

Verification Report 6
 District Report of Preschool Students by Primary Service Provider
 (On October 4, 2017)

To view the description of the report including SIRS codes please [click here](#).

Directions: Please review the data below to verify that this report represents all preschool children with disabilities (aged 3-4) for whom your district has CPSE responsibility and who were receiving special education services from the special education service provider or coordinating service provider (referred to as the *Primary Service Provider* in the *Special Education Snapshot* record) on the snapshot date. Student's age is 3 or 4 as of October 4, 2017. The links below the numbers in each cell provide a list of students that meet the criteria to be included in the report. Also, please review your school district's report of students excluded from this report. **If corrections are needed to this report, please resubmit your district files with the necessary corrections to the Regional Information Center (or the data warehouse for large cities) before the certification due date.**

For your information, each approved special education service provider will be able to see a report of the number of preschool children you report for that provider. They will not be shown the students' names. They may contact your special education office if their record of the number of children from your district does not match your report of the number of students for the service provider. We encourage each school district to review the SEDCAR-1 form from each approved special education service provider to ensure all preschool students are reported with the accurate primary service provider information.
