### SSIP Overview

#### Institution ID
800000037240

1. **Please enter the name of the person to contact regarding this submission.**
   
   Maureen B. Virsinger

2a. **Please enter their phone number for follow up questions.**
   
   (631) 968-1111

2b. **Please enter their e-mail address for follow up contact.**
   
   mvirsinger@bayshore.k12.ny.us

2. **Please indicate below whether this is the first submission, a new or supplemental submission or an amended submission of an approved Smart Schools Investment Plan.**

   First submission

3. All New York State public school districts are required to complete and submit a District Instructional Technology Plan survey to the New York State Education Department in compliance with Section 753 of the Education Law and per Part 100.12 of the Commissioner’s Regulations. Districts that include investments in high-speed broadband or wireless connectivity and/or learning technology equipment or facilities as part of their Smart Schools Investment Plan must have a submitted and approved Instructional Technology Plan survey on file with the New York State Education Department.

   By checking this box, you certify that the school district has an approved District Instructional Technology Plan survey on file with the New York State Education Department.

   - [ ] District Educational Technology Plan Submitted to SED and Approved

4. **Pursuant to the requirements of the Smart Schools Bond Act, the planning process must include consultation with parents, teachers, students, community members, other stakeholders and any nonpublic schools located in the district.**

   By checking the boxes below, you are certifying that you have engaged with those required stakeholders. Each box must be checked prior to submitting your Smart Schools Investment Plan.

   - [ ] Parents
   - [ ] Teachers
   - [ ] Students
   - [ ] Community members

4a. **If your district contains non-public schools, have you provided a timely opportunity for consultation with these stakeholders?**

   - [ ] Yes
   - [ ] No
   - [ ] N/A

5. **Certify that the following required steps have taken place by checking the boxes below: Each box must be checked prior to submitting your Smart Schools Investment Plan.**

   - [ ] The district developed and the school board approved a preliminary Smart Schools Investment Plan.
   - [ ] The preliminary plan was posted on the district website for at least 30 days. The district included an address to which any written comments on the plan should be sent.
   - [ ] The school board conducted a hearing that enabled stakeholders to respond to the preliminary plan. This hearing may have occurred as part of a normal Board meeting, but adequate notice of the event must have been provided through local media and the district website for at least two weeks prior to the meeting.
   - [ ] The district prepared a final plan for school board approval and such plan has been approved by the school board.
   - [ ] The final proposed plan that has been submitted has been posted on the district’s website.
SSIP Overview

5a. Please upload the proposed Smart Schools Investment Plan (SSIP) that was posted on the district's website, along with any supporting materials. Note that this should be different than your recently submitted Educational Technology Survey. The Final SSIP, as approved by the School Board, should also be posted on the website and remain there during the course of the projects contained therein.

- Board of Education Work Session Minutes.pdf
- P-2 Proposed Floor Plans.pdf
- Pre-K Classroom Layouts.pdf
- Smart Schools Bond Act - Preliminary Review.doc
- P-1 Proposed Site Plan.pdf

5b. Enter the webpage address where the final Smart Schools Investment Plan is posted. The Plan should remain posted for the life of the included projects.

https://www.bayshoreschools.org/UPKArmoryPlans

6. Please enter an estimate of the total number of students and staff that will benefit from this Smart Schools Investment Plan based on the cumulative projects submitted to date.

475

7. An LEA/School District may partner with one or more other LEA/School Districts to form a consortium to pool Smart Schools Bond Act funds for a project that meets all other Smart School Bond Act requirements. Each school district participating in the consortium will need to file an approved Smart Schools Investment Plan for the project and submit a signed Memorandum of Understanding that sets forth the details of the consortium including the roles of each respective district.

☐ The district plans to participate in a consortium to partner with other school district(s) to implement a Smart Schools project.

8. Please enter the name and 6-digit SED Code for each LEA/School District participating in the Consortium.

<table>
<thead>
<tr>
<th>Partner LEA/District</th>

</tr>
</thead>
<tbody>
<tr>
<td>(No Response)</td>
<td>(No Response)</td>
</tr>
</tbody>
</table>

9. Please upload a signed Memorandum of Understanding with all of the participating Consortium partners.

(No Response)

10. Your district's Smart Schools Bond Act Allocation is:

$3,935,478

11. Enter the budget sub-allocations by category that you are submitting for approval at this time. If you are not budgeting SSBA funds for a category, please enter 0 (zero.) If the value entered is $0, you will not be required to complete that survey question.

1. In order for students and faculty to receive the maximum benefit from the technology made available under the Smart Schools Bond Act, their school buildings must possess sufficient connectivity infrastructure to ensure that devices can be used during the school day. Smart Schools Investment Plans must demonstrate that:
   - sufficient infrastructure that meets the Federal Communications Commission’s 100 Mbps per 1,000 students standard currently exists in the buildings where new devices will be deployed, or
   - is a planned use of a portion of Smart Schools Bond Act funds, or
   - is under development through another funding source.

Smart Schools Bond Act funds used for technology infrastructure or classroom technology investments must increase the number of school buildings that meet or exceed the minimum speed standard of 100 Mbps per 1,000 students and staff within 12 months. This standard may be met on either a contracted 24/7 firm service or a "burstable" capability. If the standard is met under the burstable criteria, it must be:
   1. Specifically codified in a service contract with a provider, and
   2. Guaranteed to be available to all students and devices as needed, particularly during periods of high demand, such as computer-based testing (CBT) periods.

Please describe how your district already meets or is planning to meet this standard within 12 months of plan submission.

(No Response)

1a. If a district believes that it will be impossible to meet this standard within 12 months, it may apply for a waiver of this requirement, as described on the Smart Schools website. The waiver must be filed and approved by SED prior to submitting this survey.

☐ By checking this box, you are certifying that the school district has an approved waiver of this requirement on file with the New York State Education Department.

2. Connectivity Speed Calculator (Required)

<table>
<thead>
<tr>
<th>Number of Students</th>

</tr>
</tbody>
</table>

3. Describe how you intend to use Smart Schools Bond Act funds for high-speed broadband and/or wireless connectivity projects in school buildings.

(No Response)

4. Describe the linkage between the district’s District Instructional Technology Plan and the proposed projects. (There should be a link between your response to this question and your response to Question 1 in Part E. Curriculum and Instruction "What are the district’s plans to use digital connectivity and technology to improve teaching and learning?")

(No Response)

5. If the district wishes to have students and staff access the Internet from wireless devices within the school building, or in close proximity to it, it must first ensure that it has a robust Wi-Fi network in place that has sufficient bandwidth to meet user demand.

Please describe how you have quantified this demand and how you plan to meet this demand.

(No Response)

6. As indicated on Page 5 of the guidance, the Office of Facilities Planning will have to conduct a preliminary review
of all capital projects, including connectivity projects.
Please indicate on a separate row each project number given to you by the Office of Facilities Planning.

<table>

3. If the district wishes to have students and staff access the Internet from wireless devices within the school building, or in close proximity to it, it must first ensure that it has a robust Wi-Fi network in place that has sufficient bandwidth to meet user demand.
Please describe how you have quantified this demand and how you plan to meet this demand.
   (No Response)

4. All New York State public school districts are required to complete and submit an Instructional Technology Plan survey to the New York State Education Department in compliance with Section 753 of the Education Law and per Part 100.12 of the Commissioner’s Regulations.
Districts that include educational technology purchases as part of their Smart Schools Investment Plan must have a submitted and approved Instructional Technology Plan survey on file with the New York State Education Department.
   ☐ By checking this box, you are certifying that the school district has an approved Instructional Technology Plan survey on file with the New York State Education Department.

5. Describe the devices you intend to purchase and their compatibility with existing or planned platforms or systems. Specifically address the adequacy of each facility’s electrical, HVAC and other infrastructure necessary to install and support the operation of the planned technology.
   (No Response)
Classroom Learning Technology

6. Describe how the proposed technology purchases will:
   > enhance differentiated instruction;
   > expand student learning inside and outside the classroom;
   > benefit students with disabilities and English language learners; and
   > contribute to the reduction of other learning gaps that have been identified within the district.

   The expectation is that districts will place a priority on addressing the needs of students who struggle to succeed in a rigorous curriculum. Responses in this section should specifically address this concern and align with the district’s Instructional Technology Plan (in particular Question 2 of E. Curriculum and Instruction: “Does the district’s instructional technology plan address the needs of students with disabilities to ensure equitable access to instruction, materials and assessments?” and Question 3 of the same section: “Does the district’s instructional technology plan address the provision of assistive technology specifically for students with disabilities to ensure access to and participation in the general curriculum?”

   (No Response)

7. Where appropriate, describe how the proposed technology purchases will enhance ongoing communication with parents and other stakeholders and help the district facilitate technology-based regional partnerships, including distance learning and other efforts.

   (No Response)

8. Describe the district’s plan to provide professional development to ensure that administrators, teachers and staff can employ the technology purchased to enhance instruction successfully.

   Note: This response should be aligned and expanded upon in accordance with your district’s response to Question 1 of F. Professional Development of your Instructional Technology Plan: “Please provide a summary of professional development offered to teachers and staff, for the time period covered by this plan, to support technology to enhance teaching and learning. Please include topics, audience and method of delivery within your summary.”

   (No Response)

9. Districts must contact the SUNY/CUNY teacher preparation program that supplies the largest number of the district’s new teachers to request advice on innovative uses and best practices at the intersection of pedagogy and educational technology.

   By checking this box, you certify that you have contacted the SUNY/CUNY teacher preparation program that supplies the largest number of your new teachers to request advice on these issues.

   ☐ By checking this box, you certify that you have contacted the SUNY/CUNY teacher preparation program that supplies the largest number of your new teachers to request advice on these issues.

   9a. Please enter the name of the SUNY or CUNY Institution that you contacted.

   (No Response)

   9b. Enter the primary Institution phone number.

   (No Response)

   9c. Enter the name of the contact person with whom you consulted and/or will be collaborating with on innovative uses of technology and best practices.

   (No Response)

10. A district whose Smart Schools Investment Plan proposes the purchase of technology devices and other hardware must account for nonpublic schools in the district.

    Are there nonpublic schools within your school district?

    ☐ Yes
    ☐ No

11. Nonpublic Classroom Technology Loan Calculator
The Smart Schools Bond Act provides that any Classroom Learning Technology purchases made using Smart Schools funds shall be lent, upon request, to nonpublic schools in the district. However, no school district shall be required to loan technology in amounts greater than the total obtained and spent on technology pursuant to the Smart Schools Bond Act and the value of such loan may not exceed the total of $250 multiplied by the nonpublic school enrollment in the base year at the time of enactment.

<table>

</tbody>
</table>

12. To ensure the sustainability of technology purchases made with Smart Schools funds, districts must demonstrate a long-term plan to maintain and replace technology purchases supported by Smart Schools Bond Act funds. This sustainability plan shall demonstrate a district's capacity to support recurring costs of use that are ineligible for Smart Schools Bond Act funding such as device maintenance, technical support, Internet and wireless fees, maintenance of hotspots, staff professional development, building maintenance and the replacement of incidental items. Further, such a sustainability plan shall include a long-term plan for the replacement of purchased devices and equipment at the end of their useful life with other funding sources.

☐ By checking this box, you certify that the district has a sustainability plan as described above.

13. Districts must ensure that devices purchased with Smart Schools Bond funds will be distributed, prepared for use, maintained and supported appropriately. Districts must maintain detailed device inventories in accordance with generally accepted accounting principles.

☐ By checking this box, you certify that the district has a distribution and inventory management plan and system in place.

14. If you are submitting an allocation for Classroom Learning Technology complete this table. Note that the calculated Total at the bottom of the table must equal the Total allocation for this category that you entered in the SSIP Overview overall budget.

1. Provide information regarding how and where the district is currently serving pre-kindergarten students and justify the need for additional space with enrollment projections over 3 years.

   Our Universal Pre-K program is currently housed in four separate locations, two of which are District owned (and desperately needed by our K-2 program), with services being provided by two different outside contractors. The District employs a 1.0 FTE administrator to oversee both the needs of the program and the service providers. Prior to September of 2014, enrollment fluctuated from a low of the approximately 200 students that were supported by the state grant, to a high of almost 300 students in years where the Board of Education had the funding to supplement the grant and was able to both accept all applicants and provide transportation. The funding included in the 2014-15 State Budget was the first installment as part of the State's commitment to invest $1.5 billion over five years to build a Statewide Universal Full-Day Pre-Kindergarten program. The Bay Shore Union Free School District received the largest single allocation of any non-city school district in the State, moving the program from a maximum of 183 half-day students to a maximum of 36 half-day and 284 full-day students, for a total of 320 students served. As of today (May 31, 2019), enrollment in the 2018-19 school year has reached capacity with approximately a dozen students being placed on a waiting list. With an average class size of 415 half-day students and stable enrollment predicted over the course of the next five years, we are servicing approximately 77% of a given cohort. Our goal is to provide a Universal Pre-K program for 100% of our 4 year olds in this dedicated facility, enabling us to take back the in-district classrooms currently in use and begin a new full-day program for 3 year olds in the classroom space freed up in our outside contractor(s) facilities.

2. Describe the district’s plan to construct, enhance or modernize education facilities to accommodate pre-kindergarten programs. Such plans must include:

   - Specific descriptions of what the district intends to do to each space;
   - An affirmation that pre-kindergarten classrooms will contain a minimum of 900 square feet per classroom;
   - The number of classrooms involved;
   - The approximate construction costs per classroom; and
   - Confirmation that the space is district-owned or has a long-term lease that exceeds the probable useful life of the improvements.

   The Bay Shore UFSD was able, through locally sponsored legislation, to procure the Bay Shore Armory site for $1. As per NYS OGS, the site is ours and available for our use in perpetuity, as long as it is being utilized for educational purposes. We now own the property and hold the deed. Once the entire site has been renovated, the completed capital project will provide 22 classrooms plus dedicated art/music classrooms, a technology lab, library, multi-purpose room w/stage, full kitchen, and health office, in additional to numerous ancillary instructional/office spaces. The 22 classrooms will contain a minimum of 600 square feet per classroom as agreed to by the Office of Early Learning. The District will provide the minimum of 30 square feet per child required by the Smart Schools Bond Act. Universal Pre-K classes may not exceed 18 students unless there are 2 paraprofessionals in the room, in which case they may not exceed 20 students. Therefore, a classroom containing a minimum of 600 square feet is sufficient by definition. Again, this was reviewed and approved by the various agencies involved, ergo project approval by Facilities Planning. We anticipate the entire project (much of which has already been constructed using various other sources of funding, including Transfer to Capital and QZAB monies) to total approximately $12 million.

3. Smart Schools Bond Act funds may only be used for capital construction costs. Describe the type and amount of additional funds that will be required to support ineligible ongoing costs (e.g. instruction, supplies) associated with any additional pre-kindergarten classrooms that the district plans to add.

   Once the capital construction portion of the project is complete and the site becomes operational, there will be a number of expenses that the Board of Education has both been made aware of, and in some cases, already funds. As indicated above, the District currently employs a 1.0 FTE administrator to oversee both the needs of the program and the service providers. She will need full-time secretarial support (~$50k). Our Grounds department is already maintaining the site, but 2 custodians will need to be hired to care for the buildings (~$125k). An additional security guard is also anticipated (~$40k). We will need both food and nursing services, but they will likely be negotiated into the contract with the CBO providing the instructional services, as will materials and supplies (completely grant funded). Utilities will be the responsibility of the District as will connectivity and telecommunication needs (~$35k). Although optional, transportation is another item that will ultimately need to be looked at. All ineligible ongoing costs not covered by the winning CBO will be the responsibility of the Board of Education and must be annually budgeted within the General Fund.

4. All plans and specifications for the erection, repair, enlargement or remodeling of school buildings in any public school district in the State must be reviewed and approved by the Commissioner. Districts that plan capital projects using their Smart Schools Bond Act funds will undergo a Preliminary Review Process by the Office of Facilities Planning.

   Please indicate on a separate row each project number given to you by the Office of Facilities Planning.

1. Describe the district’s plan to construct, enhance or modernize education facilities to provide high-quality instructional space by replacing transportable classrooms.

(No Response)

2. All plans and specifications for the erection, repair, enlargement or remodeling of school buildings in any public school district in the State must be reviewed and approved by the Commissioner. Districts that plan capital projects using their Smart Schools Bond Act funds will undergo a Preliminary Review Process by the Office of Facilities Planning.

Please indicate on a separate row each project number given to you by the Office of Facilities Planning.

3. For large projects that seek to blend Smart Schools Bond Act dollars with other funds, please note that Smart Schools Bond Act funds can be allocated on a pro rata basis depending on the number of new classrooms built that directly replace transportable classroom units.

If a district seeks to blend Smart Schools Bond Act dollars with other funds describe below what other funds are being used and what portion of the money will be Smart Schools Bond Act funds.

(No Response)

4. If you have made an allocation for Replace Transportable Classrooms, complete this table.

Note that the calculated Total at the bottom of the table must equal the Total allocation for this category that you entered in the SSIP Overview overall budget.

<table>

</table>

5. Please detail the type, quantity, per unit cost and total cost of the eligible items under each sub-category. This is especially important for any expenditures listed under the "Other" category. All expenditures must be capital-bond eligible to be reimbursed through the SSBA. If you have any questions, please contact us directly through smartschools@nysed.gov.

Add rows under each sub-category for additional items, as needed.
