and has begun interviewing people.
- Laura brought up the opportunity to sponsor the Biannual Conference of the National Coalition of Girls Schools. Mary Beth moved to approved the expense of \$5,000 over two years. Duffy seconded it, all approved.

Agenda Item: Principal's Report

- Academic goals: staff is starting working with data teams. We are trying to move our passing rates on the state exam up. Jen's goal is to meet the state's passing rate of 31%.
- We are moving forward with the culture and climate goal. Our theme this year is more co-activity with the girls. We want to give girls more leadership roles. Are our girls being trained to serve as leaders? Jen asked board members to let them know to pass along opportunities for our girls to serve as leaders in the community.
- We are decorating the walls with college pennants so board members are asked to bring their's in.
- We have a few advance classes (high school level) – Algebra 1, Living Environment, US History Regents, Latin 1.
- Another principal goal is to create a mentoring program for our teachers. Adele Bovard is formally mentoring Jen Gkourlias and her math department is mentoring our math teachers. They will meet monthly. We will have the same goals, activities, and best practices as the Webster program.

- Partnerships: Ibero American Action League will send young women into our school to be peer mentors to help prevent teen pregnancy. We are meeting with RIT to discuss future opportunities with them.
- Advisories are eating lunch together this year so they have a full-hour of time.
- Squash will continue again this year. The girls travel for free downtown and are greeted by two coaches. They received tutoring and free squash time at the Harro East.
- Jen believes we need to work on an athletic program. We have a new phys ed teacher, who also teaches health. She will join the health care committee. Students and parents are asking why we don't offer more sports. Shannon and Jessica Mangicaro have offered to coach a softball team in the spring.
- Delta Laboratories has offered to pay for two days of water testing and experiments at Mendon Ponds Park, October 17th and 18th.

Action: Mary Beth motioned to adjourn, Laura Rebell Gross seconded, all approved.

Approved: 11/1/13

Agenda Items

Approval of the September 6, 2013 Minutes

Motion to Approve: *Cynthia Woolbright, Second by Mary Beth Robinson. Approved by all in attendance.*

Executive Report: Duffy Palmer

The Executive Committee is seeking nominations for new Board of Trustees positions. It was suggested that the Board receive a list of the qualities and skills that potential board members should possess linking with the ethics and values of the Board.

Finance Committee Report: Jenny Vossler

The Finance Committee met on September 10, 2013, to review the school's current financial status and projection for this school year. Most of the services and operations of the school are within the FY14 budget year to date. Student enrollment is as projected. The additional requirements for the Certificate of Occupancy (State) are unbudgeted at this time.

Vossler confirmed that the school is in a solid cash position. It was reported that there was real savings in the areas of personnel, benefits, and items that were obtained at no cost to the school. In addition, the Director of Operations is currently reviewing the budget to validate if all of the CSP (Charter School Program Grant) and Title 1 funding

expenses were included in the budget. After validation matching funding through these grants to expenditures, we will have a clearer picture as to how the School is performing against the Budget.

She stated that the cost for utilities is uncertain (due to the move to a new location). The former occupants, the City School District estimated \$60,000 for the cost of utilities. It is also uncertain at this time as to whether the amount budgeted for security is adequate. In addition, there was no budget for the Certificate of Occupancy renovations which will be required by the State.

Audit Committee Report: Sean Miller (Vossler reporting)

It was stated that the Foundation and school must file together. In the future, (according to the Board Chair, Duffy Palmer) the school and foundation will file separately following the separation of the boards. Cynthia Woolbright stated she will resign from the YWCP Board of Trustees to Chair the new Foundation Board. Woolbright will attend meetings as a non-voting member and Foundation liaison.

During the audit process it was discovered that due to turnover of staff prior to this school year, many records were missing and the task of rectifying all was challenging. A compliment was extended by the Board to Vossler and Barbara Hasler, Director of Operations for their diligence in handling the situation.

At the present time, there is \$470,000 in the school checking account. There are numerous expenses that have been incurred but not yet paid, and it is expected that personnel costs will consume some of this cash over the next month. A copy of the financials is prepared and ready for submission.

Action: Vossler asked for a motion to allow the Finance Committee to approve the Financial Statements for submission to the State. Erika Duthiers seconded the motion. The motion was accepted by all.

Governance Committee Report: Erika Duthiers

The Governance Committee will meet on October 28, 2013.

Real Estate Report: Flor Colon

A meeting was held with Ed Flynn (Labella Associates) regarding options for a permanent school building (75,000 sq. ft.) as enrollment increases and grade levels are added. The Committee is looking for building grants and discussing opportunities for a capital campaign with Woolbright. Colon stated that after discussions with bank

partners regarding the options on the table, (Colgate Divinity and the Landsman Property) the acquisition and build-out is expected to be extremely expensive (\$13m).

Palmer and Colon have pursued discussions with the cathedral community. They believe there are several campuses available. There may be a consideration for a campus with 2 buildings but the preference is for one school building for the permanent site. The Board has a good relationship with the cathedral community and believes there may be opportunities to partner.

Hasler suggested an additional option – the MCC Damon Campus - given the location and size (MCC occupied 3 floors within the building). Colon will approach the MCC Board where she holds a Board seat.

Health and Wellness Committee Report: Mary Beth Robinson, Christine Boev

Christine Boev reported that the Committee met on September 11, 2013 and outlined their priorities which included a review of the school lunch program and its nutritional value, a garden planted around the school yard and the addition of Lacrosse to the sports program.

Hasler will forward information regarding the school food service program which is in compliance with State regulations. The Committee suggested that the school staff look into planting a garden around the outside of the building. Principal Gkourlias expressed her interest and stated that she could build healthy eating, fitness and nutrition into the curriculum. Laura Rebell Gross stated that there are several individuals interested in supporting the school.

Suggestions were made to hold clinics and/or an after school program for interested students and provide the opportunity to learn to play Lacrosse. Volunteers and resources are available.

Principal Gkourlias added that 2 youth counselors from IBERO are working with the students at no cost to the school. The PASEOS Program provides an avenue for the girls to have candid and open conversations on the issues that they face every day and receive the guidance to make intelligent, healthy and conscious decisions about their lives and future. PASEOS concentrates on working with teens in the prevention of unwanted pregnancies and physical aggression against women. Principal suggested that the counselors join the Health and Wellness Committee.

The date (May 9, 2014) for the Mother/Daughter Health and Wellness Night was announced. The Committee would like to ask Cyndi Weis from Breathe to host the

event and be the keynote speaker. Living healthy lives highlighting fitness are topics for the evening, yoga fashion clothes will be modeled and activities for the younger children planned. Rebell Gross is available to assist with the planning and meeting with Cyndi Weis.

The next Committee meeting will be held on November 6, 2013, 6:00 pm. at Twelve Corners Pediatrics, 1815 South Clinton Avenue, Suite 310.

YWCP Foundation Report: Cynthia Woolbright

The Foundation Board met on September 19, 2013 to discuss committee structure, annual fund, partnerships and events. Aligned with this change and separation from the YWCP Board of Trustees, members of the Development Committee may choose to join the Foundation Board. Development Committee is dissolved. The Foundation Board is expanding under the leadership of Woolbright. The Foundation's by-laws are developed and pending review from a legal opinion by Duthiers. Chris Simmons was elected treasurer of the Foundation.

Foundation Endowment

Woolbright stated that when seeking donors it is important to have an endowment in place. A plan is in place to begin to build an endowment. Through the Respect Institute, 100 women will be identified to join in fundraising; in turn they will each identify 9 women to commit to giving \$100 each for the next three years. This will create an annual cash flow to build the endowment. All funds will be directed to support the five program areas. A strategic plan is being developed. Simmons is taking the lead in creating the endowment and investing funds.

Foundation President: Laura Rebell Gross

Over 100 people applied for the position of Foundation president. Following an extensive interview process, 2 potential candidates have been asked to return to a final (performance-based) interview conducted by a select interviewing committee. Each candidate will lead a leadership activity with a group of students, present a strategic plan and respond to an unpleasant email from a donor. The goal is to have the new President in place by November 1st with a training and transition period through December 2013.

Annual Leadership Breakfast: December 3, 2013

Kenneth Greene, CEO Bruegger's Bagel Bakeries and the new Brioche Doire at the Rochester Airport agreed to donate all of the food and beverage for the breakfast saving the Foundation \$8,000.

The goal of the breakfast is to raise \$100,000 this year to fund the school's college readiness program. M&T (\$10K), Peter J Solomon Company (\$5K) and Monroe Muffler (\$2K) have committed to sponsor the breakfast. Type J Productions are hired as event planners and Karen Pasquerella and Elizabeth Murray will chair the event.

YWCP Network Event

This event will be held in New York City. Rebell Gross will travel with 2 Rochester YWCP staff members and participate in the festivities.

Principal's Report: Jennifer Gkourlias

Charter Renewal

Gkourlias reported that she spoke with Brook Stafford Brizard about the renewal and compliance report. She stated that SED has scheduled a site visit for 10/24/13. Stafford Brizard is reviewing the original charter proposal and the school's implementation of programs in order to establish a framework to confirm and monitor the key program areas and data points listed.

She asked Board members for any feedback or questions on the financial, organizational and academic goals which are due November 1, 2013.

Data Tracking

The school established a data tracking system and produces biweekly reports utilizing a dashboard to record and monitor student enrollment, demographics, academic scores, student performance and progress. Read 180 is used to track performance in reading but students outnumber licenses. aimsweb provides academic assessments in math providing real-time data. A highly trained data tracker has been hired to support the school administration and teachers, set strategic goals with staff and be on the ground to help monitor student progress over time.

Staff training in aimsweb is complete.

Woolbright asked when the dashboard providing all of the facts and figures about the school would be finalized. She felt that this information is important to attract and

secure future donors. Principal Gkourlias agreed to develop a spreadsheet for the next board meeting highlighting the current status of the school.

Partnerships

- On October 17th and 18th, Delta Laboratories has partnered with the school and is conducting water analysis studies and experiments with a group of students at Mendon Ponds Park – as an environmental science lesson.
- A Center for Youth's counselor works with the teachers and the student body on cyber bullying, restorative initiatives, etc.
- Parental support in developing a campaign to combat cyber bullying, bullying is being planned. Palmer plans to reach out to Jenny Schaff who recently was involved in a bullying workshop at MCC.
- Mentoring Program: YWCP teachers are teaming up and sharing best practices with Math teachers from the Webster School District. Teachers travel to each location.
- United Way of Rochester (Women At Work) a partnership that has increased visibility of YWCP within the community

Sports and Clubs

The school plans to offer basketball in the winter and softball in the spring. A meeting was held with a Section V representative to discuss the sports program.

A decision to hold various club meetings during the school day has saved the school dollars. A swim club at the Y is established and individuals have volunteered to coach a Step Team.

New Teacher Evaluation

Principal Gkourlias provided an update on the State's new reporting requirements in reference to teacher evaluations. The State's formula for teacher effectiveness that charter schools must use when reporting is as follows: 40% NYS Assessment measures, 60% local performance measures. All YWCP teachers are given a final performance rating which is reported on a NYS database for teacher accountability. The school is aligning these requirements with the Charlotte Danielson's Framework for Professional Teaching Practice. Changes were communicated to teachers and revisions were made in the teacher handbook.

School Operations: Barbara Hasler

Certificate of Occupancy

On September 16, 2013, a meeting was held with the City of Rochester's zoning board and as a result the school's COO local application was approved for the next 3 years. Plans are underway to make the building handicap compliant as required by SED regulations.

A meeting was held with the landlord and architects at which plans were presented for renovations to build ramps, repair bathrooms, windows, doors, etc. Updated plans were also presented to the State Education Department. The goal is to have all renovations complete by the end of the year. Discussions continue with the landlord regarding the payment of the extensive renovations. It is expected that the cost may be shared or picked up exclusively by the landlord and the cathedral community.

The AQ Neighborhood Association is requesting a representative of the school to attend the 11/6 meeting. Association members have questions regarding scale up and the projected student enrollment in the current facility at Flower City.

Audit

The auditors began their work on September 9, 2013. The audit is expected to be finalized the end of October. Despite challenges with paper trails, the audit is moving forward smoothly. A process to address gaps and new systems in place prevents future issues. The auditors may write a letter regarding the lack of controls from the past year. Vossler stated that she is confident that all financial transactions are now well-documented and there is a routine and process in place.

Facility Update

The YWCP sign for the front lawn will be installed within the next week.

IX. Finance Committee Report: *Jenny Vossler, Treasurer*

Financial Statements for FY13

Jenny Vossler stated that The Finance Committee met on October 24th to review the Financial Statements for FY13. Bonadio & Co., the school auditors, presented the Statements as well as an Agreed Upon Procedures Report required for the CSP Grant. The audited Financial Statements and the Agreed Upon Procedures Report were approved by the Committee for submission to SED on November 1, 2013. A copy of these Financials Report were provided to the Board. The School's net asset position improved in FY13 with the change in net assets being better than expected in the Budget by about \$40k. The audit was finalized and submitted to the State (include the Foundation and school consolidated statements) on November 1, 2013. She reported that there were some challenges regarding internal controls pre-Director of Operations (Barbara Hasler). Several control recommendations were noted in the Report on Internal Controls and the Management Recommendation Letter. The Director was able to demonstrate to the auditors that the control systems are in place. Sign-off procedures, actual documentation and timely reconciliation of general ledger accounts are now in place.

In addition, we have contracted with a different accounting firm that has a lot of experience in working with public schools and charters to assist the Director of Operations in ensuring that our books and records are accurate and that we are meeting the requirements of our Charter. A copy of the Management Recommendation Letter has also been provided to the Board.

The Financial Statements for the period from July 1, 2013 – September 30, 2013 were also reviewed by the Finance Committee and have been provided to the Board. There are some adjustments required which will be made by our accountants prior to submission to SED on November 15, 2013.

Cash position is solid at \$400K as of October 28, 2013. RCSD funding of \$350k should be received on November 1.

Vossler reported that YWCP is on track to meet its budgeted increase in net assets with the following risks:

- Costs to meet SED Certificate of Occupancy requirements
- Other facility costs not anticipated (security, utilities, repairs)
- Technology support costs – assumed FTE could meet needs
- Foundation funding of general operations of \$60K
- CSP and IDEA Grant funding

The Finance Committee approved and prepared the Foundation's Financial Statements for the last school year. Given the transition, the Foundation Board will need to set up its own internal controls and budget.

Administrator of the 403b Plan

Vossler stated that she took on the position of Plan Administrator/Trustee. She stated that the Director of Operations should hold this title and assume the responsibilities for this official position. The Finance Committee will review fund selections on an annual basis.

Vossler motioned to appoint Barbara Hasler (Director of Operations) as the Administrator of the 403b Plan (Nationwide). Flor Colon seconded the motion. All were in favor. Motion carried.

X. Audit Committee Report: *Sean Miller*

XI. Governance Committee Report: *Erika Duthiers*

Policy Development

Erika Duthiers stated that the Committee met on October 28, 2013. The Committee discussed and agreed on a number of policies that the Board has asked the committee to develop. Members of the Committee committed to creating and advancing the following policies: Employee Compensations and Benefits Policy, Risk Management, Policy for Employment, Procurement Practices, Parent Engagement Policy, Grant Policy and Personnel Evaluation.

Charter Compliance

The Committee is recommending that YWCP use an established worksheet to ensure that all of the compliance obligations listed in the charter are met by the school. She stated this is important to use as a reference guide for day-to-day operations. The

Committee included, but not limited to, obligations pursuant to YWCP charter, the SED requirements, 990 requirements and end of the fiscal year requirements. Duthiers and Stafford Brizard will touch base off line so that there is no duplication of effort in completing the charter's audit.

XII. Real Estate Report: *Flor Colon*

Acquisition of Future School Site

Flor Colon stated a meeting was held with attorneys to discuss options for financing a school building to house the expansion of grade levels and enrollment. Jenny Vossler and Duffy Palmer attended this meeting. They learned that a trend is taking hold whereby charter schools are using public bond funding to purchase, renovate and build-out a school space. This action occurred after the charter was renewed and investors were confident they were making a good investment. She stated that she is concerned with the timeframe, the recruit of interested investors, money to cover the debt service, selection of architects and the acquisition of a space. She stated that even if the Board was ready the day after the charter renewal, finding a building and renovating the space would take at least 2 years. Colon stated that some charter schools received a verbal confirmation of renewal and it takes at least 3 months to receive the official approval.

Plans to acquire a building need to be in place to carry YWCP through the renewal process. She asked for the specifications needed to guide the search for a new school building: classroom requirements, enrollment projections and number of sections for each grade level. Important to have this information in order to find a permanent school site that will meet all requirements.

The Committee needs to discuss all options and consider next steps with the Board. It was reported that the school could occupy the present school site (Flower City) for an extended period of time. Ongoing discussions will take place and a plan put in place to be prepared for the expansion to a new site. We need to discuss options for renting another location to accommodate certain grade level, possible investors, financing a long term bank loan, the ability to handle an annual interest and principal payments on a debt incurred by purchasing a permanent school site.

XIII. Curriculum and Evaluation Report: *Jennie Schaff, K. Brooke Stafford-Brizard*
Report moved to the beginning of the meeting (VIII)

XIV. Health and Wellness Committee Report: *Mary Beth Robinson, Christine Boev*

YWCP Lunch Program

Mary Beth Robinson reported that the Committee is conducting an evaluation of the school's lunch program. A City School District Representative is invited to attend the November 6th Committee meeting. She expressed that after eating lunch at the school, there are numerous concerns about the lunch program and the nutritional value of the food served. The Committee is interested in other options and plans to explore any suggestions made to provide the students with a healthy meal plan.

Education Conference

Rebell Gross informed the Board that she and Jennifer Gkourlias will attend a conference on sharing instructional best practices with principals and teachers.

XVI. Principal's Report: *Jennifer Gkourlias*

Principal Gkourlias presented a new Attendance Policy for the Board's consideration. The goal is to increase daily attendance and reduce tardiness. She noted that last year the school's attendance rate was over 90% but there are many cases where students are chronically absent without notification. With a student waiting list, she stated that she wants to ensure that the students realize the importance of attending school and if not, another young lady should be given the opportunity to attend YWCP.

She stated that the early identification of attendance issues and effective methods to address them with families will increase attendance. Implementation requires support from the entire school community, especially families. The plan is to document why students are chronically absent and develop strategies to improve attendance, address problems such as mental health and child care issues and work with families keeping the lines of communication open between home and school. The lack of parental supervision and transportation are also issues impacting student attendance. She reported that recently, students have left the school due to transportation provided by RTS, which parent consider a safety issue. It takes several weeks to work with the District to acquire transportation on yellow buses.

Gkourlias provided highlights of the steps that will be taken if a student has 5, 10 total or combination of 15 excused and unexcused absences, 20 excused and unexcused and 25 total absences. School staff will be responsible for calling parents, sending

communications, holding face-to-face conferences with parent/guardian and for extreme cases of chronic absenteeism, Child Protective Services will be notified. A parent/guardian will be required to sign documentation of notification of school attendance policy. All contacts or attempted contacts including failure to sign paperwork or meet will be logged. She stated that the Dean of Students was responsible for developing the Policy with support and review. The Policy was also shared with Adele Bovard. Gkourlias asked the Board to consider the Policy and looks forward to responding to any questions or concerns prior to final adoption.

Career and College Readiness

Gkourlias stated that she was a panelist for best practice models at the community-wide event – ROC The Future Summit. Panelist represented the MCC, Rochester City School District, other charter schools. The conference brought universities, charter and public schools together in an effort to work together to increase graduation rates. The group is looking at national efforts with other urban centers (Milwaukee, St. Louis). YWCP was touted as the best charter for common core assessments.

Gkourlias is working with grantors to secure grants for college visits. A Target Grant will be used for a student visit to RIT. Partnership established with RIT for the spring Dream Green visit to the Center for Sustainability.

Increase of Math and English Targets

Gkourlias reported that targets for math and English have been set consistent with alignment with the new standards. Using aimsweb will target gaps and skills.

English: from 9% in Spring 2013 to 16% (Spring 2014)

Math: from 4% in Spring 2013 to 16% (Spring 2014)

Webster teachers continue to meet and mentor YWCP teachers in strategies to increase math performance.

Staffing

Partnerships

- The Jr. Achievement Program is joining YWCP in classes for the students. Time is allotted in the computer room.
- The Highland Planning Group addresses pregnancy prevention which is well-received by students. Schedules are being reviewed so that both grade levels could participate

Parent Involvement

Gkourlias was excited to report that the PTO is thriving and there are 20 energetic parents who want to be directly involved in decision-making regarding school programs and policies. They asked whether they could be directly involved with the Board, possibly attending meetings and part of policy development, fundraising, etc. She reported that there is a day for pictures planned on November 19th. Board will discuss ways parents can be involved and review by-laws. The Governance Committee is developing a Parent Engagement Policy. Duthiers will touch base with Principal Gkourlias.

Sports

Approvals from Section 5 to start a basketball and softball team have been received. YWCP will join the Private/Parochial League. Teachers will coach, generous donations have been received for equipment and the Maplewood Y is the designated gym to practice. Forty Five girls are interested in the Step Program.

There was no response at the meeting but the finance director followed up and called to set up a meeting with Hasler and Board Members. Members of the Committee are concerned with the current program; students (and adults) find it unacceptable with few choices, too few fruits and vegetables. Robinson stated that the Committee plans to visit other charter schools, meet with RCSD regarding the Hybrid Kitchen, develop a proposal and list a number of options for a new School Lunch Program. Robinson listed a few options they may consider:

- Hybrid Kitchen
- Hire food preparers at the school site
- Contract with food providers such as Sarkis

Rebell-Gross also commented on the success of the Breakfast. She asked the Board for suggestions to improve the event for next year. She believes the Foundation could do a better job of fundraising. The following suggestions were made by Board Members (not in any order of importance and listing all comments from Board members):

- 1) Foundation Board should identify the purpose and desired outcome of the Breakfast – “what are we trying to accomplish”
- 2) Market and promote the Leadership Circle
- 3) Market YWCP and the school’s programs and accomplishments to influencers throughout the City
- 4) Add more tables and increase the cost per table and seat
- 5) Develop a plan to solicit and increase the number of ads
- 6) Communicate with attendees throughout the year with school updates, accomplishments, and investments (where money was invested supporting the school program) and possibly consider developing an annual report for donors
- 7) Mark tables with a number, put less items on the tables, plan for lower displays, provide time and be more specific on and during the program for attendees to eat breakfast
- 8) Bring the students and parents upfront of the room so that they are visible to the audience
- 9) Ensure that the statistics outlined within the scripts are consistent and plan for a better way to display (video)
- 10) Consider the location (although most of the Board members felt that the Temple is a prime location to host the event)
- 11) Communicate with the Brighton Police to support by directing traffic, if using the same location
- 12) Provide a list of attendees, names of the individuals who purchased a table, so that the Board could follow-up with their colleagues, etc.
- 13) Provide a list of the *new* individuals who bought tables and attended
- 14) Develop a “fact sheet” for the Board and Foundation Board to disseminate in an effort to market the school, solicit donors and participates for Foundation events
- 15) Secure additional support to the Foundation office during event planning and execution
- 16) Plan the student interviews with honorees during the summer months. This will ensure that the student’s instructional program during the school year is not disrupted.

Palmer commended the work of Lauri Bonnell and the planning and delivery of the successful execution of the event by Type J Productions.

Leslie-Smith stated that a thank-you phone call is scheduled to all donors who contributed \$100.00 or more. Jacobson stated that it is impressive when the members of the Board of Trustees and the Foundation Board personally make the calls to donors.

During this discussion, members stated that there are community members interested in joining the Board. XIV. **Principal's Report: Jennifer Gkourlias**

Principal Gkourlias introduced a variety of different ways that the school plans to work with volunteers and community partners such as college counseling, management, and parent engagement.

Career and College Readiness

Gkourlias reported on several partnerships to support the college readiness program.

- University students from SUNY Geneseo are meeting with the 7th and 8th grade students highlighting the college experience, how to plan, financial aid, etc.
- University students volunteering to support the Saturday program
- Meetings with RIT math professors to create a pipeline of math and science teachers from the campus who will volunteer to work with YWCP teachers and staff
- Grant writing project with AAUW focused on STEM and solving real-world problems.

Math 180

Gkourlias stated that the school's plan of action to increase academic achievement in Math is to use a model based on the Read 180 program. Using Khan Academy online work stations, 8th grade students receive targeted instruction immediately following pretest results and AIS reviews. There is also a plan to increase the students' interest and engagement in computer

science using new software to close the achievement gap – Second Avenue Software. YWCP plans to become a Pilot Site.

In addition, an YWCP Math Team will visit the Rush Henrietta Central Schools to observe AIS practices and instructional strategies in early January.

Read 180 Program

Gkourlias reported the results over a two month period. She stated that all of the girls performed well and increased their scores in reading by a half of a grade level.

Restorative School Practices

Gkourlias informed the Board that a grant of \$1,000 was received to provide teacher training in peace circle practices as a result of the YWCP/PIRI partnership and PIRI redirected to YWCP a Foundation Grant to support the advisory and restorative initiative in the amount of \$21,000.

She stated that the school continues to work with IBERO counseling students and individuals have expressed an interest in joining the YWCP Board. Both Palmer and Robinson stated that they would prefer that they join the Health and Wellness Committee and take on a project, work with the Committee Chair and then be considered.

Staffing

Gkourlias shared with the Board that it was decided not to post the ELA position and keep the long term substitute in place until June. She is very pleased with the level of teaching and rigor. She also stated that she is seeking a retired math teacher to work with the 8th grade Math Team on intervention and AIS.

Parent Engagement

A meeting was held on December 11 with the Advisory Council. Gkourlias would like clear direction on how the Council could have input in Board decision-making. The Advisory Council meets monthly with school leadership to provide input on policy development, design and operations of the school. Dr. Sonia James-Wilson has offered to assist with the development of bylaws, roles/responsibilities and offer direction for the PTO and school in terms of family engagement.

Sports

Girls modified basketball team played Mercy and AQ. Gkourlias stated that the girls played together as a team, their peers and parents were there to support them and she was proud to be their principal. She stated that she would send a schedule to the Board. The girls practice at the Kodak auditorium.

YWCP's students are featured on Homework Hotline on December 5, 12 and January 9, 16, and 23. Students will present their book reviews. To access www.homeworkhotline.org/ela.

Gkourlias stated that YWCP will join YWLN (New York City) on a trip to Washington DC in May. Fundraising efforts are underway and the school would like to send students who are interested. Discussions took place regarding the fundraising effort and whether it should be connected with the Foundation by holding the funds in an account or whether a separate account be set-up as a school activity fund which requires several regulations (as listed in the SUNY Fiscal Operations resource guide book). Board members stated that interested students should put forth a good effort in fundraising as part of their responsibility. Rebell Gross suggested writing a grant to support the trip if fundraising efforts fall short.

XV. School Operations: *Barbara Hasler*

Barbara Hasler stated that she has yet to receive any information from the Cathedral Community regarding proposal to support the school in meeting the SED Certificate of Occupancy requirements. She informed the Board that the State would not accept a partial proposal in stages for ADA compliance. Colon stated that she invited a member of the Cathedral Community (Carol) to attend the Leadership Breakfast to sit at her table who was very impressed with the school and program.

Hasler reported that she is focusing on the preparation of the final report identifying expenditures for the CSP grant issued the past year. It is taking some time to track. She believes with the systems now in place, this task should be seamless.

XVI. Old Business. No old business.

XVII. New Business.

Palmer brought up the recent communications regarding the City Newspaper article featuring an interview with Bolgen Vargas, Superintendent of the Rochester City School District. He referred to the recent email from Brooke Stafford-Brizard. The discussion focused on whether the Board (or a Coalition of Charter School Boards) responds in a letter to the editor disputing some of the statements made regarding charter schools. Board agreed that the article really centered on the lack of leadership at the District and its ineptness to solve problems.

Jacobson expressed his displeasure with the District and the lack of control and accountability and the fact that the bashing of charter schools continues within the community. He knows that charter schools are on the path of improvement and felt it was important to respond in a positive way highlighting solutions and creative strategies for change. He also talked about the success of the Hillside Work-Scholarship Program, its promising graduation rate and percent of students entering a 4 year college. He stated that the Program is recognized by communities outside of Rochester as an exemplary program supporting urban youth.

Vossler reminded the Board that the District controls services and funds to charter schools. Robinson suggested we enlist the New York Charter School Association to clear up any misunderstanding for the community regarding charter schools. She asked whether there is a Rochester coalition of charter schools. Palmer responded the group was not formalized. The Northeast Charter School Network may be an organization the Board could approach but there is a per pupil cost to join.

Palmer stated he would follow-through and contact a representative from the Northeast Charter School Network to get their thoughts on whether or not we should respond to the article. He noted that he felt that the Board is in agreement that a letter should not be sent from our Board exclusively.

XVIII. Meeting Adjourned:

Palmer stated that due to the holiday the next meeting is scheduled for January 10, 2014. He informed the Board that he will be away and Vice Chair Rebell Gross will chair the meeting. Mary Beth Robinson motioned to adjourn the meeting of December 6, 2013. Flor Colon seconded the motion. All were in flavor. The meeting ended at 9:40 am.

VII. Real Estate Report: Flor Colon

Flor Colon stated that members of the Board met with representatives from the Colgate Divinity School on December 20, 2013 to discuss buy and lease options for this school property. After the discussion, it was determined that the best financial option for YWCP is to consider the purchase of this property to house the YWCP permanent school site. This is with the understanding that YWCP is in a renewable

position in 3 years and YWCP negotiate an agreement upfront with the owner securing the right of first refusal. Colon also stated that charters have been successful in securing bonds to purchase property prior to renewal. She stated that YWCP would need the entire building for its permanent location. She provided several steps that need to be taken immediately:

- 1) Review and evaluate the financial situation to consider how much YWCP can afford for debt service
- 2) Consider a capital campaign
- 3) Locate and secure grant money to support the purchase of the building – long term
- 4) Use of development funds
- 5) Combine efforts with the City and State
- 6) Contract with a consulting firm to assist with the management of this facility investment project (strategic planning, preconstruction and construction services)

Colon stated that she has been discussing the project with Joe Burkart (Northeast Preconstruction Ventures) who is well-known for his work with major building construction and renovations (Fairport Central School District and St. John Fisher). She stressed the need for a firm with this expertise to move this project. She reported that there is a proposal on the table to purchase services (strategic planning, preconstruction and construction services) up to \$18,000 and suggested the Board agree and approve the motion to retain this firm. This expenditure is for 6 months, billable hours worked. Colon presented this as a time sensitive issue and expressed the need for a master schedule for build out with a cost analysis. To move forward expeditiously, the plan is to present a proposal with options to purchase the building to the Colgate Divinity Board over the summer with Board approval in April.

Vossler stated that this would require Board approval for the amount of the proposal (\$18,000) because it exceeds the amount (cap) of an expenditure that requires an official Board vote of approval.

At this time, several members are participating via the conference call line. It was confirmed by Erika Duthiers that the open meetings law requires that board members be present when the board is convened and a formal vote is taken; but allows participation by video-conference technology (including Skype) so that both sides see each other. It was suggested that a roll call with confirmation of attendance prior to the next meeting (2/7) happen when a vote is imminent and a quorum necessary to move an agenda item.

Board members agreed to have Colon secure services of Northeast Preconstruction Services for one month in the amount of \$2,500 to begin the project (an allowable expenditure).

Vossler cautioned the Board when making a commitment to purchase before YWCP's charter is renewed. Colon agreed and stated that YWCP would negotiate an option to buy included in a term agreement with the Board of Trustees from the Colgate Divinity School. Colon stated that a multi-year agreement would be acceptable since the Divinity Board needs to secure another location for the programs presently housed in the building. She stated this is not a short term investment and it could take at least 5 years before YWCP is permanently in the new site.

Rebell Gross reported that there is a meeting scheduled with Isobel Goodman (Director of Grants and Programs) of the Max and Marian Farash Foundation. She stated that there is a possibility of writing for and securing a renewable grant for \$250,000 to use as seed money for the new school building. Vossler stated securing this grant would relieve the general operating funds. LaShunda Leslie-Smith was asked to join the meeting. This grant is not due until July 2014, therefore would work with the schedule advanced by Colon regarding the April presentation and work over the summer.

Regarding the grant from the Farash Foundation, Leslie-Smith stated that there are other options for funding through this grant such as furniture, smart boards, technology, lab tables, and kiosks growing out YWCP as a high tech school as previously proposed. These are items that could be transported to a new site. From her understanding, the grant requirements are to support a school facility and its build out.

Barbara Hasler stated that the Cathedral community responded to YWCP's request for support the IDEA compliance costs. A statement directly from the community was presented to the Board:

The finance council is very appreciative of the relationship established with your school and is very supportive of your mission. The council would like to offer YWCP the assistance necessary to ensure that the renovations noted by NYSED are completed in a timely manner. The Cathedral Community would be willing to complete the needed renovations in an agreed upon timeframe with YWCP. However, the Cathedral Community would amend the current lease to include a reimbursement of the total expenses to be reimbursed prior to the end of the current term.

She is arranging a meeting with Carol Wynne from the Cathedral Community to move forward with Board approval. The Board agreed this is the best option giving the school a longer time to pay the expense with more cash in the general operating budget. Vossler stated that the lease agreement must be formally amended and approved by the Board. She advised the Board that upon renewal, this expense is dropped from the lease agreement.

VIII. Finance Committee Report: Jenny Vossler, Treasurer

Jenny Vossler stated that the Committee is meeting on January 30 to review 5 year projections and the financial statements for December which will be presented to the Board in February. Vossler shared a FY14 projection with the Board and compared it to the forecast. She indicated that there is a surplus (\$92,000) which does not include future costs related to the IDEA compliance expense to meet SED requirements. Vossler reviewed variances with the Board: higher and maintaining enrollment than previously budgeted, personnel cost savings, health benefits less than budgeted, savings from moving expenses, textbooks, and other services. She said that dollars were left in the CSP grant that will be used to prepare for the next year's (2015) class enrollment and expansion over the summer. She mentioned \$60,000 for general operations from the Foundation fundraising efforts but was not sure how much would be available. She felt that the budget is being managed extremely well, systems are in place. Vossler stated that her next step would be to talk to Chris Simmons (Treasurer, Foundation Board) to discuss how the cash flow would work and other issues.

With a favorable cash position of \$300,000, she stated that the Board is well within the surplus of 2% of the budgeted amount in accordance to SED guidelines.

She added that she made a transfer of \$25,000 from the disbursement account to the escrow account as required by the Charter for the dissolution fund.

Additional Comments:

Leslie-Smith asked whether the Board or Foundation would consider hiring a grant writer. Hasler stated that Duffy Palmer (Board Chair) and she met with grant writers for building and program development.

Cynthia Woolbright provided information on the Wayne Gretzky Foundation's and the new funding endeavors and opportunities. She stated with new leadership funding has shifted to cities, collaboration of organizing schools, culture and the arts. Funds are available through grants and loans. She recently had a conversation with the City's new Deputy Mayor regarding neighborhood revitalize, the recent report on Rochester's poverty, the work of the Foundation and other opportunities. She felt there may be an opportunity for the Board to work with the City of Rochester.

Member visits to other charter schools (Urban Choice, Genesee Community Charter School, Harley) are also scheduled. More discussions with Wegmans and the RCSD about other options are still on the table. At this time, the Committee feels that the best option would be to contract with Sarkis Caterers. Cynthia Woolbright stated that 7 new members were added to the Leadership Circle. This brings the total of Circle members to 35. The goal is to recruit 100 women who are willing to recruit 10 women to give \$100 each. This is to target those who want to give, but cannot make larger contributions. The contributions will be put toward the budget and building the endowment. XIV. Principal's Report: *Jennifer Gkourlias*

Student Achievement Goals

Principal Gkourlias set goals for ELA and Math working with Data Teams and consultant Lorena Stabins through Monroe 2 BOCES. A review cycle is in place and teams meet every week to review relevant data on student achievement. This is followed by creating action plans to adjust instruction to address results and findings. She stated that the contract with BOCES is funded at a discount through Title II. Gkourlias is preparing a schedule to visit and talk with successful charters within the region. She did share with the Board that most of the charters who have increased student performance have hired Literacy and Math coaches working directly with teachers. She stated that most of the YWCP teachers are novice and need this type of assistance, mentoring and support.

Math Instruction

YWCP recently hired a math consultant to support the review of the math curriculum, address gaps, provide instructional coaching and ensure alignment to the Common Core Standards. The consultant, Patty Guzelack, has more than 35 years teaching math and coaching teachers. She is currently developing teacher leadership program in mathematics. Guzelack will be in YWCP classrooms at least twice a month, working with teachers and modeling mathematical practice aligned to the Common Core Standards.

Parent Engagement

Gkourlias reported that dialogue with parents continues regarding a structure for Parent Engagement. It was suggested that the school create a school-base planning council to be part of policy development, decision-making and event planning. The Board agreed that it is important to have parents feel involved and engaged. Principal Gkourlias, Duthiers and Hasler are meeting to develop a Parent Engagement

Policy. Gkourlias stated that parents want to attend Board meetings and have a greater role in Board decisions for the school. She would like to have a Parent Representative sit on the Board who is elected from the PTO to represent the parent voice. Rebell Gross stated that the original charter includes parents as non-voting members but an amendment could be advanced. Gkourlias also suggested that a student representative be assigned to the Board, attend Board Meetings and provide a monthly report from the student perspective.

Duthiers stated that Board Meetings are open to the public and dates and times are posted on the website. The government structure presently works for the Board. Gkourlias stated that parents would like the Board to consider evening meetings when most parents are available to attend.

Adele Bovard stated that the school administration should look into the **Harvard Family Research Project (HFRP)**, and the rubric customized to provide a structure for parent engagement. She added that students do provide reports representing the Webster PTSA at Board Meetings.

VI. Real Estate Report: Flor Colon

Flor Colon re-introduced the agenda item to hire a Project Manager to support the Board as they lay the foundation to begin the process for consideration to purchase the Colgate Divinity School as the future site for YWCP. She reaffirmed the quality of the work within the community and reputation of Northeast Preconstruction Ventures (NPV) under the leadership of Joe Burkhart. She stated that Mr. Burkhart is very familiar with school site and construction projects given his work in Fairport and with St. John Fisher College. Palmer and Colon also stated that Mr. Burkhart has been offering his assistance

and guidance from the beginning in several ways: looking at various school sites, making connections with firms such as LaBella Associates who completed sketches (pro-bono) and support from realtors.

Colon refereed to the proposal from NPV she sent to members of the Board for their review prior to the meeting. She stated that the first part of the proposal to begin the work was approved by the Board on January 10, 2014. The total proposal in the amount of \$15,000 will assist the Board with understanding the process of assessing the project, timeline and schedule when decisions should be made, preconstruction, working with other entities and the bonding process. Colon stated that this contract covers a 5 month assessment period and is asking the Board to approve the entire proposal. Palmer asked for any discussion.

Laura Rebell-Gross asked whether this proposal commits the Board to signing on with Colgate Divinity exclusively. Colon responded that this work does not tie us to the Divinity School.

Brooke Strafford-Brizard asked whether NPV would support the Board if a decision is made to look at other alternatives in the area. She stated that other realtors showed the Board several other properties. Palmer responded that Burkhart has been with the Board in the search for other sites but felt that this is the best option for the school.

Howie Jacobson asked what the timetable is for the Colgate Divinity School.

Colon responded that there will be more discussion at the March 7 Board meeting, followed by the Special meeting called with the lawyers (Nixon, Peabody) and Joe Burkhart on March 11th. During this meeting a discussion will occur regarding bond financing, the development of an agreement containing a right of refusal clause. The anticipated timeframe is to begin bond financing in 2016 and purchase in 2017 followed by a construction period. She stated that following these 2 meetings, she would request Board approval to move forward with a proposal to the Executive Board of Colgate Divinity.

Colon proceeded to make a motion to accept and approve the proposal submitted by Northeast Preconstruction Ventures. Erika Duthiers seconded the motion. Palmer called for a roll call vote:

Bovard – Yes
Colon – Yes
Duthiers – Yes
Jacobson – Yes
Rebell-Gross – Yes
Stafford-Brizard – Yes
Williams – Yes
And Palmer voted yes.

The acceptance and approval to move forward with the NPV proposal is adopted unanimously.

A question was raised by Duthiers regarding the negotiations with the Executive Board of Colgate Divinity and its interest in working with YWCP.

Colon responded that the Board has shopped around for several years looking for a buyer and would welcome another school in the building. The Divinity Board has an emotional attachment to the site, values education and agrees with the mission of YWCP and the single gender school. The Divinity Board does not want to sale to a real estate developer. She stated that there is 20 acres of land and the school presently occupies a small section of the site using only 3 classrooms. She stated that the timeline is in their best interest giving the Divinity Board time to locate another location for its school program. Colon stated that the option negotiated would require annual payments but this will not occur until the bond is approved.

Palmer remarked that since this is a historical site there is an opportunity to secure funding from grants and the community. The Board felt the community would be excited and rally to support the school with donations, naming rights, etc. Colon stated if all goes well, she would like the announcement to be made at the annual leadership breakfast in December.

Cynthia Woolbright commented that this timeline should serve as a good period of grieving for the Divinity Board and would have extensive community support.

Palmer, on behalf of the Board, thanked Colon for her leadership managing this complex project.

VII. Executive Report: *Duffy Palmer, Laura Rebell Gross, Vice Chair*

Palmer shared information regarding a discussion with the Northeast Charter School Association. Barbara Hasler, Director of Operations attended the meeting. He stated that the two representatives held extensive charter school knowledge and most importantly, the renewal process. Palmer felt that this organization could assist the Board with developing a strategic plan and their presence at the June retreat would benefit long-range planning. They agreed to send a proposed agenda. The cost to become a member of the Association is \$15.00 per pupil. Duffy informed them that at the present time, the school could not afford membership. He stated that they are still willing to support YWCP.

Palmer asked the Board to be available the whole day for the June meeting.

She plans to schedule ongoing evaluations and expressed her satisfaction with Leslie-Smith performance since she started in November.

Board Governance

Foundation Board is planning a retreat to discuss the development of a long range strategic plan, governance and structure, Board recruitment and onboarding and policy development. Palmer suggested coordinating with Duthiers re: policy development so that both Boards are aligned. Woolbright suggested a joint meeting with the Foundation Board and YWCP Board of Trustees to discuss alignment, sending a consistent message from all parties, working with school administration and community engagement. YWCP will go through the process in August 2016 with a SED visit in October or November and confirmation of renewal in the Spring of 2017. She stated that the more knowledge the whole Board has about the steps that lead up to the reauthorization the smoother the process. She stressed the importance of Board preparation for the renewal. She stated that the Board must be familiar with the components of the Charter, know the authorizer, communicate and respond to requests, and be proactive with reports.

important. She suggested creating a dashboard that can help track all the information needed aligned with Charter benchmarks.

V. Finance Committee Report

FY15 Budget

She stated that the Budget was developed during January/February, Finance Committee reviewed and several meetings took place with Duffy Palmer, Board Chair, Barbara Hasler, Director of Operations and Jennifer Gkourlias, Principal. The Committee spent time discussing the Budget along with comparisons to the prior year.

She stated that the main variance is due to the addition of another class with an increase of students and teachers. The majority of the revenue comes from the per pupil allocation received from the RCSD. She reported that \$63,000 is included as revenue as a new NYS per student allocation. YWCP will not receive funds from the CSP Grant for planning and implementation (a 3 year grant that has ended). There is no Foundation dollars listed within this budget. Foundation maintains commitments to counselor position, college readiness events and Summer Bridge.

Stafford Brizard asked if the Board is prepared if the Foundation cannot support the counselor position. Vossler identified this as a risk and stated there are ample funds to cover this position.

Vossler added that this budget includes funds to hire teaching assistants for each grade level, additional licenses for Math 180 and Read 180 to meet academic requirements and furniture and computers due to an increase in students and staff. The teaching assistants will be hired overtime. Another expense includes the increase in the rent payment which pays for the facility renovations to ensure compliance with COO, ADA in accordance with SED requirements.

Vossler summarized. She stated that there is a net income of \$312,000, cash flow of \$250,000 and the required \$25,000 is in the escrow reserve account. Vossler advances a conservative budget with a solid surplus that she and the Finance Committee feel confident should meet school needs and any unanticipated expenses.

Vossler brought up teacher compensation and asked for a discussion in the future on what could be done to be more creative offering incentives to retain quality staff. She also stated that the Committee needs to be more mindful on how resources are allocated to support the Charter's key design elements.

Principal Gkourlias talked about student enrollment and projections. She asked the Board to revisit assumptions regarding enrollment.

Rebell-Gross stated that the school needs a more aggressive recruitment plan with creative outreach strategies. She stated with the quality program YWCP offers there should be an extensive waiting list of interested students.

Brooke-Stafford stated that she believes that the school is not using the outreach strategies highlighted within the Charter.

DRAFT

Enrollment Targets: Progress Toward Goals

Describe the efforts the charter school has utilized in 2013-14 and a plan for efforts to be taken in 2014-2015 to attract and retain a greater enrollment of students with disabilities, English language learners, and students who are eligible for free and reduced priced lunch.

Target	12-13	13-14
Enrollment: 75 per year, not to exceed 450 at scale	81	166
Free/Reduced Lunch: 86.4%	90%	88%
ELL: 9.7%	6%	5%
SWD: 16.4%	7%	10%

YWCP attracts and retains our students from our target population, female students in the City of Rochester, from the lowest income neighborhoods. Efforts are made to recruit actively from schools with high numbers of LEP students and students with disabilities. YWCP's population reflects that of the Rochester City School District. Recruitment events are advertised through direct mailings to the homes of sixth grade students. The list of students is provided to YWCP by the Rochester City School District. In addition, events are made public through social media, facebook, posters in schools and recreation centers, and emails to PTA groups and school leaders and teachers in the Rochester City School District. This year, the school district did not hold the annual school expo, which YWCP was a two-time participant in. Instead, YWCP participated in a charter school fair sponsored by the City of Rochester and another local charter consortium. This event was held at a recreation center in the central neighborhood where the majority of YWCP students reside. In addition, open house events are held 3 times annually, inviting families to tour the school, meet the staff, and learn more about our programs and events. This year, one open house was rescheduled due to extreme weather conditions. Specific pipelines for LEP and students with disabilities are identified and YWCP students and staff visit schools with high LEP populations to meet these students and recruit them to apply at YWCP. These included the dual language programs at Schools 9 and 22 and the Rochester International Academy, which serves newcomers learning English. Materials are disseminated in English and in Spanish to ensure communication with Spanish speaking families is clear and that our school is accessible to these families.

In our founding year, our special education percentage was below the target at 7%, however, in 2013-14, special education classification rates increased to 17 pupils out of 166 or 10%. YWCP special education coordinators, teachers, and school leaders maintain high levels of communication to ensure that appropriate records and IEPs or 504 documents are obtained from the host district in a timely fashion. In addition, YWCP makes every effort to serve students in the least restrictive environment and

special education students are thriving at YWCP in less restrictive environments than when served in the district. Parents may request a tour and students are encouraged to visit the school and shadow our students to explore the option of YWCP. We have informed the Committee on Special Education Chairpersons from our host district of our desire to increase the number of pupils with IEPs at YWCP and have enrolled even more students with specialized learning needs which will be reflected in our 14-15 numbers as our report will reflect. This area is showing progress each year.
