2. Please indicate below whether this is the first submission or an amended submission of an already approved Smart Schools Investment Plan.

First submission

3. Pursuant to the requirements of the Smart Schools funding, the planning process must include consultation with parents, teachers and students.

By checking the boxes below, you are certifying that you have engaged with those required stakeholders. *Each box must be checked prior to submitting your Smart Schools Investment Plan.*

- Parents
- Teachers
- Students

4. Certify that the following required steps have taken place by checking the boxes below: *Each box must be checked prior to submitting your Smart Schools Investment Plan.*

- The Smart Schools Investment Plan was posted on the school website for at least two weeks. The school included an address to which any written comments on the plan should be sent.
- The school board/trustees conducted a hearing that enabled stakeholders to respond to the Plan. This hearing may have occurred as part of a normal Board meeting, but adequate notice of the event must have been provided through the school website for at least two weeks prior to the meeting.
- The final proposed plan that has been submitted has been posted on the school's website and will remain for the duration of the related projects.

4a. Enter the webpage address where the final Smart Schools Investment Plan is posted. The Plan should remain posted for the life of the included projects.

<https://eden2.org/smartschools/>

5. Your school's Smart Schools funding appropriation is:

\$37,024

6. Enter the budget sub-allocations by category that you are submitting for approval at this time. If you are not budgeting Smart Schools funds for a category, please enter 0 (zero.) If the value entered is \$0, you will not be required to complete that survey question.

School Connectivity

Page Last Modified: 09/19/2022

1. Describe how you intend to use Smart Schools funds for high-speed broadband and/or wireless connectivity projects in school buildings.

(No Response)

2. Describe how the school plans to use digital connectivity and technology to improve teaching and learning.

(No Response)

3. Does your School Connectivity project require new construction or substantially altered space and result in capitalized cost in excess of \$100,000?

No

4. If you are submitting an allocation for School Connectivity complete this table.

Note that the calculated Total at the bottom of the table must equal the Total allocation for this category that you entered in the SSIP Overview overall budget.

	Sub-Allocation

SSBA - Special Education Schools - Special Ed SSIP - Eden II Programs_ First Submission_#1Classroom Learning Technology Equipment (Devices)

Page Last Modified: 02/08/2023

1. Describe the devices you intend to purchase and their compatibility with existing or planned platforms or systems.

Eden II intends to purchase 5 Lenovo Laptops, 3 Macbooks, 30 I pads of varying sizes, a Smart Board interactive board for a classroom, two all in one computer desktop machine, and ten Dell Desktop towers.

All of these items have been identified with help from our IT department to ensure that they are compatible with current servers, platforms and device management systems.

2. Describe how the proposed technology purchases will improve teaching and learning inside or outside of the classroom.

The Smart Board will allow the classroom to have a more interactive and enriched learning environment for the students. They will be able to work in group settings and learn valuable materials that will make them more independent throughout their lives.

The laptops are meant to facilitate the interactive learning by allowing staff to create lessons and have access to a variety of websites and teaching materials for resources that can be used on a daily basis in the classrooms.

The two all in one computers are being piloted to replace our old desktops. These computers will have touch screens and the main tower is built right into the monitor as well.

The Dell desktops will be used to replace some of our older towers that need to be updated to use with the most recent and updated technology available to our students and staff.

Students use the iPads for not only leisure time, but for communication and group participation. There are many websites that allow students to answer polls and reply on their I pads and have them be linked to the Smart Board

3. To ensure the sustainability of technology purchases made with Smart Schools funds, schools must have a plan to maintain and support technology purchases reimbursed with Smart Schools funds. This sustainability plan should support recurring costs of use that are ineligible for Smart Schools funding such as device maintenance, technical support, Internet and wireless fees, maintenance of hotspots, staff professional development, building maintenance and the replacement of incidental items.

By checking this box, you certify that the school has a sustainability plan as described above.

4. Schools must ensure that devices purchased with Smart Schools funds will be distributed, prepared for use, maintained and supported appropriately. Schools must maintain detailed device inventories in accordance with generally accepted accounting principles.

By checking this box, you certify that the school has a distribution and inventory management plan and system in place.

5. Schools must contact the SUNY/CUNY teacher preparation program that supplies the largest number of its new teachers to request advice on innovative uses and best practices at the intersection of pedagogy and educational technology.

By checking this box, you certify that you have contacted the SUNY/CUNY teacher preparation program that supplies the largest number of your new teachers to request advice on these issues.

5a. Please enter the name of the SUNY or CUNY Institution that you contacted.

CUNY College of Staten Island

5b. Enter the primary Institution phone number.
