1. Describe how you intend to use Smart Schools Bond Act funds to install high-tech security features in school buildings and on school campuses.

We plan to replace our existing CCTV cameras with HD IP cameras and install additional HD IP cameras to increase the concentration of cameras throughout the building. We will also be installing a 64 TB storage device for video storage. Our Maintenance Staff ran all of the necessary cabling during the summer of 2016.

2. All plans and specifications for the erection, repair, enlargement or remodeling of school buildings in any public school district in the State must be reviewed and approved by the Commissioner. Districts that plan capital projects using their Smart Schools Bond Act funds will undergo a Preliminary Review Process by the Office of Facilities Planning.

Please indicate on a separate row each project number given to you by the Office of Facilities Planning.
