CHARTER SCHOOL

2012-13 ACCOUNTABILITY PLAN

PROGRESS REPORT

Submitted to the SUNY Charter Schools Institute on:

September 9, 2013

By Atiba Edwards

80 Underhill Ave.
2nd Floor
Brooklyn, NY 11238
(718) 250-5760

Atiba Edwards, the Director of Operations at Brooklyn East Collegiate, prepared this 2012-13 Accountability Progress Report on behalf of the school's board of trustees:

Trustee's Name	Board Position
John Greenstein	Treasurer, Finance Committee
Bob Howitt	Trustee, Executive Committee
Eileen Shy	Trustee, Accountability Committee
Linton Mann III	Chair, Executive, Accountability, Joint High School Committees
Julie Kennedy	Trustee, Executive, Accountability, Joint High School Committees
Stuart Linde	Trustee, Finance Committee
St. Claire Gerald	Trustee, Executive Committee

Bill Cooke has served as the Principal since July 1, 2013.

INTRODUCTION

MISSION and GRADES SERVED

The mission of Brooklyn East Collegiate Charter School (BEC) is to prepare each student for college. Brooklyn East Collegiate Charter School opened on August 31, 2010. The school opened with 5th grade and will grow to grades 5-12 over time. We added our first eighth graders this year and will grow from two eighth grade cohorts to three next year.

STUDENT POPULATION

Brooklyn East Collegiate Charter School enrolled 214 students during the 2012-2013 school year in grades 5, 6 and 7.

NOTE: *This snapshot is as of BEDS Day, Oct 3, 2012.*

Gender	58% Male 42% Female
Free & Reduced Lunch	79%
Special Needs	11%
Ethnicity	90% Black 10% Latino
English Language Learners	0%
Geography <i>Students selected via public lottery.</i>	CSD 13: 41% CSD 19: 16% CSD 18: 14% CSD 16, 22, 23, 24, 32: less than 8% each

STRATEGY

Brooklyn East Collegiate Charter School's educational program rests on three pillars:

1. We believe that creativity flourishes within structured academic environments.
Good work cannot occur unless there is a safe and orderly environment in and out of the classroom.
2. We have very high academic and behavioral expectations.
High expectations demand significant amounts of extra support before, during, and after school and on Saturdays.
3. We know that without great teachers, nothing else matters.
Teachers must have the time and professional tools and resources to do their jobs effectively.

At Brooklyn East Collegiate, we do not believe that there is a panacea that makes a school work. Nor do we pretend that what we do is “rocket science” or necessarily innovative. BEC teachers work hard and use common sense because elevating student achievement and transforming lives requires constant attention to hundreds of different elements – not one, magical 100% solution but rather one hundred, individual 1% solutions.

DESIGN

Brooklyn East Collegiate Charter School’s school design includes seven core components.

Focus on Literacy. Many of our students beginning in grade 5 are reading substantially below grade level. If we do not address this dramatic and central issue immediately, students will be at a huge disadvantage in all subjects in high school and college. The ultimate academic success of BEC students, therefore, is tied to mastering this fundamental skill. In 2012-2013, BEC provided explicit instruction in literacy skills and inculcated the reading habit through:

- 2.5 hours of daily literacy instruction;
- Guided reading groups in every class for fluency and comprehension practice;
- Use of STEP reading program in guided reading groups for students below grade level
- Wilson Reading program during lunch for students who needed additional support with reading fluency
- Requiring students to read reading level-appropriate books during the summer;
- Requiring graded, written work in every class, including math; and
- Requiring students to carry a silent reading book at all times to serve as the entrance ticket to school in the morning, make better use of transition time in the hallways, and ensure that there is never a lost moment during the day since “you never know when you’ll have a chance to read.”

Target Curriculum Focused on Basic Skills. BEC does not use an off-the-shelf curriculum. Rather, BEC develops curriculum directly from the New York State Learning Standards that ensures students master a core set of basic academic skills before they can master higher-level, abstract material. BEC teachers pay particularly close attention to the topics, sequence, and performance standards outlined in the New York State standards. This ensures that students are mastering the same material as their peers throughout New York State. At the same time, we trust teachers to adapt the subject topics and performance standards according to their professional expertise. BEC teachers create a comprehensive curriculum for their subject, saved on the school’s shared drive, with a year-long scope and sequence, individual unit plans, daily lesson plans, and assessment materials. Not only does this provide the school with a record of individual course instruction but this also serves as a valuable curricular planning resource for returning and future teachers.

Assess Early and Often to Drive the Instructional Program. The most effective schools use assessment to diagnose student needs, measure instructional impact, and build a culture of continuous reflection and improvement. In addition to the TerraNova Assessments and New York State Social Studies, Mathematics, and English Language Arts exams, BEC administered three internally-aligned Interim Assessments and one Final Exam in Math, English Language Arts, Science and History. These tests assessed ongoing student mastery of Math, Reading/Writing, Science and History skills and standards throughout the year and provided immediate data on individual student and class growth. BEC

teachers, with the support of the Principal, used this data to identify standards mastered and standards in need of re-teaching so that lesson plans could be continuously adjusted. BEC also utilized the information to target content- and skills-driven tutoring and small-group instruction afterschool and on Saturdays. In 2013-2014, Brooklyn East Collegiate will expand the interim assessment program into grade 8.

Make More Time. In order to provide students with a comprehensive, college preparatory education, Brooklyn East Collegiate has a longer-than-usual school day and longer-than-usual school year. During the 2012-2013 school year, Brooklyn East Collegiate was open 180 instructional days for students (202 days for teachers). For most students, the regular school day began at 7:45 AM and ended at 4:30 PM. For those receiving tutoring and homework help, the day ended at 5:30 PM.

During the week, we have 90 minute math classes and 60 minute classes for Reading, Writing, History and Science. On Wednesdays, we run a schedule that has 60 minutes of math (every Wednesday) and on an alternating basis – 60 minutes of Reading and Writing on one week and 60 minutes of History and Science (Week B) on the other week. This is designed to allow for significant staff meeting and professional development time. Students at Brooklyn East Collegiate received weekly:

- 7 hours of Mathematics class
- 5 hours of Reading class
- 5 hours of Writing class
- 2 hours of guided reading
- 5 hours of Social Studies
- 5 hours of Science
- 3 hours of Enrichment

Brooklyn East Collegiate students extended their learning beyond the school day completing, on average, one-and-a-half to two hours of homework every night.

Emphasis on College. For too many at-risk students, college only exists in the abstract. For Brooklyn East Collegiate students, freshman year of college will be a natural extension of their educational experience at BEC.

Brooklyn East Collegiate students began talking about college on the first day of school as their advisories are named after the alma maters of their teachers. Through informal conversations in advisory and in classes, students learned about the college application process, financial aid, dorm-life, selecting a major, and other important aspects of college survival.

During the regular school day, from 3:30 to 4:30 PM four days per week, BEC offers a variety of rotating electives, or Enrichment classes, including:

- Art
- Basketball
- Chess
- Lacrosse
- Crafts
- Knitting
- Soccer

- Drama
- Step
- Hip Hop
- Drumming

From 4:30 to 5:30 PM, BEC offers subject-specific tutoring and requires students struggling to regularly complete homework assignments on-time and at high quality to spend an additional hour in Homework Center working on that night's homework assignments.

BEC's school culture is based on its five core values: Perseverance, Respect, Integrity, Discipline, and Enthusiasm. Brooklyn East Collegiate students are expected to consistently demonstrate these characteristics wherever they find themselves and are rewarded with merits when they model these characteristics well. Students earning merits receive the opportunity to represent the school on merit trips and trade their merits at Merit Auctions for tangible rewards. Every other month, by participating in merit-earned trips either with a group of the top merit earners or one-on-one/two-on-one with staff members, merit winners develop the more abstract skills necessary for true college preparation (e.g., trying new activities, demonstrating leadership and professionalism, and participating in community service). During the 2012-2013 school year, Brooklyn East Collegiate students

- Attended a Brooklyn Nets Basketball game
- Walked across the Brooklyn Bridge
- Visited the Museum of Natural History
- Went to the movies or dinner with staff members
- Played basketball against staff members
- Went ice skating in Bryant Park
- Won the championship in boys soccer and JV girls basketball
- Participated in the "Writing Oscars" and math competitions

Provide Structure and Order. Students need a safe and orderly environment to be productive. In 2012-2013, BEC created a calm, composed, and disciplined environment to maximize the amount of time on-task. Strategies included:

- strictly enforced school dress code;
- merit system that defined clear expectations of and immediate responses to positive behavior;
- demerit and detention system that defined clear expectations of and immediate responses to negative or inappropriate behavior;
- rubric system that provided immediate feedback to classes at the end of each class each day; and
- common Blackboard Configuration (BBC) consisting of a Do Now, Aim, Agenda, and Homework.

Insist on Family Involvement. BEC's educational program is structured so that families must be involved in their child's academic pursuits. In 2012-2013, BEC families:

- picked up their child's report card in person at the school three times;
- met with teachers and staff on dozens of occasions to formally and informally discuss their child's academic and behavioral performance;
- maintained an open line of communication with their child's teachers through in-person meetings, bi-weekly advisory phone calls, and e-mails;

- attended Family Involvement Committee meetings throughout the year to better understand the curricular program, learn about summer camp opportunities, and talk about how to communicate with their pre-teen;
- were asked to offer input on the school on mid-year and year-end surveys, grading the school on how it was doing;
- participated in an array of charter school advocacy efforts and
- were offered the opportunity to watch their children perform in their chosen Enrichment activity at two public performances during the course of the year, with the Winter Celebration being followed by a potluck dinner.

School Enrollment by Grade Level and School Year

School Year	K	1	2	3	4	5	6	7	8	9	10	11	12	Total
2009-10														
2010-11						79								79
2011-12						79	59							138
2012-13						89	69	56						214

ENGLISH LANGUAGE ARTS

Goal 1: English Language Arts

Students will be proficient readers and writers of the English Language.

Background

Background

Reading instruction at Brooklyn East Collegiate is based around shared, whole-class novels combined with targeted guided reading instruction. The curriculum develops reading comprehension skills and strategies and vocabulary. Whole-class novels are selected for each grade that are appropriately leveled for the majority of students in that grade. The whole-class novels should be accessible for students with the appropriate scaffolding. Guided Reading novels are selected that exactly match the students' current reading level. Small group instruction combined with targeted questioning and strategies to develop highly specific skills and competencies ensures teachers are addressing specific areas of weakness to enable each student's reading level to improve.

In Writing classes at Brooklyn East Collegiate, students learn the essential skills of grammar and writing. Writing class explicitly supports the work that students are doing in Reading class, as students learn to write strong responses to literature in short answer and essay formats and use weekly vocabulary words from Reading class in their daily writing assignments. Explicit practice of the writing process and sharing in a public forum through the Writer's Circle ensures students are practicing the skills needed for literacy success in high school and college.

Brooklyn East Collegiate Charter School uses data from the following assessments to ensure student proficiency in English Language Arts:

- Criterion-referenced New York State exams in English Language Arts
- Leveled Reading Assessments
- Internally developed Interim Assessments in English Language Arts
- Internally developed Final Examination in English Language Arts.

Brooklyn East Collegiate Charter School administered four internally developed and aligned Interim Assessments in English Language Arts (Reading and Writing) during the 2012-2013 school year, including one Final Exam. These assessments were created to reflect the school's scope and sequence in Reading and Writing, and to mirror the style and scope of the New York State English Language Arts exams. Similar to the state exam, the ELA Interim Assessments were administered in two parts: 3-4 reading passages accompanied by multiple choice questions and a listening comprehension section with multiple choice and open response questions or an extended response/essay section. The assessments also included at least two editing passages that assessed student mastery of grammar, capitalization, and punctuation skills.

After the tests were administered, BEC teachers graded each exam and BEC administrative staff entered individual performance data into a shared template for detailed test analysis. With the individual student, whole class, and whole grade data, BEC teachers analyzed the data and developed strategic plans to re-teach specific standards to individuals, small groups, and classes. BEC also utilized the information to target content- and skills-driven tutoring and re-teaching after school and on Saturdays.

After seeing the reading and writing performance of our incoming students in the fall of 2012, we took the following initiatives:

- We grouped our students heterogeneously, with a mix of high, medium, and low readers in each class. Students were grouped according to their levels and due to their small size allowed teachers to target the instruction specifically to the students. We tracked their growth over time, and gave the assessments approximately every quarter and used the results to make sure students were given independent reading books from the school library at the appropriate reading level as well as to provide another data point for our Reading teachers.
- We had more teacher assigned to Guided Reading groups to ensure the groups remained small and targeted at students on their reading levels.
- We implemented the Wilson Reading program for our most struggling to focus on building fluency skills.
- We formalized vocabulary instruction. Vocabulary is taught through word study during reading class and reinforced in writing class. Vocabulary words are selected from the text on a weekly basis. Students define each vocabulary word, identify its part of speech and word charge, and use the vocabulary word in a sentence.
- We created competitions and celebrations, including Brooklyn East Reader of the Week, and the Accelerated Reader program, to practice skills, celebrate growth and encourage students to work hard.

Goal 1: Absolute Measure

Each year, 75% of all tested students enrolled in at least their second year will perform at proficiency on the New York State English language arts examination for grades 3-8.¹

Method

The school administered the New York State Testing Program English language arts assessment to students in 5th through 7th grade in April 2013. Each student's raw score has been converted to a grade-specific scaled score and a performance level.

The table below summarizes participation information for this year's test administration. The table indicates total enrollment and total number of students tested. It also provides a detailed breakdown of those students excluded from the exam. Note that this table includes all students according to grade level, even if they have not enrolled in at least their second year.

¹ Because of the state's new 3-8 testing program, aligned to its high school college and career readiness standards, the Institute is no longer using Time Adjusted Level 3 cut scores. Please report results for previous years using the state's published results for scoring at proficiency.

**2012-13 State English Language Arts Exam
Number of Students Tested and Not Tested**

Grade	Total Tested	Not Tested ²			Total Enrolled
		IEP	ELL	Absent	
3					
4					
5	87				87
6	65				65
7	54				54
8					
All	206				206

Results

On the 2012-13 NYS ELA exam, 28% of students in their second year at Brooklyn East Collegiate scored proficient. When looking at all students, 22% of all students at Brooklyn East Collegiate scored proficient. The table below illustrates that the percent of students' scoring proficient is related to that the number of years a student has been at Brooklyn East Collegiate as 44% of our 7th graders scored proficient.

**Performance on 2012-13 State English Language Arts Exam
By All Students and Students Enrolled in At Least Their Second Year**

Grades	All Students		Enrolled in at least their Second Year	
	Percent	Number Tested	Percent	Number Tested
5	13%	87	11%	9
6	15%	65	15%	59
7	44%	54	45%	53
8				
All	22%	206	28%	121

Evaluation

In the first year of the administration of the NYS Common Core exam in English Language Arts, the school did not meet this measure. It is still the school's goal to see that at least 75% of students reach proficiency on the Common Core exam, and we are looking forward to implementing a higher level of rigor in our English Language Arts classes going forward to better prepare our students to meet this bar.

² Students exempted from this exam according to their Individualized Education Program (IEP), because of English Language Learners (ELL) status, or absence for at least some part of the exam.

Additional Evidence

This year's shift to the Common Core English Language Arts exam caused scores to drop but we feel energized by this new challenge. We know our classroom instruction needs to continue to grow more rigorous and put so much more of the thinking on our kids. As we continue to strengthen our classroom culture and curriculum, we look forward to our student growth in ELA. Students who are enrolled at Brooklyn East Collegiate longer are more likely to score proficient on the NYS ELA exams.

English Language Arts Performance by Grade Level and School Year

Grade	Percent of Students Enrolled in At Least Their Second Year Achieving Proficiency					
	2010-11		2011-12		2012-13	
	Percent	Number Tested	Percent	Number Tested	Percent	Number Tested
5			17%	12		
6			71%	56	11%	9
7					15%	59
8					45%	53
All			62%	68	28%	121

Goal 1: Absolute Measure

Each year, the school's aggregate Performance Level Index (PLI) on the State English language arts exam will meet the Annual Measurable Objective (AMO) set forth in the state's NCLB accountability system.

Method

The federal No Child Left Behind law holds schools accountable for making annual yearly progress towards enabling all students to be proficient by the year 2013-14. As a result, the state sets an Annual Measurable Objective (AMO) each year to determine if schools are making satisfactory progress toward the goal of proficiency in the state's learning standards in English language arts. To achieve this measure, all tested students must have a Performance Level Index (PLI) value that equals or exceeds the current year's English language arts AMO. The PLI is calculated by adding the sum of the percent of all tested students at Levels 2 through 4 with the sum of the percent of all tested students at Levels 3 and 4. Thus, the highest possible PLI is 200.³

Results

As demonstrated in the chart below, 28% of students achieved a Level 1 performance, 50% achieved a Level 2 performance, 18% achieved a Level 3 performance, and 4% achieved a Level 4 performance. Upon calculating the PI, Brooklyn East Collegiate achieved a 94.

³ In contrast to SED's Performance Index, the PLI does not account for year-to-year growth toward proficiency. Brooklyn East Collegiate Charter School 2012-13 Accountability Plan Progress Report
Page 11

Calculation of 2012-13 English Language Arts Performance Index (PI)

Grades	Percent of Students at Each Performance Level				Number Tested
	Level 1	Level 2	Level 3	Level 4	
5-7	28	50	18	4	206

$$\begin{array}{rclclclclcl}
 \text{PI} & = & 50 & + & 18 & + & 4 & = & 72 \\
 & & & + & 18 & + & 4 & = & 22 \\
 & & & & & & \text{PI} & = & \mathbf{94}
 \end{array}$$

Evaluation

The State Education Department has not recalibrated the AMO to align with the new English Language Arts 3-8 testing program

Goal 1: Comparative Measure

Each year, the percent of all tested students who are enrolled in at least their second year and performing at or above Level 3 on the state English language arts exam will be greater than that of all students in the same tested grades in the local school district.

Method

A school compares tested students enrolled in at least their second year to all tested students in the surrounding public school district. Comparisons are between the results for each grade in which the school had tested students in at least their second year at the school and the total result for all students at the corresponding grades in the school district.⁴

Results

For the 2012-13 school year, Brooklyn East Collegiate outperformed Community School District by 7 percentage points and our 7th grade students outperformed their peers by 17 percentage points. As demonstrated in the chart below, 13% of fifth grade students who were enrolled at Brooklyn East Collegiate for at least two years achieved a Level 3 or 4 on the state test. For district 13 5th graders, 28% of students achieved at a level 3 or 4.

For the sixth grade, 15% of students enrolled for at least two years performed at a Level 3 or 4. In district 13, 18% achieved at a Level 3 or 4.

For the seventh grade, 45% of students enrolled for at least two years performed at a Level 3 or 4. In district 13, 18% achieved at a Level 3 or 4.

⁴ Schools can acquire these data when the State Education Department releases its Access database containing grade level ELA and math test results for all schools and districts statewide. The SED announces the release of the data on its [News Release webpage](#).

**2012-13 State English Language Arts Exam
Charter School and District Performance by Grade Level**

Grade	Percent of Students at Levels 3 and 4			
	Charter School Students In At Least 2 nd Year		All District Students	
	Percent	Number Tested	Percent	Number Tested
5	11%	9	28%	997
6	15%	59	18%	917
7	45%	53	28%	980
8			19%	2033
All	28%	121	21%	3917

Evaluation

Overall, Brooklyn East Collegiate met this measure as students in at least their 2nd year outperformed Community School District 13 by 7 percentage points. Brooklyn East Collegiate’s Grade 5 and 6 students underperformed the Community School District by 17 percentage points and 3 percentage points, respectively. Our Grade 7 students outperformed the Community School District by 17 percentage points.

Additional Evidence

The shift to the new NYS ELA Common Core English Language Arts exam caused a drop in our school’s scores, however we are motivated by this new challenge and work that is ahead of us. Over the past two years, we have seen a great increase in the percentage of students who are enrolled at Brooklyn East longer achieve higher proficiency. We look forward to ensuring that all of our students are prepared for the new rigor these exams layout and we feel positive about the student growth we have seen in our upper grade students.

**English Language Performance of Charter School and Local District
by Grade Level and School Year**

Grade	Percent of Charter School Students at Levels 3 and 4 and Enrolled in At Least their Second Year Compared to Local District Students					
	2010-11		2011-12		2012-13	
	Charter School	Local District	Charter School	Local District	Charter School	Local District
5			17%	52%	11%	28%
6			71%	38%	15%	18%
7					45%	18%
8						
All			62%		28%	21%

Goal 1: Comparative Measure

Each year, the school will exceed its predicted level of performance on the state English language arts exam by an Effect Size of 0.3 or above (performing higher than expected to a small degree) according to a regression analysis controlling for students eligible for economically disadvantaged students among all public schools in New York State.⁵

Method

The Charter Schools Institute conducts a Comparative Performance Analysis, which compares the school's performance to demographically similar public schools state-wide. The Institute uses a regression analysis to control for the percentage of economically disadvantaged students among all public schools in New York State. The Institute compares the school's actual performance to the predicted performance of public schools with a similar economically disadvantaged percentage. The difference between the schools' actual and predicted performance, relative to other schools with similar economically disadvantaged statistics, produces an Effect Size. An Effect Size of 0.3 or performing higher than expected to a small degree is the requirement for achieving this measure.

Given the timing of the state's release of economically disadvantaged data and the demands of the data analysis, the 2012-13 analysis is not yet available. This report contains 2011-12 results (using free-lunch eligible percentage), the most recent Comparative Performance Analysis available.

Results

The table below shows that Brooklyn East Collegiate's overall comparative measure is higher than expected. Based on the regression analysis that The Charter Schools Institute ran, the predicted percent of students performing at a level 3 or 4 was 46.7% for the 2011-2012 school year. Brooklyn East had 53.6% of our students achieve a 3 or a 4, exceeding the predicted performance by 6.9 percentage points. Upon comparison to other demographically similar schools, this produced an effect size of .45.

⁵ The Institute will begin using *economically disadvantaged* instead of *eligibility for free lunch* as the demographic variable in 2012-13. Schools should report previous year's results using reported free-lunch statistics
Brooklyn East Collegiate Charter School 2012-13 Accountability Plan Progress Report
Page 14

2011-12 English Language Arts Comparative Performance by Grade Level

Grade	Percent of Free Lunch Eligible Students	Number of Students Tested	Percent of Students at Levels 3&4		Difference between Actual and Predicted	Effect Size
			Actual	Predicted		
			3			
4						
5		79	41.8	48.9	-7.1	-0.48
6		59	69.5	43.7	25.8	1.69
7						
8						
All	63.6%	138	53.6	46.7	6.9	0.45

School's Overall Comparative Performance:
<i>Higher than expected to small degree</i>

Evaluation

Brooklyn East achieved the measure and exceeded the effect size by .45, which was higher than expected to small degree. While Brooklyn East Collegiate did not meet the measure in grade 5 where the majority of our students are enrolled for the first time at the school, the school did meet this measure overall and in grade 6 which shows that the longer students are enrolled at Brooklyn East the stronger they will perform. The percent of our 6th grade students who were scored at least a Level 3 on the NYS ELA exam outperformed the predicted percentage by 26 percentage points.

Additional Evidence

In the past two years, Brooklyn East Collegiate has exceeded its predicted performance on the NYS ELA exams. This demonstrates that the school's ELA instruction has a strong effect on students as our overall score outperforms the income-based predicted value. It also shows that as students spend more time at the school, their performance improves and moves further away from predicted performance based on income.

English Language Arts Comparative Performance by School Year

School Year	Grades	Percent Eligible for Free Lunch	Number Tested	Actual	Predicted	Effect Size
2009-10						
2010-11	5	69	79	50.6	44.4	.37
2011-12	5-6	64	138	53.6	46.7	.45

Goal 1: Growth Measure⁶

Each year, under the state’s Growth Model, the school’s mean unadjusted growth percentile in English language arts for all tested students in grades 4-8 will be above the state’s unadjusted median growth percentile.⁷

Method

This measure examines the change in performance of the same group of students from one year to the next and the progress they are making in comparison to other students with the same score in the previous year. The analysis only includes students who took the state exam in 2012-13 and also have a state exam score in 2011-12 including students who were retained in the same grade. Students with the same 2011-12 scores are ranked by their 2012-13 scores and assigned a percentile based on their relative growth in performance (mean growth percentile). Students’ growth percentiles are aggregated school-wide to yield a school’s mean growth percentile. In order for a school to perform above the statewide median, it must have a mean growth percentile greater than 50.

The State Education Department has not yet reported schools’ mean growth percentiles for the 2012-13 school year.

Results

Leave Blank

⁶ See Guidelines for [Creating a SUNY Accountability Plan](#) for an explanation

⁷ See the Guidelines.

Summary of the English Language Arts Goal

Brooklyn East Collegiate achieved two of the three relevant English Language Arts goals based on results of the 2012-13 state exams. We know that we still have a long way to go in terms of absolute performance and that the new rigorous common core standards will provide us with an opportunity to work harder to improve student performance in ELA.

Type	Measure	Outcome
Absolute	Each year, 75 percent of all tested students who are enrolled in at least their second year will perform at proficiency on the New York State English language arts exam for grades 3-8.	Did Not Achieve
Absolute	Each year, the school’s aggregate Performance Level Index (PLI) on the state English language arts exam will meet that year’s Annual Measurable Objective (AMO) set forth in the state’s NCLB accountability system.	N/A
Comparative	Each year, the percent of all tested students who are enrolled in at least their second year and performing at proficiency on the state English language arts exam will be greater than that of students in the same tested grades in the local school district.	Achieved
Comparative	Each year, the school will exceed its predicted level of performance on the state English language arts exam by an Effect Size of 0.3 or above (performing higher than expected to a small degree) according to a regression analysis controlling for economically disadvantaged students among all public schools in New York State. (Using 2011-12 school district results).	Achieved
Growth	Each year, under the state’s Growth Model the school’s mean unadjusted growth percentile in English language arts for all tested students in grades 4-8 will be above the state’s unadjusted median growth percentile.	N/A

Action Plan

To achieve these goals next year, we plan on implementing several important steps:

- Instead of one school wide library, we moved to having libraries in reading classes. This will allow students more access to the library as well as allow reading teachers to keep closer tabs on what books students are checking out and what books students should take out.
- Extensive professional development during orientation and throughout the school year for Guided Reading teachers, which now include all teachers in the school, including math teachers to promote “everyone is a reading teacher.”
- All teachers have been trained in the Reading taxonomy (an Uncommon Schools tool capturing best practices in reading instruction) and are given extensive professional development throughout the year on incorporating reading and writing in less traditional subjects (e.g. Math)
- A school-wide focus on empowering students through daily, rigorous independent practice

- Establishing a phonics program that works with a targeted group of students to increase their comprehension and success in ELA.
- Continuing to implement the Accelerated Reader program through Reading classes and advisories
- We will continue to increase opportunities for students to participate in independent reading this year.
- Increased professional development for our instructional leaders to increase focused goal setting in weekly meetings.

MATHEMATICS

Goal 1: Mathematics

Students will demonstrate competency in the understanding and application of mathematical computation and problem solving.

Background

We believe our students should be able to compute numbers quickly and accurately, apply appropriate math procedures in single- and multi-step problems, and speak and write fluently and clearly about math problem solving and procedures, using accurate mathematical vocabulary. For this reason, our students take two hours of math per day, during which students review concepts for procedural fluency, explore conceptual understanding of old and new content through guided instruction and partner work, and engage in rigorous problem solving requiring the application of skills and the extension of learned content. In short, we double the time dedicated to math instruction each day to ensure that students can compute and problem solve.

Brooklyn East Collegiate Charter School uses data from the following assessments to ensure student proficiency in Mathematics:

- Criterion-referenced New York State exams in Mathematics
- Internally developed Interim Assessments in Mathematics
- Internally developed Final Examination in Mathematics

Brooklyn East Collegiate Charter School administered four internally developed and aligned Interim Assessments, including a Final Exam in Math during the 2012-13 school year. These assessments were created to reflect the school's scope and sequence in Math, and to mirror the style and scope of the New York State Math exams. Similar to the state exam, the Math Interim Assessments were administered in two parts; a 25-35 question multiple-choice section and a 6-12 question open-response section. The assessments focused primarily on the most recently covered standards, with a smaller focus on cumulative skills and standards covered in previous units.

After the tests were administered, BEC teachers graded each exam and entered individual performance data into a shared template for detailed test analysis. With the individual student, whole class, and whole grade data, BEC teachers analyzed the data and developed strategic plans to re-teach specific standards to individuals, small groups, and classes. BEC also utilized the information to target content- and skills-driven tutoring after school and on Saturdays.

Goal 1: Absolute Measure

Each year, 75 percent of all tested students enrolled in at least their second year will perform at or above Level 3 on the New York State mathematics examination for grades 3-8⁸.

⁸ Because of the state's new 3-8 testing program, aligned to its high school college and career readiness standards, the Institute is no longer using Time Adjusted Level 3 cut scores. Please report results for previous year's using the state's published results for scoring at proficiency.

Method

The school administered the New York State Testing Program Common Core mathematics assessment to students in 5th through 7th grade in April 2013. Each student's raw score has been converted to a grade-specific scaled score and a performance level.

The table below summarizes participation information for this year's test administration. The table indicates total enrollment and total number of students tested. It also provides a detailed breakdown of those students excluded from the exam. Note that this table includes all students according to grade level, even if they have not enrolled in at least their second year.

**2012-13 State Mathematics Exam
Number of Students Tested and Not Tested**

Grade	Total Tested	Not Tested ⁹			Total Enrolled
		IEP	ELL	Absent	
3					
4					
5	87				87
6	65				65
7	54				54
8					
All	206				206

Results

During the 2012-13 school year, 51% of students earned scores of 3 or 4 on the NYS math exam. The overall results for all students of 54% proficiency is the same as the results of students enrolled in their second year, with a higher percentages of students scoring proficient in grade 7. Students who have been enrolled at Brooklyn East Collegiate longer demonstrated stronger performance on the exam, particularly in grade 7 where 68% of students enrolled in their second year scored proficient.

⁹ Students exempted from this exam according to their Individualized Education Program (IEP), because of English Language Learners (ELL) status, or absence for at least some part of the exam.

**Performance on 2012-13 State Mathematics Exam
By All Students and Students Enrolled in At Least Their Second Year**

Grades	All Students		Enrolled in at least their Second Year	
	Percent	Number Tested	Percent	Number Tested
5	31%	87	2%	9
6	48%	65	28%	59
7	67%	54	68%	53
8				
All	51%	206	54%	121

Evaluation

Brooklyn East Collegiate did not meet this measure in the first year of NYS Common Core testing in math. The school fell short by 24 percentage points. The length of time students have been enrolled at Brooklyn East positively impacts their chance of scoring proficient, as the percentage of each grade level that scored proficient increased. Within the second year at Brooklyn East, the percentage of students who scored proficient increased by 17 percentage points for all students and 26 percentage points for students in at least their second year.

Additional Evidence

Brooklyn East Collegiate has previously performed well on the NYS Mathematics assessments, exceeding the goal of 75% of students reaching proficiency last year. While the school did not meet or exceed this goal this year, we are confident that our efforts, increasing familiarity with the new NYS Mathematics exam and the deep level of Common Core alignment that our instructional leaders have conducted will help the school demonstrate strong performance going forward.

Mathematics Performance by Grade Level and School Year

Grade	Percent of Students Enrolled in At Least Their Second Year Achieving Proficiency					
	2010-11		2011-12		2012-13	
	Percent	Number Tested	Percent	Number Tested	Percent	Number Tested
5			67%	12		
6			96%	56	11%	9
7					15%	59
8					45%	53
All			91%	68	28%	121

Goal 1: Absolute Measure

Each year, the school’s aggregate Performance Index (PI) on the State mathematics exam will meet the Annual Measurable Objective (AMO) set forth in the state’s NCLB accountability system.

Method

The federal No Child Left Behind law holds schools accountable for making annual yearly progress towards enabling all students to be proficient by the year 2013-14. As a result, the state sets an Annual Measurable Objective (AMO) each year to determine if schools are making satisfactory progress toward the goal of proficiency in the state’s learning standards in English language arts. To achieve this measure, all tested students must have a Performance Level Index (PLI) value that equals or exceeds the current year’s English language arts AMO. The PLI is calculated by adding the sum of the percent of all tested students at Levels 2 through 4 with the sum of the percent of all tested students at Levels 3 and 4. Thus, the highest possible PLI is 200.¹⁰

Results

Of the 206 students tested in the 2012-2013 school year, 18% of the students scored a Level 1 on the State Math Exam, 36% scored Level 2, 32% scored a Level 3, and 14% scored Level 4. The Mathematics Performance index is a 128.

Calculation of 2012-13 Mathematics Performance Index (PI)

Grades	Percent of Students at Each Performance Level				Number Tested
	Level 1	Level 2	Level 3	Level 4	
5-7	18%	36%	32%	14%	206

$$\begin{array}{rclclclclcl}
 \text{PI} & = & 36 & + & 32 & + & 14 & = & 82 \\
 & & & & + & 32 & + & 14 & = & 46 \\
 & & & & & & \text{PI} & = & \mathbf{128}
 \end{array}$$

Evaluation

The State Education Department has not recalibrated the AMO to align with the new Mathematics 3-8 testing program.

Goal 1: Comparative Measure

Each year, the percent of all tested students who are enrolled in at least their second year and performing at or above Level 3 on the state mathematics exam will be greater than that of all students in the same tested grades in the local school district.

¹⁰ In contrast to SED’s Performance Index, the PLI does not account for year-to-year growth toward proficiency.
 Brooklyn East Collegiate Charter School 2012-13 Accountability Plan Progress Report
 Page 22

Method

A school compares tested students enrolled in at least their second year to all tested students in the surrounding public school district. Comparisons are between the results for each grade in which the school had tested students in at least their second year at the school and the total result for all students at the corresponding grades in the school district.¹¹

Results

For students who completed at least two years at Brooklyn East, 54% scored at a Level 3 or 4. In District 13 the comparable figure is 15%. Brooklyn East as a school outperformed District 13 by 39 percentage points.

**2012-13 State Mathematics Exam
Charter School and District Performance by Grade Level**

Grade	Percent of Students at Levels 3 and 4			
	Charter School Students In At Least 2 nd Year		All District Students	
	Percent	Number Tested	Percent	Number Tested
3				
4				
5	22%	9	24%	995
6	47%	259	14%	927
7	55%	53	10%	989
8			12%	1046
All	54%	121	15%	3957

Evaluation

Overall, Brooklyn East Collegiate met this measure as students in at least their 2nd year outperformed Community School District 13 by 39 percentage points (38 percentage points if Grade 8 students are excluded). While Brooklyn East Collegiate's Grade 5 students slightly underperformed the Community School District by 2 percentage points, the 6th and 7th grade students significantly outperformed the Community School District by 33 percentage points and 45 percentage points, respectively.

¹¹ Schools can acquire these data when the State Education Department releases its Access database containing grade level ELA and math test results for all schools and districts statewide. The SED announces the release of the data on its [News Release webpage](#).

Additional Evidence

While the shift to the new NYS Common Core Mathematics exam caused a drop in scores across the district, Brooklyn East Collegiate still significantly outperformed the district. Over the past two years, we continue to see a growth in the percentage of students who are enrolled at Brooklyn East longer achieve higher proficiency. We look forward to ensuring that all of our students are prepared for the new rigor these exams layout and we feel positive about the student growth we have seen in our upper grade students and look forward to continuing to increase the number of students who achieve proficiency.

**Mathematics Performance of Charter School and Local District
by Grade Level and School Year**

Grade	Percent of Students Enrolled in at Least their Second Year Who Are at Proficiency Compared to Local District Students					
	2010-11		2011-12		2012-13	
	Charter School	Local District	Charter School	Local District	Charter School	Local District
5			67%	61%	22%	24%
6			96%	46%	47%	14%
7					55%	10%
8						12%
All			91%	53%	54%	15%

Goal 1: Comparative Measure

Each year, the school will exceed its predicted level of performance on the state mathematics exam by an Effect Size of 0.3 or above (performing higher than expected to a small degree) according to a regression analysis controlling for students eligible for economically disadvantaged students among all public schools in New York State.¹²

Method

The Charter Schools Institute conducts a Comparative Performance Analysis, which compares the school’s performance to demographically similar public schools state-wide. The Institute uses a regression analysis to control for the percentage of economically disadvantaged students among all public schools in New York State. The Institute compares the school’s actual performance to the predicted performance of public schools with a similar economically disadvantaged percentage. The difference between the schools’ actual and predicted performance, relative to other schools with similar economically disadvantaged statistics, produces an Effect Size. An Effect Size of 0.3 or performing higher than expected to a small degree is the requirement for achieving this measure.

¹² The Institute will begin using *economically disadvantaged* instead of *eligibility for free lunch* as the demographic variable in 2012-13. Schools should report previous year’s results using reported free-lunch statistics

Given the timing of the state’s release of economically disadvantaged data and the demands of the data analysis, the 2012-13 analysis is not yet available. This report contains 2011-12 results (using free-lunch eligible percentage), the most recent Comparative Performance Analysis available.

Results

During the 2011-2012 school year 64% of the students at Brooklyn East Collegiate were eligible for free lunch. Based on this demographic and in comparison to schools with similar demographics, Brooklyn East’s predicted performance was 58% of students achieving a 3 or a 4 on the State Mathematics exam. Brooklyn East’s actual performance was 86% of students tested achieved a 3 or a 4 on the exam.

2011-12 Mathematics Comparative Performance by Grade Level

Grade	Percent Eligible for Free Lunch	Number Tested	Percent of Students at Levels 3&4		Difference between Actual and Predicted	Effect Size	
			Actual	Predicted			
3							
4							
5		79	78.4	60.0	18.4	1.01	
6		59	96.6	55.0	41.6	2.02	
7							
8							
All		63.6	138	86.2	57.8	28.4	1.44

School’s Overall Comparative Performance:
<i>Higher than expected to a large degree</i>

Evaluation

As stated in the paragraphs above, any effect size that exceeds .3 is considered to be statistically significant. Brooklyn East’s effect size was 1.44 which reflects a performance higher than expected to a large degree in comparison to similar schools.

Additional Evidence

In the past two years, Brooklyn East Collegiate has exceeded its predicted performance on the NYS Mathematic exam by a large degree. This demonstrates that the school’s Math instruction has consistently had a strong effect on students as our overall score outperforms the income-based predicted value.

Mathematics Comparative Performance by School Year

School Year	Grades	Percent Eligible for Free Lunch	Number Tested	Actual	Predicted	Effect Size
2009-10						
2010-11	5	69%	79	77.2	56.0	1.15
2011-12	5-6	64%	138	86.2	57.8	1.44

Goal 1: Growth Measure

Each year, under the state's Growth Model, the school's mean unadjusted growth percentile in mathematics for all tested students in grades 4-8 will be above the state's unadjusted median growth percentile.¹³

Method

This measure examines the change in performance of the same group of students from one year to the next and the progress they are making in comparison to other students with the same score in the previous year. The analysis only includes students who took the state exam in 2012-13 and also have a state exam score in 2011-12 including students who were retained in the same grade. Students with the same 2011-12 scores are ranked by their 2012-13 scores and assigned a percentile based on their relative growth in performance (mean growth percentile). Students' growth percentiles are aggregated school-wide to yield a school's mean growth percentile. In order for a school to perform above the statewide median, it must have a mean growth percentile greater than 50.

The State Education Department has not yet reported schools' mean growth percentiles for the 2012-13 school year.

Results

Leave Blank

¹³ See Guidelines for [Creating a SUNY Accountability Plan](#) for an explanation
Brooklyn East Collegiate Charter School 2012-13 Accountability Plan Progress Report
Page 26

Summary of the of the Mathematics Goal

The school achieved two of the measures associated with the Mathematics goal as evidenced in the chart below.

Type	Measure	Outcome
Absolute	Each year, 75 percent of all tested students who are enrolled in at least their second year will perform at proficiency on the New York State mathematics exam for grades 3-8.	Did Not Achieve
Absolute	Each year, the school’s aggregate Performance Level Index (PLI) on the state mathematics exam will meet that year’s Annual Measurable Objective (AMO) set forth in the state’s NCLB accountability system.	N/A
Comparative	Each year, the percent of all tested students enrolled in at least their second year and performing at or above Level 3 on the State exam will be greater than that of all students in the same tested grades in the local school district.	Achieved
Comparative	Each year, the school will exceed its predicted level of performance on the state mathematics exam by an Effect Size of 0.3 or above (performing higher than expected to a small degree) according to a regression analysis controlling for economically disadvantaged students among all public schools in New York State. (Using 2011-12 school district results)	Achieved
Growth	Each year, under the state’s Growth Model the school’s mean unadjusted growth percentile in mathematics for all tested students in grades 4-8 will be above the state’s unadjusted median growth percentile.	N/A

Action Plan

The performance on the 2012-13 NYS Mathematics exam shows that we will have to be more thoughtful on how we will increase the school’s performance throughout the school year with an emphasis on meeting and exceeding Common Core Standards. We will spend more time on classroom and instructional development. Our Dean of Curriculum and Instruction was a founding math teacher and he will spend time working with the entire Math department to ensure that we continue making progress on our math scores, which included filming teachers and reviewing the film to highlight best practices and areas of growth. Additionally, Brooklyn East Collegiate, along with other Uncommon Schools across Brooklyn, will be outsourcing the creation of its Interim Assessments. We have worked extremely closely with the company that will be producing the assessment questions and are confident that this choice will add a needed level of rigor to our program. Finally, the school will be working with other Uncommon Schools to streamline instructional materials across schools and make sure that teachers are not reinventing the wheel, but instead are using the best instructional materials available for each objective they teach so that their time can be spent on the highest leverage instructional activities like assessing students, tutoring, and differentiating instruction.

SCIENCE

Goal 3: Science

Students will demonstrate proficiency in the understanding and application of scientific principles.

Background

The Science curriculum at BEC has been designed to provide a solid foundation for students in the essential understandings of Middle Grades Science as outlined in the New York State standards. Our fifth and sixth grade science curricula are designed to equip students for more in-depth studies of Biology, Chemistry, and Physics in high school. Students participated in hands-on science activities or demonstrations on a weekly basis, usually adapted from FOSS Science kits that align with our science content. Science instruction consistently reinforced both math and reading comprehension skills, and our science teachers frequently worked closely with both our math and English Language Arts teachers to ensure that common approaches and language were used to reinforce cross-curricular content. For example, during the Scientific Method and Measurement unit, students worked with units of measurement, tools of measurement, and conversions between units of measure, reinforcing important skills from the math curriculum. In terms of supporting literacy, planning time was dedicated to determining how to best expose students to nonfiction texts during science class each week and how to encourage them to access and use scientific texts for their own learning and study. This exposure to nonfiction provided an important opportunity for students to practice and continue to develop their reading comprehension and vocabulary skills.

Goal 3: Absolute Measure

Each year, 75 percent of all tested students who are enrolled in at least their second year will perform at or above Level 3 on the New York State science examination.

Method

Brooklyn East does not yet have an eighth grade cohort to take the test.

Results

As we opened with 5th graders only during the 2010-2011 school year, we will not have data for this measure until our first group of students reaches the 8th grade in 2013-2014 when we will administer the Living Environment Regents exam.

Evaluation

Evaluation:

N/A

Additional Evidence:

N/A

Summary of the Science Goal

We will not have data for these measures until our students reach the 8th grade in 2013-2014. In the meantime, however, we are measuring their growth through our own internally developed Interim Assessments, which show that our students are making progress in science. Science standards were

retested throughout the 2012-13 school year and each Interim Assessment covered additional cumulative content.

Overall, the average performance on the Interim Assessments was the lowest during the second exam and showed improvement over the final two exams. Our 8th graders will be taking the NYS Regents exam for the first time this school year. This will allow us to gather additional feedback and data to implement as we plan for the future school years. Overall, we are excited to continue to strengthen the rigor of our instructional lessons and classrooms as we prepare all students to continue to excel under the new Common Core standards.

Action Plan

To maintain our rate of progress along this goal, we intend to do the following things:

- Continue to use 5th-8th science curriculum to provide students with the essential understandings and skills that will prepare them for more in-depth study of Chemistry, Biology, and Physics during seventh and eighth grade.
- Successfully implementing the 8th grade Living Environment curriculum for the first time;
- Create a science lab for our school which will allow for high quality laboratory learning for students.
- Align coursework and lessons to the Common Core Regents to prepare our 8th grade students to take their first Regents exam.
- Create opportunities for collaboration between science and reading teachers so that comprehension and vocabulary strategies taught in reading class are incorporated into science

class during professional development in August and throughout the year. Science teachers will be responsible for teaching all textbook features through science instruction. These skills will then be reinforced by the reading teacher while reading non-fiction texts.

- Encourage teachers to share best practices at quarterly Collegiate Science Department meetings on topics such as the instruction of scientific method, questioning in the science classroom and the reinforcement of college-readiness standards into science class.
- Guarantee that students continue to participate in as many hands-on science lessons and activities during science classes as is appropriate and possible, including the addition of two science field trips this year that reinforce the curriculum and give students hands-on science experience outside of the classroom.
- Continued participation in the Urban Advantage Science program to provide field trips and additional science curriculum and outside of class opportunities for students.
- Sharing resources across Uncommon with schools who have already taken NYS Regents exams to help prepare our scholars to take the Regents.

NCLB

Goal 5: NCLB

The School will make Adequately Yearly Progress.

Goal 5: Absolute Measure

Under the state's NCLB accountability system, the school's Accountability Status is in good standing: the state has not identified the school as a Focus School nor determined that it has met the criteria to be identified as a local-assistance-plan school.

Method

Since *all* students are expected to meet the state's learning standards, the federal No Child Left Behind legislation stipulates that various sub-populations and demographic categories of students among all tested students must meet state proficiency standards. New York, like all states, established a system for making these determinations for its public schools. Each year the state issues School Report Cards which indicate each school's status under the state's No Child Left Behind (NCLB) accountability system.

Results

The school is in Good Standing for the 2012-2013 school year.

Evaluation

Brooklyn East Collegiate has met this measure for the past three years.

Additional Evidence

During the 2010-2011 and 2011-12 school years, Brooklyn East was in Good Standing. During the 2012-2013 school year, Brooklyn East was also in Good Standing. We do not have any further historical data.

NCLB Status by Year

Year	Status
2010-11	Good Standing
2011-12	Good Standing
2012-13	Good Standing

Brooklyn East Collegiate

BROOKLYN EAST COLLEGIATE CHARTER SCHOOL

ADVISORY COMMENT LETTER

JUNE 30, 2013

MENGEL METZGER BARR & CO. LLP

Certified Public Accountants

October 16, 2013

To the Board of Trustees
Brooklyn East Collegiate Charter School

In planning and performing our audit of the financial statements of Brooklyn East Collegiate Charter School as of and for the year ended June 30, 2013, in accordance with auditing standards generally accepted in the United States of America, we considered Brooklyn East Collegiate Charter School's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we do not express an opinion on the effectiveness of Brooklyn East Collegiate Charter School's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies, and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we have identified deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in the entity's internal control to be significant deficiencies:

Prepaid Expenses

During our audit we noted a misstatement of prepaid expenses and expenses related to expensing of merchandise paid for in advance but not received as of the fiscal year-end.

Recommendation

We recommend the Charter School review all expenditures to ensure that they are expensed in the proper period.

Placing Property and Equipment in Service

During our audit we noted a misstatement of fixed assets, prepaid expenses, and expenses related to incorrectly capitalizing and depreciating an asset that had not been put into service or received as of the fiscal year-end.

Recommendation

We recommend the Charter School thoroughly review the fixed asset listing for accuracy on an annual basis to ensure that assets that are being capitalized and depreciated have in fact been put into service.

During the course of our audit of Brooklyn East Collegiate Charter School's financial statements as of and for the year ended June 30, 2013, we have updated the status of the following comments that were included in our letter dated October 17, 2012 and are included for informational purposes. We do not consider these matters to be significant deficiencies or material weaknesses:

Capitalization of Property and Equipment

We noted during our audit a misstatement of fixed assets and expenses related to expensing of items not in accordance with the Charter School's capitalization policy which led to fixed assets being understated and expense overstated.

Recommendation

We recommend the Charter School follow their capitalization policy and the fixed asset listing be reviewed thoroughly for accuracy on an annual basis.

Status as of June 30, 2013

During our current year audit, we found no instances of the Charter School's capitalization policy not being followed. Assets above the capitalization threshold were properly capitalized and assets below the capitalization threshold were properly expensed.

Approval for Transfers of Funds to Uncommon Schools

During our audit, we selected certain transfers made from the Charter School to Uncommon Schools, Inc. (USI) which primarily related to payment of management fees. We noted that in one instance the transfer of funds was not authorized in writing by the Director of Finance.

Recommendation

We recommend the Charter School adhere to their internal control policy requiring approval from both the Director of Operations and USI Director of Finance prior to transferring funds to USI. This will remove any appearance of impropriety as the actual bank transfers are made by USI personnel.

Status as of June 30, 2013

During our interim fieldwork for the current year audit, we noted that in three instances, transfer authorization forms were either not signed by the USI Director of Finance or the school's Director of Operations to indicate approval, and one instance the form was missing. However, during year-end fieldwork, the forms that were not signed as of interim had now been signed and the one missing form was found but still not signed. We recommend that the Charter School not only adhere to their internal control policy requiring approval from both the Director of Operations and USI Director of Finance prior to transferring funds to USI, but do so in a timely manner. Signing the transfer authorization forms subsequent to the transfer of funds does not provide the full benefit that is intended with this internal control function.

Voided Checks

During our review of the June 30, 2012 bank reconciliation we noted one of the outstanding checks pertained to charges that had already been submitted with another reimbursement. As a result, this check had been manually voided, but not updated in the accounting system.

Recommendation

We recommend management review bank reconciliations and ensure all uncleared transactions represent valid reconciling items.

Status as of June 30, 2013

During our current year audit, we found no instances of bank reconciliations containing invalid reconciling items.

Dual Signatures

We noted during our audit, two checks over \$5,000 and one check over \$20,000 did not have board approval.

Recommendation

We recommend the Charter School adhere to their check signing policy requiring dual signatures for amounts over \$5,000 and board approval for amounts over \$20,000.

Status as of June 30, 2012

During our audit for the current fiscal year, we noted four checks over \$5,000 that did not have dual signatures, including one over \$20,000 which did not have board approval.

Status as of June 30, 2013

During our audit for the current fiscal year, we found no checks over \$5,000 that did not have dual signatures.

* * * * *

We believe that the implementation of these recommendations will improve the controls in place and efficiency of the Charter School's internal control.

This communication is intended solely for the information and use of Management, Finance Committee Members and Board Members and is not intended to be and should not be used by anyone other than these specified parties.

We appreciate the outstanding cooperation from your staff that our personnel received during the audit of the Charter School's financial statements. Should you have any questions or comments, please contact Shelby Stenson or Kate Welc.

Very truly yours,

INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Brooklyn East Collegiate Charter School

Report on the Financial Statements

We have audited the accompanying financial statements of Brooklyn East Collegiate Charter School, which comprise the statement of financial position as of June 30, 2013, and the related statements of activities and changes in net assets, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Brooklyn East Collegiate Charter School as of June 30, 2013, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

We have previously audited Brooklyn East Collegiate Charter School's June 30, 2012 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated October 17, 2012. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2012 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Report Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 16, 2013 on our consideration of Brooklyn East Collegiate Charter School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Brooklyn East Collegiate Charter School's internal control over financial reporting and compliance.

BROOKLYN EAST COLLEGIATE CHARTER SCHOOL

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2013 AND 2012

NOTE A: THE CHARTER SCHOOL AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Charter School

Brooklyn East Collegiate Charter School (the “Charter School”), is an educational corporation operating as a charter school in the borough of Brooklyn, New York City. On February 23, 2009, the Board of Regents of the University of the State of New York granted the Charter School a provisional charter valid for a term of five years and renewable upon expiration.

The Charter School’s mission is to prepare students to enter, succeed in, and graduate from college.

Financial Statement presentation

The financial statements of the Charter School have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (GAAP). The Charter School reports information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets and permanently restricted net assets.

These classes of net assets are defined as follows:

Permanently restricted – Net assets resulting from contributions and other inflows of assets whose use by the Charter School is limited by donor-imposed stipulations that neither expire by passage of time nor can be fulfilled or otherwise removed by actions of the Charter School. The Charter School had no permanently restricted net assets at June 30, 2013 or 2012.

Temporarily restricted – Net assets resulting from contributions and other inflows of assets whose use by the Charter School is limited by donor-imposed stipulations that either expire by passage of time or can be fulfilled and removed by actions of the Charter School pursuant to those stipulations. The Charter School had no temporarily restricted net assets at June 30, 2013 or 2012.

Unrestricted – The net assets over which the Governing Board has discretionary control to use in carrying on the Charter School’s operations in accordance with the guidelines established by the Charter School. The Board may designate portions of the current unrestricted net assets for specific purposes, projects or investment.

Revenue and support recognition

Revenue from state and local governments resulting from the Charter School’s charter status and based on the number of students enrolled is recorded when services are performed in accordance with the charter agreement.

Revenue from federal, state and local government grants and contracts are recorded by the Charter School when qualifying expenditures are incurred and billable.

BROOKLYN EAST COLLEGIATE CHARTER SCHOOL

NOTES TO FINANCIAL STATEMENTS, Cont'd

JUNE 30, 2013 AND 2012

NOTE A: THE CHARTER SCHOOL AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES,

Cont'd

Contributions

Contributions received are recorded as unrestricted, temporarily or permanently restricted support depending on the existence of any donor restrictions. A contribution that is received and expended in the same year for a specific purpose is classified as unrestricted revenue.

Contributions are recorded as restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities and changes in net assets as net assets released from restrictions.

Cash

Cash balances are maintained at a financial institution located in New York and are insured by the FDIC up to \$250,000 at the institution. In the normal course of business, the cash account balances at any given time may exceed insured limits. However, the Charter School has not experienced any losses in such accounts and does not believe it is exposed to significant risk in cash.

Grants and other receivables

Grants and other receivables are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts based on its assessment of the current status of individual receivables from grants, agencies and others. Balances that are still outstanding after management has used reasonable collection efforts are written off against the allowance for doubtful accounts. There was no allowance for doubtful accounts at June 30, 2013 or 2012.

Property and equipment

Property and equipment are recorded at cost. Depreciation and amortization is computed using the straight-line method on a basis considered adequate to depreciate the assets over their estimated useful lives, which range from three to ten years.

Deferred revenue

The Charter School records grant revenue as deferred revenue until it is expended for the purpose of the grant, at which time it is recognized as revenue.

BROOKLYN EAST COLLEGIATE CHARTER SCHOOL

NOTES TO FINANCIAL STATEMENTS, Cont'd

JUNE 30, 2013 AND 2012

NOTE A: THE CHARTER SCHOOL AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES,

Cont'd

Tax exempt status

The Charter School is a tax-exempt organization under section 501(c)(3) of the Internal Revenue Code and applicable state regulations and, accordingly, is exempt from federal and state taxes on income.

The Charter School has filed for income tax exemptions in the jurisdictions where it is required to do so. The Charter School files Form 990 in the U.S. federal jurisdiction. The tax returns for the years ended June 30, 2010 through 2013 are still subject to potential audit by the IRS. Management of the Charter School believes it has no material uncertain tax positions and, accordingly it will not recognize any liability for unrecognized tax benefits.

Contributed services

The Charter School receives contributed services from volunteers to develop its academic program and to serve on the Board of Trustees. These services are not valued in the financial statements because they do not require “specialized skills” and would typically not be purchased if they were not contributed.

In-kind contributions

Gifts and donations other than cash are recorded at fair value at the date of contribution. The Charter School received in-kind contributions of textbooks totaling \$14,254 in the year ended June 30, 2013 and are included in other income in the accompanying statement of activities and changes in net assets for the year ended June 30, 2013

Use of estimates in the preparation of financial statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Comparatives for period ended June 30, 2012

The financial statements include certain prior year summarized comparative information in total but not by functional classification. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the Charter School’s financial statements for the year ended June 30, 2012, from which the summarized information was derived.

Subsequent events

The Charter School has conducted an evaluation of potential subsequent events occurring after the statement of financial position date through October 16, 2013, which is the date the financial statements are available to be issued. No subsequent events requiring disclosure were noted.

BROOKLYN EAST COLLEGIATE CHARTER SCHOOL

NOTES TO FINANCIAL STATEMENTS, Cont'd

JUNE 30, 2013 AND 2012

NOTE B: RELATED PARTY TRANSACTIONS

Uncommon Schools, Inc. (“USI”), a not-for-profit organization dedicated to helping start and run charter schools, provides management and other administrative support services to the Charter School. The Charter School entered into a five year agreement with USI, dated July 1, 2010, under which the Charter School pays USI a service fee of a set percentage of the average number of students enrolled at the Charter School during the school year multiplied by the approved per pupil operating expenses for the school year, and a percentage of all other public entitlement funding receivable during the fiscal year, excluding in-kind contributions and funds from competitive public grants. This percentage is fixed at 10% for years 1-3, decreasing to 9.5% in year 4 and 9% in year 5. The fee incurred for the years ended June 30, 2013 and 2012 was approximately \$317,000 and \$209,000, respectively. At June 30, 2013 and 2012, approximately \$39,600 and \$29,500, respectively was included in accounts payable, relating to USI.

The Charter School is related to Kings Collegiate Charter School, Brownsville Collegiate Charter School, Ocean Hill Collegiate Charter School, Williamsburg Collegiate Charter School and Bedford Stuyvesant Collegiate Charter School through common Board representation. As none of the schools have an economic interest in the net assets of any other school, the facts do not require consolidation of any of these schools with the Charter School in accordance with GAAP.

NOTE C: SCHOOL FACILITY

The Charter School is located in a New York City Department of Education facility. At June 30, 2013 and 2012, the Board of Trustees had designated \$260,000 as a stability fund to meet future needs of the Charter School. During the year ended June 30, 2013, the Charter School did not have any expenses related to utilities and maintenance services. During the year ended June 30, 2012, the Charter School paid for certain utility and maintenance services on a square footage basis amounting to approximately \$4,000. During the years ended June 30, 2013 and 2012, the Charter School paid no fees to the New York City Department of Education for additional after-school and weekend usage.

NOTE D: PROPERTY AND EQUIPMENT

Property and equipment consist of the following:

	<u>Year ended June 30,</u>	
	<u>2013</u>	<u>2012</u>
Furniture and fixtures	\$ 27,806	\$ 25,826
Computers and software	206,924	168,579
Leasehold improvements	<u>132,376</u>	<u>72,074</u>
	367,106	266,479
Less accumulated depreciation and amortization	<u>169,992</u>	<u>79,830</u>
	<u>\$ 197,114</u>	<u>\$ 186,649</u>

BROOKLYN EAST COLLEGIATE CHARTER SCHOOL

NOTES TO FINANCIAL STATEMENTS, Cont'd

JUNE 30, 2013 AND 2012

NOTE E: OPERATING LEASE

The Charter School leases office equipment under non-cancelable lease agreements expiring through July 2017. The future minimum payments on these agreements are as follows:

<u>Year ending June 30,</u>	<u>Amount</u>
2014	\$ 14,171
2015	11,220
2016	11,220
2017	935
	<u>\$ 37,546</u>

NOTE F: RETIREMENT PLAN

The Charter School sponsors a defined contribution 403(b) plan covering most employees. The Charter School matches employees' contributions up to the lesser of 3% of gross payroll or \$3,500. The Charter School's total contribution to the Plan for the years ended June 30, 2013 and 2012 was approximately \$31,600 and \$20,000, respectively.

NOTE G: CONTINGENCY

Certain grants and contracts may be subject to audit by funding sources. Such audits might result in disallowance of costs submitted for reimbursement by the Charter School. Management is of the opinion that such disallowances, if any, will not have a material effect on the accompanying financial statements. Accordingly, no amounts have been provided in the accompanying financial statements for such potential claims.

NOTE H: CONCENTRATIONS

At June 30, 2013, 19% and 63% of accounts receivable are due from New York State and a grantor, respectively. At June 30, 2012, 60% and 39% of accounts receivable are due from New York State and a grantor, respectively.

During the years ended June 30, 2013 and 2012, 88% and 71%, respectively, of total operating revenue and support came from per-pupil funding provided by New York State. The per-pupil rate is set annually by the State based on the school district in which the Charter School is located.

NOTE I: MAJOR GRANTOR

For the year ended June 30, 2013, there were no public grants that accounted for more than 10% of total operating revenue and support. One public grant accounted for approximately 11% of total operating revenue and support for the year ended June 30, 2012.

BROOKLYN EAST COLLEGIATE CHARTER SCHOOL

REPORT REQUIRED BY GOVERNMENT AUDITING STANDARDS

MENGEL METZGER BARR & CO. LLP

Certified Public Accountants

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Trustees
Brooklyn East Collegiate Charter School

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Brooklyn East Collegiate Charter School, which comprise the statement of financial position as of June 30, 2013 and the related statements of activities and changes in net assets, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated October 16, 2013.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Brooklyn East Collegiate Charter School's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Brooklyn East Collegiate Charter School's internal control. Accordingly, we do not express an opinion on the effectiveness of Brooklyn East Collegiate Charter School's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses that we consider to be significant deficiencies 2013-1 and 2013-2.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Brooklyn East Collegiate Charter School's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of Brooklyn East Collegiate Charter School in a separate letter dated October 16, 2013.

Brooklyn East Collegiate Charter School's Response to Findings

Brooklyn East Collegiate Charter School's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. Brooklyn East Collegiate Charter School's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Restricted Use

This report is intended solely for the information and use of the Board of Trustees, management, federal, state and local awarding agencies, the State University of New York, the New York State Education Department and others within the Charter School and is not intended to be and should not be used by anyone other than these specified parties.

Mengel, Metzger, Barw & Co. LLP

Rochester, New York
October 16, 2013

BROOKLYN EAST COLLEGIATE CHARTER SCHOOL

SCHEDULE OF FINDINGS AND RESPONSES

FOR THE YEAR ENDED JUNE 30, 2013

Finding 2013-1

Statement of condition

We noted during our audit a misstatement of prepaid expenses and expenses related to expensing of merchandise that was paid for in advance, but not yet received as of June 30, 2013.

Criteria and effect of conditions

We noted during our audit a misstatement of prepaid expenses and expenses related to improper expensing of items in accordance with GAAP which led to prepaid expenses being understated and expense overstated. This is considered to be a significant deficiency.

Recommendation

We recommend the Charter School review all expenditures to ensure that items are being expensed in the proper period.

Management response

This mistake occurred due to the volume of prepaid expenses at year-end. Uncommon Schools, Inc. will refine the process to make year-end prepaid expenses easily identifiable to help ensure that items are being expensed in the proper fiscal year.

Finding 2013-2

Statement of condition

We noted during our audit a misstatement of fixed assets, prepaid expenses and expenses related to incorrectly capitalizing and depreciating equipment when it had not been put into service or received as of June 30, 2013.

Criteria and effect of conditions

We noted during our audit a misstatement of fixed assets, prepaid expenses and expenses related to improperly depreciating an asset that had not been received as of June 30, 2013, which led to fixed assets being overstated, prepaid expenses being understated and expense overstated. This is considered to be a significant deficiency.

Recommendation

We recommend the Charter School thoroughly review the fixed asset listing for accuracy on an annual basis to ensure that assets that are being capitalized and depreciated have in fact been put into service.

Management response

This mistake occurred due to the volume of prepaid expenses at year-end. Uncommon Schools, Inc. will refine the process to make year-end prepaid expenses easily identifiable to help ensure that items are being expensed in the proper fiscal year.

INDEPENDENT ACCOUNTANT’S REPORT ON CSP FUNDING

Board of Trustees
Brooklyn East Collegiate Charter School

We have performed the procedures identified below, which were agreed to by the management of Brooklyn East Collegiate Charter School (the “Charter School”) and the New York State Education Department (the “NYSED”), solely to assist the specified parties in evaluating the Charter School’s assertion to the NYSED that it has maintained compliance with the requirements of the CSP grant Federal and NYSED guidelines in managing the CSP grant.

This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Our procedures and findings are as follows:

Procedure No. 1: We will obtain the detail of expenditures incurred for the period under review relating to the CSP grant from the Charter School’s accounting software and reconcile to the grant revenue recorded by the Charter School. If the CSP grant revenue does not equal the grant expenditures, we will investigate the differences.

Result

We observed that the detail of expenditures agreed to the Charter School’s reported CSP revenue.

Procedure No. 2: We will obtain the NYSED approved CSP grant award information, including the budget and any amendments, to determine if the revenue and expenditures recorded for the period appear reasonable.

Result

We observed the Charter School’s approved FS-10, FS-10-A, and Final expenditure summary, and it appears that revenue and expenditures in the period are reasonable.

Procedure No. 3: We will select a sample of expenditures from the detail obtained in Procedure No. 1.

- a. Payroll – We will select 10 items or 10% of the total number of payroll items charged to the grant, whichever is less.
- b. Other expenses – We will select 10 items or 10% of the total number of other expense items charged to the grant, whichever is less.
- c. Using the above selected items, we will:
 - i. Determine if the expenditure is in accordance with the purpose of the grant and that pre-opening expenditures are charged to pre-opening periods.
 - ii. Determine if the expenditure falls into an approved budget category.
 - iii. Determine if the expenditure was charged to the appropriate fiscal period.

Result

We selected a sample of other expenses, as there were no payroll expenses in the tested period. We obtained the documents as explained in Procedure No. 2. Upon testing we observed that expenditures appear to be in accordance with the purpose of the grant and that pre-opening expenditures are charged to pre-opening periods, that the expenditures fall into the appropriate budget category, and the expenditures were charged to the appropriate fiscal period.

Procedure No. 4: We will obtain FS-25 form(s) submitted to NYSED during the period under review and perform the following:

- a. Trace expenditures selected in Procedure #3 to requests for reimbursement. Determine that items requested for reimbursement had previously been expended or were expended within a month following the request for reimbursement. If items have not yet been requested for reimbursement, inquire of responsible charter school officials as to the plan for requesting reimbursement, and determine if a receivable is recorded, if appropriate.
- b. If FS-25 forms included amounts on Line 4 (Cash Expenditures Anticipated During Next Month), we will select one FS-25 and determine if funds were expended within 1 month following the date of the request.

Result

There were no FS-25s filed during the audited year as the CSP grant funding ended in August 2012. We observed the FS-10F filed, noting all expenses were properly included. We noted the Charter School's June 2012 FS-25 had no balance on Line 4 (Cash Expenditures Anticipated During Next Month).

We were not engaged to, and did not, conduct an examination, the objective of which would be the expression of an opinion on compliance. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the use of Brooklyn East Collegiate Charter School and the New York State Education Department, and it is not intended to be and should not be used by anyone other than the specified parties.

Directions:

- The file has two tabs: "Info Tab" and "Dashboard"
- Enter in the number fassigned to your selected school from the table at right in the **first green** cell below. Once entered, that school's information will populate the Dashboard Tab with the school name at the top.
- To add a comparison school, enter the assigned number for the school or region in the **second green** cell.
- To aid you in identifying comparable schools, the table at right contains key school information that shows region, grades served and enrollment as of 2009-10, years of existence, management/partner organization or not and facility type. If you do not want to use the comparison tool simply leave the second green cell blank.

Average -	5
Yrs. OR Charter Term	
	Err:511
	Err:511
	Err:511

This chart illustrates total revenue and expenses each year and the relationship those subsets have on the increase/decrease of net assets on a year to year basis. Ideally subset 1, revenue, will be taller than subset 2, expenses, and as a result subset 3, net assets - beginning, will increase each year building a more fiscally viable school.

This chart illustrates the relationship between assets and liabilities and to what extent cash reserves makes up current assets. Ideally for each subset, subsets 2 thru 4, (i.e. current assets vs. current liabilities), the column on the left is taller than the immediate column on the right; and, generally speaking, the bigger that gap, the better.

Err:511

This chart illustrates the breakdown of revenue and expenses on a per pupil basis. Caution should be exercised in making school-by-school comparisons since schools serving different missions or student populations are likely to have substantially different educational cost bases. Comparisons with similar schools with similar dynamics are most valid.

This chart illustrates to what extent the school's operating expenses have followed its student enrollment pattern. A baseline assumption that this data tests is that operating expenses increase with each additional student served. This chart also compares and contrasts growth trends of both, giving insight into what a reasonable expectation might be in terms of economies of scale.

Comparable School, Region or Network:

* Average = Average - 5 Yrs. OR Charter Term

This chart illustrates the percentage expense breakdown between program services and management & others as well as the percentage of revenues exceeding expenses. Ideally the percentage expense for program services will far exceed that of the management & other expense. The percentage of revenues exceeding expenses should not be negative. Similar caution, as mentioned on GRAPH 3, should be used in comparing schools.

Err:511

This chart illustrates a school's composite score based on the methodology developed by the United States Department of Education (USDOE) to determine whether private not-for-profit colleges and universities are financially strong enough to participate in federal loan programs. These scores can be valid for observing the fiscal trends of a particular school and used as a tool to compare the results of different schools.

This chart illustrates Working Capital and Debt to Asset Ratios. W/C indicates if a school has enough short-term assets to cover its immediate liabilities/short term debt. Debt to Asset indicates what proportion of debt a school has relative to its assets. The measure gives an idea to the leverage of the school along with the potential risks the school faces in terms of its debt-load.

This chart illustrates how many months of cash the school has in reserves. This metric is to measure solvency – the school's ability to pay debts and claims as they come due. This gives some idea of how long a school could continue its ongoing operating costs without tapping into some other, non-cash form of financing in the event that revenues were to cease flowing to the school.

Appendix E: Disclosure of Financial Interest Form

Created Thursday, August 01, 2013

Page 1

331300860937 BROOKLYN EAST COLLEGIATE CS

An Appendix E: Disclosure of Financial Interest Form must be completed for each active Trustee who served on the charter school's Board of Trustees during the 2012-13 school year. Trustees are at times difficult to track down in the summer months. Trustees may complete and submit at their leisure (but before the deadline) their individual form at: <http://fluidsurveys.com/surveys/vickie-smith/appendix-e-disclosure-of-financial-interest-form/>.

Trustees who are technologically advanced may complete the survey using their smartphones or other mobile devices by downloading the this bar code link to the survey <http://fluidsurveys.com/account/surveys/210748/publish/qrcode/>. (Make sure you have the bar code application reader on your phone).

If a Trustee is unable to complete the form by the deadline (i.e, out of the country), the school is responsible for submitting the information required on the form for that individual trustee.

Just send the links via email today to your Trustees requesting that they each complete their form as soon as possible.

Thank you.

Yes, each member of the school's Board of Trustees has received a link to the Disclosure of Financial Interest Form.

Yes

Thank you.

Appendix F: BOT Membership Table

Plan for Meeting Enrollment and Retention Targets

As a public school, Brooklyn East Collegiate Charter School (Brooklyn East) is open to children who are eligible under the laws of New York State for admission to a public school. The school follows all applicable state and federal laws in admitting students. Brooklyn East does not discriminate on the basis of intellectual ability, measures of achievement or aptitude, athletic ability, disability, race, creed, national origin, religion, or any other grounds that would be unlawful, in accordance with §2854(2) of the Education Law, the Americans With Disabilities Act, and to the extent permitted by Title IX of the Federal Civil Rights Act.

In accordance with the May 2010 amendments of the Education Law subdivision 2851(4), Brooklyn East is committed to meeting and exceeding the enrollment targets prescribed by the SUNY Trustees for charter schools for students with disabilities, English language learners, and students who are eligible applicants for the free and reduced price lunch program.

Brooklyn East is committed to attracting and retaining all students by offering a high-quality educational program, hiring and training highly-qualified teachers, and communicating regularly with families.

I. Outreach to Target Populations

In accordance with the May 2010 amendments to the Charter Schools Act, Brooklyn East aims to meet and exceed the enrollment targets prescribed by the SUNY Trustees for charter schools and through extensive outreach, the school will attract students who reflect the demographics of its CSD, including students with disabilities, English language learners, and students who are eligible applicants for the free and reduced price lunch program. In an effort to meet and exceed the SUNY enrollment targets, Brooklyn East has revised its plan for meeting enrollment and retention targets. Brooklyn East will be taking the measures below, among others, to recruit student applicants.

IIA. Overview of Recruitment Strategies

In alignment with our school's mission to serve all students from our surrounding communities, Brooklyn East, in coordination with other schools within the Uncommon Schools New York City region, will go to great lengths to ensure that our student recruitment outreach efforts target students with disabilities, students who are English language learners and students who are eligible for free or reduced price lunches. Brooklyn East and Uncommon Schools NYC will specifically target these high priority student groups, and will also continue to work to ensure that all NYC students have the information and access required to pursue an Uncommon education.

Specifically,

- All Uncommon Schools in New York City that will recruit new students will continue to work together on community outreach efforts. By combining our efforts and sharing information about all of our schools at one time, we will be able to reach far more students in New York City than if our schools work independently. Ultimately,

school leaders will be responsible for recruitment at their schools, but by collaborating, meeting regularly, dividing labor, and sharing best practices, we will be able to significantly increase the overall number of families that each school can reach.

- Our schools will continue to use a combined application that will allow a family to apply to multiple Uncommon Schools with just one application. This will make it easier for a family to learn about and access all of our schools and allows our schools to reach a broader population of students.
- One of our largest efforts to reach prospective students will continue to be through multiple mailings that we will send out throughout the student recruitment season. The New York City Department of Education provides lists of students by current grade and zip code to Vanguard Direct, Inc. Uncommon Schools will choose the zip codes near our schools that have the highest number of FRPL and ELL students and then will partner with Vanguard to send a mailing to those families. The final list will include close to 20,000 families of rising Kindergarten or 5th grade students. The mailing will include an application in English and Spanish as well as our color brochure.
- Uncommon Schools NYC will continue to run both English and Spanish language ads in the New York City Housing Authority Journal. On their website, the NYCHA Journal says they are “hand-delivered to each of the 178,000 apartments in NYCHA’s 334 public housing developments throughout the five boroughs.” It will also be distributed to more than 10,000 NYCHA employees, and mailed to elected officials and community leaders. It is also available through email subscription.

IIB. Recruitment of Students with Disabilities

In order to meet enrollment targets for students with disabilities, Brooklyn East will target its outreach to the families of students with disabilities by focusing on recruiting efforts at organizations serving students with disabilities and creating recruiting materials that more explicitly target students with disabilities.

Specifically,

- Schools will continue to build strong connections with their Committee on Special Education and we will also ensure they know we are an option for students, should they wish to recommend students to join us.
- Schools will reach out to related service agencies that they work with/have worked with in the past, and talk about the supports we offer students. We will ask if they have any clients they could recommend to apply.

To increase the likelihood that families of students with disabilities who receive recruiting materials will submit an application and to ensure that families of students with disabilities know that their students are eligible for our schools, we will continue to include language in all our recruiting materials to encourage families of students with disabilities to apply.

Specifically,

- We will ensure that all our outreach and application materials clearly state that all students, including those with disabilities, are eligible to apply. This language will appear on our enrollment websites, Kindergarten and 5th grade lottery applications, waitlist applications for all grades, the brochures that we will distribute to organizations and mail to 20,000 Brooklyn families, as well as in the presentations given at our information sessions.
- Our admissions brochure will continue to explicitly mention our high quality intervention programs that our schools offer of tutoring and small group instruction.
- Our admissions office and school based staff will continue to be trained on this question so that they could answer the concerns of any families of potential applicants with special needs who called in.
- We will create a one-page overview of Special Education Services at Uncommon Schools, providing families with information about our support services.

IIC. Recruitment of English Language Learners

In order to meet enrollment targets for students who are English language learners, Brooklyn East will continue to put a strong emphasis on recruiting students who are English language learners, and particularly, given the neighborhood in which our school is located, Spanish-speaking populations. Brooklyn East will continue to target its outreach efforts at organizations serving students and families who are English language learners and will continue translating all its student recruitment materials.

Specifically,

- To plan our outreach efforts, we will continue to use Census tract data to create maps showing the distributions of the populations of the top five most spoken languages after English. We will use these maps to locate the highest density areas of these non-English speaking populations near our schools.
- Using these maps, we will continue to create two community canvassing walks for each Uncommon School to take to travel through those neighborhoods. On the walks, school staff will visit local stores, organizations, and apartment buildings and hang flyers and leave brochures and applications in English and in Spanish at each location. In addition, school staff will talk to residents along the way (in English and in Spanish) to spread the word about our schools.
- We will continue to translate all our outreach materials that are distributed by our schools. Materials that will be produced and disseminated in English and Spanish will include our enrollment website and online lottery and waitlist applications, paper lottery applications, full color brochures and flyers, posters, informational packets, and tear away information sheets.
- We will continue to utilize the New York City Charter School Center's Common Application, which is available to families in six different languages.
- We will continue to identify high priority local community organizations to reach out to based on factors including location, age group served and proximity to high non-English speaking populations. Each organization will receive a call from our admissions office by a fluent Spanish speaking staff member and a mailing including brochures, flyers and applications in both English and Spanish.

- We will continue to meet with the Committee for Hispanic Children and Families, a non-profit referral service which helps Hispanic families find daycares, schools and enrichment programs for their students, to ensure that they are aware of our schools for an option for their families and provide them with outreach materials that they could share with the families that they serve.
- A Spanish speaking staff member will continue to be available at our admissions office by phone and email 40 hours a week. Not only will he/she be available to take incoming calls, he/she will also follow up with all Spanish speaking families to encourage them to send in documentation to qualify for all admissions preferences to ensure they had the best possible chance of acceptance into our schools.
- We also know that families of our current ELL students are our best resource to reach new ELL students. All families at our schools will continue to receive applications to distribute to family and friends in English and Spanish. Families of ELL students will continue to receive extra applications in Spanish. In addition, each school will continue to identify families of ELL students and families of non-ELL students where some Spanish is spoken at home who are interested in volunteering to support student admissions efforts. These families will meet with a school staff member to learn about a variety of ways that they can get the word out about our schools and distribute applications to others. These families will also be encouraged to speak at their churches, or other local organizations to spread the word about our schools.
- Uncommon Schools NYC will continue to run Google ads in Spanish so that families searching for information about schools in New York City in Spanish will see ads for our school and be directed to our Spanish webpages and applications.
- Each applicant, whether they are selected in the lottery or placed on the waitlist, will continue to receive a letter in both Spanish and English telling them the results of the lottery and the next steps to enrolling in the school.

IID. Recruitment of Students Eligible for Free and Reduced Price Lunch

In order to meet enrollment targets for students who are eligible for free and reduced price lunch, Brooklyn East will continue to place a high priority on recruiting students who qualify for free and reduced price lunch. Brooklyn East will focus its recruiting efforts at organizations serving students who are eligible for free and reduced price lunch, as well as conducting outreach in New York City Housing Authority housing developments.

Specifically,

- Similar to our strategy for reaching new ELL families, we believe that enlisting the help of the families of FRPL students who are currently in our schools, is one of the most effective ways of recruiting new FRPL students. All of our schools will continue to send home 5th grade lottery applications with all their current students. In addition, schools will continue to ask families who are interested in volunteering further to assist with hanging flyers in their neighborhoods, participating in phone banks to local organizations, or speaking at churches or other organizations that they are involved with.

- Brooklyn East will continue to work closely with a number of community organizations, in particular local Head Starts. Head Start programs are designed to serve low-income families, enrolling only families that meet income eligibility requirements.

We also know that many of our FRPL students currently reside in New York City Housing Authority sites. Brooklyn East will continue to focus recruiting efforts on NYCHA sites.

Specifically,

- Each of our schools will be assigned at least one and in most cases several New York City Housing Authority sites that are within close proximity to their school. The school will then visit these sites to hang flyers, leave applications and speak with residents to ensure that residents of these locations are aware of our schools and have the necessary information and materials needed to apply.
- In particular, Brooklyn East will continue to conduct outreach within its community schools at the following NYCHA sites:
 - Farragut Houses, which provide over 3,440 residents with public housing in Community School District (CSD) 17.
 - Ingersoll Houses, which consists of 1,802 apartments housing over 4,500 residents with public housing units in CSD 17.
 - Whitman Houses, which consists of 1,636 apartments housing about 4,276 people in CSD 17.

IIE. Year-Round Community Outreach

In addition to the many efforts outlined above, we plan to work to identify new organizations that can help us access these target populations. Beyond recruitment specific efforts, Uncommon Schools NYC will expand its community outreach efforts in all its school communities. Uncommon Schools NYC recently became a VISTA (Volunteers in Service to America) grantee, a program which is a national service program designed specifically to fight poverty. Two VISTA Corps Members will be assisting in the development and implementation of a comprehensive community outreach strategy in order to improve our reach to targeted populations. Outreach and community development will be a year round priority for our schools, and we plan to hold more events to help inform school communities about the work that we are doing and the opportunities that exist within our schools. This includes partnering with local elected officials and community members and holding larger scale events that are open to the general public as well as the families that we serve directly.

II. Admissions

Brooklyn East Collegiate provides admissions preference in their 5th grade lotteries for students who qualify for free or reduced price lunch. Families who qualify receive a preference that increases their chances of acceptance over students who do not qualify for free or reduced price lunches. Families who qualify for SNAP (food stamps) or TANF (public assistance) benefits, or live in New

York City Housing Authority housing are given an additional preference that further increases their chances for acceptance.

Brooklyn East Collegiate's admissions policy gives an absolute admissions preference to students who live within the school's CSD in an effort to enroll a student population that has a similar demographic to that of the CSD in which the school is located. First preference goes to siblings of students previously admitted to the school. Second preference is given to students living in the CSD in which the school is located. If space remains, students who reside outside Brooklyn East's CSD are admitted.

Because Brooklyn East will take extensive outreach efforts to get the word out to as many families as possible about the school and because the school will enroll predominately students who reside in the school's CSD, the demographics of students at Brooklyn East should match that of the school's CSD.

III. Evaluation of Recruitment and Enrollment Efforts

Brooklyn East is committed to serving all students and will actively monitor enrollment with respect to enrollment targets established by the SUNY Trustees. While the Uncommon NYC Regional Team will continue to help coordinate the recruitment process for all its Brooklyn schools and support each school in its efforts, the Director of Operations at Brooklyn East will continue to be responsible for leading the recruitment and enrollment efforts. As a means of evaluating the efficacy of the school's recruitment and enrollment efforts at attracting these sub-populations of students, Brooklyn East will closely monitor admissions information during the enrollment period and after students have enrolled in the school. For example, during the student recruitment season, Brooklyn East will track the number of applications received by families who indicate their home language is not English and who complete the Spanish version of the application. These numbers will provide good indicators as to whether or not the school's outreach efforts are reaching students who may be English Language Learners and enables the school to adjust outreach efforts during the recruitment season. When students enroll in the school, Brooklyn East will gather information about whether or not the students qualify for Free or Reduced Price Meals or qualify for Special Education services. The school will then compare these numbers to those of the Community School District and determine whether or not it will need to make modifications to community outreach efforts or admissions policies for the following year. Additionally, by examining the demographics of the entering 5th grade classes, Brooklyn East can determine if it is making progress toward meeting the proposed enrollment targets for the entire school population.

Uncommon Schools and Brooklyn East will continue to document all student recruitment activities and store information on an Uncommon Schools shared drive or on shared spreadsheets. For example, Uncommon Schools has a shared spreadsheet of over 600 community organizations, many of which are identified as organizations that provide services to low income families, families whose first language is not English, and families whose children receive special needs services. The Brooklyn East Operations Team will continue to use this spreadsheet to identify organizations to conduct community outreach and then record all interactions with these organizations in the spreadsheet, so that the school can determine the partnership's efficacy for future years.

In addition, Brooklyn East will continue to document its community outreach and admissions efforts each year by completing and submitting the Application and Admissions Summary each year.

If the school fails to meet or make progress toward meeting enrollment targets and outreach efforts do not reverse the trend, the school will consider altering its admissions policy to give enrollment preferences to certain demographic groups.

VI. Persistence

In accordance with our mission to prepare students for college, we want all of our students, including FRPL, ELL and students with disabilities, to stay with us through high school graduation. We will continue to analyze our data to ensure that we are serving students from these populations as effectively as all other students, and keeping them in our schools in the same numbers.

VII. Evaluation of Retention Efforts

Brooklyn East' leadership team will continue to be responsible for regularly monitoring and overseeing the school's retention efforts and the performance of students in the three populations. Historically, high levels of persistence for these sub-populations are indicators that the school's strategy for retaining students is working. Brooklyn East will continue to be committed to attracting and retaining all students by offering a high-quality educational program, hiring and training highly-qualified teachers, and communicating regularly with families. The Director of Operations at Brooklyn East will continue to actively monitor the enrollment and retention of students who are English language learners, students who qualify for free and reduced price lunch, and students with special needs. If the numbers do not reach or exceed the targets established by the SUNY Charter Schools Institute, the school will revisit its enrollment and retention practices.
