Recruitment and Retention

From its origins, the founders of FLACS sought to attract and effectively work with second language learners, immigrant children and students from poverty communities. To ensure that FLACS, and its replicated schools, could attract and provide for the education of such students, the FLACS Network has sited FLACS schools in neighborhoods with high concentrations of these populations. Without providing for any preferential admissions policy, the pool of students seeking admissions have been, and continue to be, representative of the community at large as noted in the demographics of the community school districts in which the FLACS schools are located (districts 7 and 9). These demographics include student who are ESL, special education and receive free and reduced lunch.

In addition, it must be noted that FLACS' founder and board member, Rev. Dr. Raymond Rivera, has an established network of local religious and community organizations. This network has been highly effective in ensuring that the pool of applicants exceeds the number of available seats and is representative of the demographics sought by the school. In addition, FLACS Network schools have earned reputations as safe, caring schools with a history of student-initiated community service. In addition, FLACS is known for its healthy and unique food program, augmented by its community gardens.

FLACS has always maintained high student retention levels which has resulted in a minimum percentage of students having to be drawn from the waiting lists. In 2014-2015 the FLACS Network conducted the three lotteries on the same day at FLACS-I at different times. All three schools met their recruitment targets with a waiting list from which all three schools could draw, if needed.
