

Smart Schools Investment Plan - 2016-17 Version (Original) - SEW-SBA-2015-P3

SSIP Overview

Page Last Modified: 05/16/2018

1. Please enter the name of the person to contact regarding this submission.

Brian Messinger

- 1a. Please enter their phone number for follow up questions.

516-488-9816

- 1b. Please enter their e-mail address for follow up contact.

bmessinger@sewanhakaschools.org

2. Please indicate below whether this is the first submission, a new or supplemental submission or an amended submission of an approved Smart Schools Investment Plan.

Supplemental submission

3. All New York State public school districts are required to complete and submit a District Instructional Technology Plan survey to the New York State Education Department in compliance with Section 753 of the Education Law and per Part 100.12 of the Commissioner's Regulations. Districts that include investments in high-speed broadband or wireless connectivity and/or learning technology equipment or facilities as part of their Smart Schools Investment Plan must have a submitted and approved Instructional Technology Plan survey on file with the New York State Education Department.

By checking this box, you certify that the school district has an approved District Instructional Technology Plan survey on file with the New York State Education Department.

District Educational Technology Plan Submitted to SED and Approved

4. Pursuant to the requirements of the Smart Schools Bond Act, the planning process must include consultation with parents, teachers, students, community members, other stakeholders and any nonpublic schools located in the district.

By checking the boxes below, you are certifying that you have engaged with those required stakeholders. Each box must be checked prior to submitting your Smart Schools Investment Plan.

- Parents
 Teachers
 Students
 Community members

- 4a. If your district contains non-public schools, have you provided a timely opportunity for consultation with these stakeholders?

- Yes
 No
 N/A

5. Certify that the following required steps have taken place by checking the boxes below: Each box must be checked prior to submitting your Smart Schools Investment Plan.

- The district developed and the school board approved a preliminary Smart Schools Investment Plan.
 The preliminary plan was posted on the district website for at least 30 days. The district included an address to which any written comments on the plan should be sent.
 The school board conducted a hearing that enabled stakeholders to respond to the preliminary plan. This hearing may have occurred as part of a normal Board meeting, but adequate notice of the event must have been provided through local media and the district website for at least two weeks prior to the meeting.
 The district prepared a final plan for school board approval and such plan has been approved by the school board.
 The final proposed plan that has been submitted has been posted on the district's website.

Smart Schools Investment Plan - 2016-17 Version (Original) - SEW-SBA-2015-P3

SSIP Overview

Page Last Modified: 05/16/2018

- 5a. Please upload the proposed Smart Schools Investment Plan (SSIP) that was posted on the district's website, along with any supporting materials. Note that this should be different than your recently submitted Educational Technology Survey. The Final SSIP, as approved by the School Board, should also be posted on the website and remain there during the course of the projects contained therein.

SSBA Quote 1 2018.pdf
 SSBA Quote 2 2018.pdf
 Smart Bond Initial Plan.pdf

- 5b. Enter the webpage address where the final Smart Schools Investment Plan is posted. The Plan should remain posted for the life of the included projects.

<https://www.sewanhakaschools.org/Page/22673>

6. Please enter an estimate of the total number of students and staff that will benefit from this Smart Schools Investment Plan based on the cumulative projects submitted to date.

9,200

7. An LEA/School District may partner with one or more other LEA/School Districts to form a consortium to pool Smart Schools Bond Act funds for a project that meets all other Smart School Bond Act requirements. Each school district participating in the consortium will need to file an approved Smart Schools Investment Plan for the project and submit a signed Memorandum of Understanding that sets forth the details of the consortium including the roles of each respective district.

The district plans to participate in a consortium to partner with other school district(s) to implement a Smart Schools project.

8. Please enter the name and 6-digit SED Code for each LEA/School District participating in the Consortium.

Partner LEA/District	SED BEDS Code
(No Response)	(No Response)

9. Please upload a signed Memorandum of Understanding with all of the participating Consortium partners.

(No Response)

10. Your district's Smart Schools Bond Act Allocation is:

\$3,190,268

11. Enter the budget sub-allocations by category that you are submitting for approval at this time. If you are not budgeting SSBA funds for a category, please enter 0 (zero.) If the value entered is \$0, you will not be required to complete that survey question.

	Sub-Allocations
School Connectivity	0
Connectivity Projects for Communities	0
Classroom Technology	793,784
Pre-Kindergarten Classrooms	0
Replace Transportable Classrooms	0
High-Tech Security Features	0
Totals:	793,784

Smart Schools Investment Plan - 2016-17 Version (Original) - SEW-SBA-2015-P3

School Connectivity

Page Last Modified: 01/31/2018

1. In order for students and faculty to receive the maximum benefit from the technology made available under the Smart Schools Bond Act, their school buildings must possess sufficient connectivity infrastructure to ensure that devices can be used during the school day. Smart Schools Investment Plans must demonstrate that:
 - sufficient infrastructure that meets the Federal Communications Commission’s 100 Mbps per 1,000 students standard currently exists in the buildings where new devices will be deployed, or
 - is a planned use of a portion of Smart Schools Bond Act funds, or
 - is under development through another funding source.

Smart Schools Bond Act funds used for technology infrastructure or classroom technology investments must increase the number of school buildings that meet or exceed the minimum speed standard of 100 Mbps per 1,000 students and staff within 12 months. This standard may be met on either a contracted 24/7 firm service or a "burstable" capability. If the standard is met under the burstable criteria, it must be:

1. Specifically codified in a service contract with a provider, and
2. Guaranteed to be available to all students and devices as needed, particularly during periods of high demand, such as computer-based testing (CBT) periods.

Please describe how your district already meets or is planning to meet this standard within 12 months of plan submission.

(No Response)

- 1a. If a district believes that it will be impossible to meet this standard within 12 months, it may apply for a waiver of this requirement, as described on the Smart Schools website. The waiver must be filed and approved by SED prior to submitting this survey.

By checking this box, you are certifying that the school district has an approved waiver of this requirement on file with the New York State Education Department.

2. Connectivity Speed Calculator (Required)

	Number of Students	Multiply by 100 Kbps	Divide by 1000 to Convert to Required Speed in Mb	Current Speed in Mb	Expected Speed to be Attained Within 12 Months	Expected Date When Required Speed Will be Met
Calculated Speed	(No Response)	(No Response)	(No Response)	(No Response)	(No Response)	(No Response)

3. Describe how you intend to use Smart Schools Bond Act funds for high-speed broadband and/or wireless connectivity projects in school buildings.

(No Response)

4. Describe the linkage between the district's District Instructional Technology Plan and the proposed projects. (There should be a link between your response to this question and your response to Question 1 in Part E. Curriculum and Instruction "What are the district's plans to use digital connectivity and technology to improve teaching and learning?")

(No Response)

5. If the district wishes to have students and staff access the Internet from wireless devices within the school building, or in close proximity to it, it must first ensure that it has a robust Wi-Fi network in place that has sufficient bandwidth to meet user demand.

Please describe how you have quantified this demand and how you plan to meet this demand.

(No Response)

Smart Schools Investment Plan - 2016-17 Version (Original) - SEW-SBA-2015-P3

School Connectivity

Page Last Modified: 01/31/2018

6. As indicated on Page 5 of the guidance, the Office of Facilities Planning will have to conduct a preliminary review of all capital projects, including connectivity projects.
Please indicate on a separate row each project number given to you by the Office of Facilities Planning.

Project Number
(No Response)

7. Certain high-tech security and connectivity infrastructure projects may be eligible for an expedited review process as determined by the Office of Facilities Planning.

Was your project deemed eligible for streamlined review?

(No Response)

8. Include the name and license number of the architect or engineer of record.

Name	License Number
(No Response)	(No Response)

9. If you are submitting an allocation for **School Connectivity** complete this table.
Note that the calculated Total at the bottom of the table must equal the Total allocation for this category that you entered in the SSIP Overview overall budget.

	Sub-Allocation
Network/Access Costs	(No Response)
Outside Plant Costs	(No Response)
School Internal Connections and Components	(No Response)
Professional Services	(No Response)
Testing	(No Response)
Other Upfront Costs	(No Response)
Other Costs	(No Response)
Totals:	0

10. Please detail the type, quantity, per unit cost and total cost of the eligible items under each sub-category. This is especially important for any expenditures listed under the "Other" category. All expenditures must be eligible for tax-exempt financing to be reimbursed through the SSBA. Sufficient detail must be provided so that we can verify this is the case. If you have any questions, please contact us directly through smartschools@nysed.gov.
NOTE: Wireless Access Points should be included in this category, not under Classroom Educational Technology, except those that will be loaned/purchased for nonpublic schools.
Add rows under each sub-category for additional items, as needed.

Community Connectivity (Broadband and Wireless)

Page Last Modified: 02/01/2018

1. Describe how you intend to use Smart Schools Bond Act funds for high-speed broadband and/or wireless connectivity projects in the community.

(No Response)

2. Please describe how the proposed project(s) will promote student achievement and increase student and/or staff access to the Internet in a manner that enhances student learning and/or instruction outside of the school day and/or school building.

(No Response)

3. Community connectivity projects must comply with all the necessary local building codes and regulations (building and related permits are not required prior to plan submission).

I certify that we will comply with all the necessary local building codes and regulations.

4. Please describe the physical location of the proposed investment.

(No Response)

5. Please provide the initial list of partners participating in the Community Connectivity Broadband Project, along with their Federal Tax Identification (Employer Identification) number.

Project Partners	Federal ID #
(No Response)	(No Response)

6. If you are submitting an allocation for **Community Connectivity**, complete this table. **Note that the calculated Total at the bottom of the table must equal the Total allocation for this category that you entered in the SSIP Overview overall budget.**

	Sub-Allocation
Network/Access Costs	(No Response)
Outside Plant Costs	(No Response)
Tower Costs	(No Response)
Customer Premises Equipment	(No Response)
Professional Services	(No Response)
Testing	(No Response)
Other Upfront Costs	(No Response)
Other Costs	(No Response)
Totals:	0

7. Please detail the type, quantity, per unit cost and total cost of the eligible items under each sub-category. This is especially important for any expenditures listed under the "Other" category. All expenditures must be capital-bond eligible to be reimbursed through the SSBA. If you have any questions, please contact us directly through smartschools@nysed.gov.

Add rows under each sub-category for additional items, as needed.

Classroom Learning Technology

Page Last Modified: 05/16/2018

1. In order for students and faculty to receive the maximum benefit from the technology made available under the Smart Schools Bond Act, their school buildings must possess sufficient connectivity infrastructure to ensure that devices can be used during the school day. Smart Schools Investment Plans must demonstrate that sufficient infrastructure that meets the Federal Communications Commission’s 100 Mbps per 1,000 students standard currently exists in the buildings where new devices will be deployed, or is a planned use of a portion of Smart Schools Bond Act funds, or is under development through another funding source. Smart Schools Bond Act funds used for technology infrastructure or classroom technology investments must increase the number of school buildings that meet or exceed the minimum speed standard of 100 Mbps per 1,000 students and staff within 12 months. This standard may be met on either a contracted 24/7 firm service or a "burstable" capability. If the standard is met under the burstable criteria, it must be:

1. Specifically codified in a service contract with a provider, and
2. Guaranteed to be available to all students and devices as needed, particularly during periods of high demand, such as computer-based testing (CBT) periods.

Please describe how your district already meets or is planning to meet this standard within 12 months of plan submission.

The District currently has sufficient infrastructure that meets the Federal Communication Commission's 100 Mbps per 1,000 students standard in the buildings, where new devices will be deployed. Current total bandwidth totals 2 Gbps of internet service, through two separate service providers. This meets the minimum standards and also provides redundancy throughout our campus.

- 1a. If a district believes that it will be impossible to meet this standard within 12 months, it may apply for a waiver of this requirement, as described on the Smart Schools website. The waiver must be filed and approved by SED prior to submitting this survey.

By checking this box, you are certifying that the school district has an approved waiver of this requirement on file with the New York State Education Department.

2. Connectivity Speed Calculator (Required)

	Number of Students	Multiply by 100 Kbps	Divide by 1000 to Convert to Required Speed in Mb	Current Speed in Mb	Expected Speed to be Attained Within 12 Months	Expected Date When Required Speed Will be Met
Calculated Speed	8,500	850,000	850	2000	3000	Currently Met

3. If the district wishes to have students and staff access the Internet from wireless devices within the school building, or in close proximity to it, it must first ensure that it has a robust Wi-Fi network in place that has sufficient bandwidth to meet user demand.

Please describe how you have quantified this demand and how you plan to meet this demand.

Over the summer of 2016, the district installed a comprehensive WiFi infrastructure to support over 10,000 devices. This includes the placement of over 350 antennas throughout our campus.

4. All New York State public school districts are required to complete and submit an Instructional Technology Plan survey to the New York State Education Department in compliance with Section 753 of the Education Law and per Part 100.12 of the Commissioner’s Regulations.

Districts that include educational technology purchases as part of their Smart Schools Investment Plan must have a submitted and approved Instructional Technology Plan survey on file with the New York State Education Department.

By checking this box, you are certifying that the school district has an approved Instructional Technology Plan survey on file with the New York State Education Department.

Smart Schools Investment Plan - 2016-17 Version (Original) - SEW-SBA-2015-P3Classroom Learning Technology

Page Last Modified: 05/16/2018

5. **Describe the devices you intend to purchase and their compatibility with existing or planned platforms or systems. Specifically address the adequacy of each facility's electrical, HVAC and other infrastructure necessary to install and support the operation of the planned technology.**

The District plans on purchasing the next phase of Apple iPad devices (2018 version) for our incoming 7th grade students for the 2018-2019 school year. MacBook Pro devices are being purchased for both enhanced productivity and classroom instruction. Classrooms have already been tooled to support these technologies with the appropriate outlets and charging stations. Over the summer of 2016, the district installed a comprehensive WiFi infrastructure to support over 10,000 devices. This includes the placement of over 350 antenna throughout our campus.

Smart Schools Investment Plan - 2016-17 Version (Original) - SEW-SBA-2015-P3

Classroom Learning Technology

Page Last Modified: 05/16/2018

6. Describe how the proposed technology purchases will:
- > enhance differentiated instruction;
 - > expand student learning inside and outside the classroom;
 - > benefit students with disabilities and English language learners; and
 - > contribute to the reduction of other learning gaps that have been identified within the district.

The expectation is that districts will place a priority on addressing the needs of students who struggle to succeed in a rigorous curriculum. Responses in this section should specifically address this concern and align with the district's Instructional Technology Plan (in particular Question 2 of E. Curriculum and Instruction: "Does the district's instructional technology plan address the needs of students with disabilities to ensure equitable access to instruction, materials and assessments?" and Question 3 of the same section: "Does the district's instructional technology plan address the provision of assistive technology specifically for students with disabilities to ensure access to and participation in the general curriculum?")

The District's Technology Plan is to establish a culture of collaboration, creativity, critical thinking and authentic learning that promotes socially conscious citizens who are college- and career-ready. The use of iPads in classroom instruction will allow our students to feel valued and empowered to contribute to a global community. Through the integration of this technology, the district aims:

- To transform learning by boosting creativity and tapping into student choice and interest, allowing for personalized learning and sharing with authentic audiences.
- To increase teacher and student confidence with transformative learning practices by increasing professional development by teacher leaders, for teachers. This includes administrative modeling, expectations and best practices.
- To ensure all teachers will be engaging students in using the device to make certain that there is equitable opportunity to learn in all five high schools.
- To ensure all our schools will successfully incorporate the infrastructure, devices, professional development, content and human capacity necessary to implement the one-to-one initiative, exemplifying an effective transition to digital learning.

The school communities will consistently incorporate a Learning Management System, including a gradebook, parent portal and other digital resources for communication, collaboration and professional practice. When high quality teaching is infused with the dynamic use of technology, personalized student learning becomes possible. The Sewanhaka Central High School District has taken the Future Ready District Pledge, designed by the US DoE to set out a roadmap to achieve that success and to commit districts to move as quickly as possible towards a shared vision of preparing students for success in college, career, and citizenship. All students will benefit from the integration of this technology in the following ways:

- Students have the tools to be more creative
- Students have the tools to individualize their own learning
- Students have less to carry
- Students have more choice in the work they produce
- Classes are more collaborative and engaging
- Students learn to use technology for organization and learning-not just entertainment and communication
- Students are positioned to be more competitive in higher education, the work force, and life beyond high school

The district will be working to use technology to enhance instruction for our English learners. Apps already identified by our teachers include Google Translate, Hello-Hello English, speech and basic pronunciation tutors, and Word Wit. Apple iPad have multilingual features and accessibility tools that enable all students to type in their native language and translation tools to help students adapt to an English language learning environment. Our educators of students with special needs are finding that iPads can be a vital tool to support independence. The iPad provides students with a simple and familiar user interface that can be used by almost everyone. It is also a highly customizable device that can be set up with applications and assistive features to support a variety of special needs. The iPad includes a full suite of accessibility tools. Apple will continue to provide our Special Education staff with professional development to explore the key features built into their products for students with special needs. Educators are continually reviewing applications for special education, and focus on the following:

- Differentiation: How adaptable is the application to the population being served?
- Alignment: How well does the application align with both the curriculum and the student's IEP?
- Data collection: What kind of feedback does the app provide to document progress?
- Motivation: How well do students respond to the application?

To this date, teachers have identified the following apps depending on their special needs:

SOSH: This app is filled with activities and tools designed to help children and adults who have difficulty with social skills. Sosh is divided into five sections including Relate (connect with others), Relax (reduce stress), Regulate (manage behaviors), Reason (think it through), and Recognize

Smart Schools Investment Plan - 2016-17 Version (Original) - SEW-SBA-2015-P3

Classroom Learning Technology

Page Last Modified: 05/16/2018

(understand feelings).

Clicker Docs: This app is an assistive word processor that can support students with a variety of disabilities. It uses word-prediction technology to offer students spelling and grammatical suggestions to correct their writing. Synthesized speech allows students to review their work by listening for auditory cues.

Symbol Support: This assistive word processor automatically translates words into pictures and symbols, a task that is especially helpful for students with cognitive disabilities.

Read2Go: This app works with Bookshare.org, and provides electronic copies of books and periodicals for readers with print disabilities. The books are downloaded in an electronic form that can be easily modified to meet the needs of readers with diverse disabilities.

Proloquo2Go: This augmentative and alternative communication (AAC) app provides an easy-to-use "voice" for individuals who cannot otherwise speak.

7. **Where appropriate, describe how the proposed technology purchases will enhance ongoing communication with parents and other stakeholders and help the district facilitate technology-based regional partnerships, including distance learning and other efforts.**

The District will ensure that parents have resources available through our website (www.sewanhaskaschools.org/technology) which will be accessible on the iPads from both on campus and beyond. Students are all given e-mail addresses which are accessible through the mobile technology. The District has also established partnerships with our local libraries

Smart Schools Investment Plan - 2016-17 Version (Original) - SEW-SBA-2015-P3

Classroom Learning Technology

Page Last Modified: 05/16/2018

8. Describe the district's plan to provide professional development to ensure that administrators, teachers and staff can employ the technology purchased to enhance instruction successfully.

Note: This response should be aligned and expanded upon in accordance with your district's response to Question 1 of F. Professional Development of your Instructional Technology Plan: "Please provide a summary of professional development offered to teachers and staff, for the time period covered by this plan, to support technology to enhance teaching and learning. Please include topics, audience and method of delivery within your summary."

Professional development in the Sewanhaka District is rooted in the belief that to succeed in the 21st Century, teachers must be agents of change. They must be dedicated to using this change as an impetus to promoting student success and readiness for challenges in various post-secondary workplace or educational environments. As agents of change, teachers will be provided with a diversity of opportunities to become exposed to new ideas and pedagogical strategies. We believe in building upon our teachers' successes by fostering their spirit of intellectual inquiry and rewarding their willingness to take risks and experiment with new ways of promoting greater student success. We take great pride in the high standards our faculty sets for its own professional growth.

As part of our plan, the district will provide access to high-quality, ongoing, job-embedded opportunities for professional learning for teachers, administrators, and other education professionals. Such opportunities ultimately lead to improvements in student success and create broader understanding of the skills that comprise success in a digital age.

Digital Professional learning communities, peer-to-peer lesson sharing, and better use of data and formative assessment, combined with less emphasis on "sit and get" professional development sessions eliminate the confines of geography and time. These ever-increasing resources offer teachers and administrators vast new opportunities to collaborate, learn, share, and produce best practices with colleagues in school buildings across the country.

Digital leaders establish this type of collaborative culture. They model and are transparent with their own learning. In addition, educators must be engaged in more collaborative, goal-oriented approaches to the evaluation of their own teaching to serve as a personal model for the experiences that they might bring to students.

To help achieve these goals and ensure that the staff can employ the technology purchased to successfully enhance instruction, the District has also adopted the LoTi (Levels of Innovative Teaching) Technology Integration Model (<http://loticonnection.com/>). LoTi has developed a classroom walkthrough protocol with a simple acronym, HEAT, which stands for Higher Order Thinking Skills, Engaged Learners, Authentic Learning, and Technology Use. LoTi has developed resources to show that the HEAT framework aligns to and supports many educational initiatives, like Understanding by Design. District leaders will continue to use the HEAT Rubric to assess faculty progress and develop professional development opportunities.

The District will also continue to partner with Apple to provide professional services:

- **Apple Professional Learning (40 Days):** These services provide teaching staff direct access to an Apple Senior Professional Learning Specialist, who can push into classrooms and provide teachers with individualized support for lesson planning integrating technology.
- **Apple Leadership Foundation (1 Day):** This session focuses on leadership topics for building principals. These educational leaders will learn how to use technology to communicate with stakeholders (parents, students, community), and develop strategies to model the use of technology in their professional activities.
- **Apple Leadership for Learning (1 Day):** This session provides model technology integration lessons to learn and share with other staff.
- **Apple Academy (5 Days):** Five additional teachers will become certified as Apple Learning Specialists, and be able to provide additional professional development within the District. The objective for the Academy is to provide hands-on and immersive learning experiences to help participants gain confidence and context, enabling them to innovate their instructional practices. Participants will build confidence infusing technology into current learning and teaching practices. We will identify individual learning goals based on new skills and knowledge from prior experiences. Participants will practice and apply skills and knowledge related to learning and teaching practice. Through guided practice from Apple Senior Professional Learning Specialists, participants will work independently, with a partner, or group members to identify a learning activity from an upcoming unit of study then plan, design, and create a personal learning project. During future coaching and mentoring cycles, the Apple Professional Learning Specialists will support and model integration with individuals within classrooms and other learning spaces.
- **Launch Services (6 Days):** These full day workshops provides teachers with training on how to use Google Apps (Docs, Sheets, Slides), Apple Apps (Pages, Numbers, Keynote, Classroom), and Microsoft 365 Apps (Word, PowerPoint, Excel) on the iPad. Instruction also covers how to explore and download content specific apps (DiscoveryED, ebooks, iTunesU).
- **New York Learns:** Professional development will be provided to help educators access and leverage ongoing curriculum maps.
- **Schoolology:** Professional development will be provided to help educators fully utilize the features of this Learning Management System.
- **App-Specific Professional Development:** Professional Learning sessions will be held on specific apps and programs, including, but not limited to, Geogebra, GoodNotes, GoFormative, ZipGrade, Naviance, and Khan Academy.

Smart Schools Investment Plan - 2016-17 Version (Original) - SEW-SBA-2015-P3

Classroom Learning Technology

Page Last Modified: 05/16/2018

Finally, as part of the SFT collective bargaining agreement, faculty can be assigned up to 16 productivity sessions of professional development as approved by the Principal or Assistant Superintendent for Curriculum and Instruction. To that end, the following menu of options has been developed, in line with the District Strategic Plan, to guide this work. Building Principals in collaboration with the Assistant Superintendent for Curriculum and Instruction will develop a process for scheduling and overseeing approved professional development opportunities within the building. These sessions are run by building leaders, outside consultants, and our team of certified Apple Learning Specialists.

9. **Districts must contact the SUNY/CUNY teacher preparation program that supplies the largest number of the district's new teachers to request advice on innovative uses and best practices at the intersection of pedagogy and educational technology.**

By checking this box, you certify that you have contacted the SUNY/CUNY teacher preparation program that supplies the largest number of your new teachers to request advice on these issues.

- 9a. **Please enter the name of the SUNY or CUNY Institution that you contacted.**

Old Westbury

- 9b. **Enter the primary Institution phone number.**

516-876-3275

- 9c. **Enter the name of the contact person with whom you consulted and/or will be collaborating with on innovative uses of technology and best practices.**

Dr. Nancy Brown

10. **A district whose Smart Schools Investment Plan proposes the purchase of technology devices and other hardware must account for nonpublic schools in the district.**

Are there nonpublic schools within your school district?

- Yes
 No

- 10a. **Describe your plan to loan purchased hardware to nonpublic schools within your district. The plan should use your district's nonpublic per-student loan amount calculated below, within the framework of the guidance. Please enter the date by which nonpublic schools must request classroom technology items. Also, specify in your response the devices that the nonpublic schools have requested, as well as in the in the Budget and the Expenditure Table at the end of the page.**

The District has two nonpublic schools within our boundaries, which have both adopted our approach to technology integration. However, they have standardized on Google Chromebooks instead of Apple iPads. Our previous two SSBA submissions already total \$194 per pupil, so we can only budget \$56 per student as we are reaching the maximum allowance of this plan. Once the Smart School Plan is approved, both school principals are ready to request these devices, with the target date for this rollout of September 2018. The nonpublic schools will have to request use of the future devices by July 15th, annually.

- 10b. **A final Smart Schools Investment Plan cannot be approved until school authorities have adopted regulations specifying the date by which requests from nonpublic schools for the purchase and loan of Smart Schools Bond Act classroom technology must be received by the district.**

By checking this box, you certify that you have such a plan and associated regulations in place that have been made public.

11. **Nonpublic Classroom Technology Loan Calculator**

The Smart Schools Bond Act provides that any Classroom Learning Technology purchases made using Smart Schools funds shall be lent, upon request, to nonpublic schools in the district. However, no school district shall be required to loan technology in amounts greater than the total obtained and spent on technology pursuant to the Smart Schools Bond Act and the value of such loan may not exceed the total of \$250 multiplied by the nonpublic school enrollment in the base year at the

Smart Schools Investment Plan - 2016-17 Version (Original) - SEW-SBA-2015-P3

Classroom Learning Technology

time of enactment.

See: http://www.p12.nysed.gov/mgtserv/smart_schools/docs/Smart_Schools_Bond_Act_Guidance_04.27.15_Final.pdf.

	1. Classroom Technology Sub-allocation	2. Public Enrollment (2014-15)	3. Nonpublic Enrollment (2014-15)	4. Sum of Public and Nonpublic Enrollment	5. Total Per Pupil Sub-allocation	6. Total Nonpublic Loan Amount
Calculated Nonpublic Loan Amount	793,784	8,077	158	8,235	56	8,848

12. **To ensure the sustainability of technology purchases made with Smart Schools funds, districts must demonstrate a long-term plan to maintain and replace technology purchases supported by Smart Schools Bond Act funds. This sustainability plan shall demonstrate a district's capacity to support recurring costs of use that are ineligible for Smart Schools Bond Act funding such as device maintenance, technical support, Internet and wireless fees, maintenance of hotspots, staff professional development, building maintenance and the replacement of incidental items. Further, such a sustainability plan shall include a long-term plan for the replacement of purchased devices and equipment at the end of their useful life with other funding sources.**

By checking this box, you certify that the district has a sustainability plan as described above.

13. **Districts must ensure that devices purchased with Smart Schools Bond funds will be distributed, prepared for use, maintained and supported appropriately. Districts must maintain detailed device inventories in accordance with generally accepted accounting principles.**

By checking this box, you certify that the district has a distribution and inventory management plan and system in place.

14. If you are submitting an allocation for **Classroom Learning Technology** complete this table. **Note that the calculated Total at the bottom of the table must equal the Total allocation for this category that you entered in the SSIP Overview overall budget.**

	Sub-Allocation
Interactive Whiteboards	0
Computer Servers	0
Desktop Computers	0
Laptop Computers	202,588
Tablet Computers	591,000
Other Costs	196
Totals:	793,784

15. **Please detail the type, quantity, per unit cost and total cost of the eligible items under each sub-category. This is especially important for any expenditures listed under the "Other" category. All expenditures must be capital-bond eligible to be reimbursed through the SSBA. If you have any questions, please contact us directly through smartschools@nysed.gov.**

Please specify in the "Item to be Purchased" field which specific expenditures and items are planned to meet the district's nonpublic loan requirement, if applicable.

NOTE: Wireless Access Points that will be loaned/purchased for nonpublic schools should ONLY be included in this category, not under School Connectivity, where public school districts would list them.

Add rows under each sub-category for additional items, as needed.

Pre-Kindergarten Classrooms

Page Last Modified: 05/10/2018

1. Provide information regarding how and where the district is currently serving pre-kindergarten students and justify the need for additional space with enrollment projections over 3 years.

(No Response)

2. Describe the district's plan to construct, enhance or modernize education facilities to accommodate pre-kindergarten programs. Such plans must include:

- Specific descriptions of what the district intends to do to each space;
- An affirmation that pre-kindergarten classrooms will contain a minimum of 900 square feet per classroom;
- The number of classrooms involved;
- The approximate construction costs per classroom; and
- Confirmation that the space is district-owned or has a long-term lease that exceeds the probable useful life of the improvements.

(No Response)

3. Smart Schools Bond Act funds may only be used for capital construction costs. Describe the type and amount of additional funds that will be required to support ineligible ongoing costs (e.g. instruction, supplies) associated with any additional pre-kindergarten classrooms that the district plans to add.

(No Response)

4. All plans and specifications for the erection, repair, enlargement or remodeling of school buildings in any public school district in the State must be reviewed and approved by the Commissioner. Districts that plan capital projects using their Smart Schools Bond Act funds will undergo a Preliminary Review Process by the Office of Facilities Planning.

Please indicate on a separate row each project number given to you by the Office of Facilities Planning.

Replace Transportable Classrooms

Page Last Modified: 05/10/2018

1. Describe the district’s plan to construct, enhance or modernize education facilities to provide high-quality instructional space by replacing transportable classrooms.

(No Response)

2. All plans and specifications for the erection, repair, enlargement or remodeling of school buildings in any public school district in the State must be reviewed and approved by the Commissioner. Districts that plan capital projects using their Smart Schools Bond Act funds will undergo a Preliminary Review Process by the Office of Facilities Planning.

Please indicate on a separate row each project number given to you by the Office of Facilities Planning.

Project Number
(No Response)

3. For large projects that seek to blend Smart Schools Bond Act dollars with other funds, please note that Smart Schools Bond Act funds can be allocated on a pro rata basis depending on the number of new classrooms built that directly replace transportable classroom units.

If a district seeks to blend Smart Schools Bond Act dollars with other funds describe below what other funds are being used and what portion of the money will be Smart Schools Bond Act funds.

(No Response)

4. If you have made an allocation for **Replace Transportable Classrooms**, complete this table. Note that the calculated Total at the bottom of the table must equal the Total allocation for this category that you entered in the SSIP Overview overall budget.

	Sub-Allocation
Construct New Instructional Space	(No Response)
Enhance/Modernize Existing Instructional Space	(No Response)
Other Costs	(No Response)
