

# 2014 RtI WEBINAR SERIES

Sponsored by the NYS RtI TAC

## STRAND #7

### DATA-BASED DECISION MAKING IN AN RTI PROCESS

**Description:** Data-based decision making is central to a highly functional RtI process and occurs at every level of tiered instruction and intervention. Data based decision making involves the use of student performance data from universal screening and progress monitoring measures to: (1) identify students who may be at-risk for academic failure and, (2) determine individual student response to supplemental intervention. This webinar strand will highlight data team meeting protocol and logistical considerations that support effective and efficient RtI data team meetings. It will also provide a discussion and examples involving the use of RtI data to determine at-risk status and a student's response to supplemental intervention.

**Intended Audience:** *Data based Decision Making in an RtI Process* is intended for members of an RtI data team who are responsible for analyzing universal screening and progress monitoring data for the purposes of identifying students who may need supplemental intervention and for determining individual student response to additional instruction.

**Presenter:** Dr. Edward S. Shapiro, Ph.D., currently is Professor of School Psychology and Director, Center for Promoting Research to Practice in the College of Education at Lehigh University, Bethlehem, Pennsylvania.

Webinar Title:	Date/Time:	Agenda
Data Team Meeting Protocol	Monday, December 1 <sup>st</sup> , 2014 4:00 – 5:30 p.m.	<ul style="list-style-type: none"><li>• Membership &amp; Function</li><li>• Basics of Data Team Meetings</li><li>• Following the Script</li></ul>
Data Based Decision Making and Universal Screening Data	Monday, December 8 <sup>th</sup> , 2014 4:00 – 5:30 p.m.	<ul style="list-style-type: none"><li>• Key Decisions When Analyzing Universal Screening Data</li><li>• Goal setting with Benchmark Data</li><li>• Procedures for Determining Goals<ul style="list-style-type: none"><li>• Fall Benchmark Data</li><li>• Winter Benchmark Data</li></ul></li></ul>
Data Based Decision Making and Progress Monitoring	Monday, December 15 <sup>th</sup> , 2014 4:00 – 5:30 p.m.	<ul style="list-style-type: none"><li>• Key Decisions When Analyzing Progress Monitoring Data</li><li>• Rate of Improvement: What It Is and How to Calculate It</li><li>• Using ROI to Determine Student Response</li></ul>
Data-based Decision: Making It Work in Your School	Monday, January 12 <sup>th</sup> , 2015 4:00 – 5:30 p.m.	<ul style="list-style-type: none"><li>• Practical Suggestions for Using Data Based Decision Making in Your School</li><li>• Q &amp; A with participants</li></ul>
