Directions

1. Click on the number in each cell in the table to see the list of included students. Review the data to verify that this report includes all preschool children with disabilities (aged 3-4) for whom your district had CPSE responsibility and who were receiving special education services from each special education service provider or coordinating service provider (referred to as the Primary Service Provider in the Special Education Snapshot record) on October 5, 2022.
2. Utilize the exclusion Oct. Reports to review the list of students excluded from the report and verify that they do not meet the criteria to be included.
3. If corrections are needed to this report, please submit the revised data to your Regional Information Center or, for large cities, to the state data warehouse prior to the certification due date. Check with your RIC on their deadline for submitting data to them in order to ensure that the data is refreshed in PD by the certification due date. The RIC deadline will be in the week prior to the certification due date.

For your information, approved special education service providers will be able to see a report with your count of preschool children served by that provider, although they will not be shown the students' names. They may contact your special education office if their records do not match your report. We encourage school districts to review each approved special education service provider's SEDCAR 1 form to ensure that all preschool students are reported accurately.
